Mr. Advertiser

Did you ever stop to think how long it would take you to personally solicit 165,000 people? Quite a while, wouldn't it? Sure it would! These people can be reached directly and personally in one single issue of THE WORLD. Figure it out for yourself, taking the admitted plan of an average of five people reading a newspaper each day, and with our circulation of 33,000 daily you have the number of people—and the people who buy—that see our advertisement. No other medium of publicity in Vancouver covers the ground as thoroughly as THE WORLD. Going as it does into a majority of the homes, it is the medium through which you must make known the merchandise you have to sell, real estate to sell, or in fact any publicity that you desire brought in a convincing manner before readers of newspapers.

If you are not already a user of space in THE WORLD columns, telephone Seymour 4516 and let one of our advertising solicitors talk it over with you. You have all to gain and nothing whatever to lose by the transaction.

Two Full Leased Wire Services of the Associated Press through the Canadian Press, Limited, and the United Press, direct in THE WORLD office. Also Independent Cable of Australia. Phone Seymour 4516.
