

These Three Preparations Free.

Step By Step The Stocum Treatment Cures Consumption

Dr. Slocum, the famous scientist, whose lectures and demonstrations in New York and London this winter have astounded medical circles, has at last perfected his new system of treatment for the absolute cure of tuberculosis and all pulmonary diseases.

This triumphant victory over the deadly bacilli is far reaching in its effects, for their is no longer room for doubt that the gifted specialist has given to the world a boon that will save millions of precious lives.

Dr. Slocum's System of Treatment is both scientific and progressive going as it does to the very source of the disease and performing the cure step by step.

First Step.—Killing the life-destroying germs which invest the lungs.

Second Step.—Toning the entire system and strengthening the nerves—filling the veins with tingling new life.

Third Step.—Building healthy flesh and fortifying against future attacks.

The Stocum Treatment is revolutionary because it provides a new application for every stage of the disease. The failures of inoculation by Paris scientists are overcome by Slocum through progressive drug force. The diseases leading to consumption are both scientific and progressive going as it does to the very source of the disease and performing the cure step by step.

The Stocum System cures grip and its painful after-effects, dangerous coughs, bronchitis, and every known form of pulmonary disease.

It makes weak lungs sound, strengthens them against any ordeal, and gives endurance to those who have inherited hollow chests, with their long train of attending dangers.

To enable despairing sufferers everywhere to obtain speedy help before too late, Dr. Slocum offers

FULL FREE TREATMENT

to every reader of this paper.

Simply write to THE T. A. SLOCUM CHEMICAL CO., Limited, 779 King St. West, Toronto, giving post office and express office address, and the free medicine (The Stocum Cure) will be promptly sent.

Sufferers should take instant advantage of this generous proposition, and when writing for them always mention this paper.

Persons in Canada, seeing Slocum's free offer in American papers will please send for samples to the Toronto laboratories.

Let no previous discouragements prevent your taking advantage of this splendid free offer before too late.

TASTED BUFFALO JUSTICE.

London Lad of 17 Sent to Penitentiary

BECAUSE HE WAS ROBBED.

A Buffalo, N.Y., despatch says: David Johns, 17 years old, hailing from London, Canada, is the latest victim of the gang of sharpers [and Buffalo justice?] which infests the railroad stations.

Johns came to Buffalo yesterday afternoon, and while waiting in the New York Central Station on Exchange street, was approached by two men, who entered into conversation with him. They suggested he was from out of town, suggested that all take a walk, and started to see the town. After they showed Johns the big buildings they made their way to a saloon on Michigan street, near Swan. Here he was prostrated with whiskey and relieved of about \$20.

Johns met Sergt. Ryan, of the first precinct, and told him his story. Johns was unable to point out the men who roped him to buy drinks. He was so drunk that the sergeant decided to lock him up on the charge of intoxication.

He was arraigned before Judge Graf, in the Sunrise Court, was convicted and fined \$5. Not having the money he was sent to the penitentiary.

Every mother should see that her daughter from 12 to 18 years of age takes an occasional course of Miller's Compound Iron Pills.

BRITISH COULD SHOOT.

Fine Work of the Gunners at Magersfontein.

No praise can possibly be too great for the way in which the gunners served our fieldpieces throughout the day without a vestige of cover. Not content with a range of a mile, the yards in order to get a more exact range on the trenches, while the horse artillery on the right, on a slight eminence which gave shelter to our guns, kept up a rapid fire right and left and in front at a range which averaged 1,500 yards. It is impossible to give the exact number of yards in such cases, because our guns had absolutely no target, but were firing now at the kopjes and now about two hundred yards shorter at the line on the left where our gunners imagined the trenches to be. But enough has been said to show that they kept up a finely concentrated fire upon the front of the enemy's stronghold during the greater part of the day.

From "Magersfontein," by H. J. Whigham, in the April Scribner's.

The Best Spring Medicine.

Dr. Arnold's English Tonic Pills clear the blood of disease germs as thoroughly as intense frost clears the air of germs. No boils, eruptions, nor skin diseases, no dyspepsia, sour stomach, depression, sick, or nervous headache, nor female weakness can exist when Dr. Arnold's English Tonic Pills are used. They are the most perfect spring medicine known.

At all drug stores—large box 75c, small box 50c, or postpaid on receipt of price, from Dr. Arnold Chemical Co., Limited, Canada Life Building, Toronto.

WHY DE BATHE LEFT.

Lily Would Not Buy Him an Automobile.

New York Telegraph: Because of report that Hugo de Bathe, the young husband of Mrs. Langtry, is in hospital in South Africa, speculation has been again raised in London as to why he separated so soon from his wife. The common idea was that Langtry had tired of him, but it is said by those who know that De Bathe grew quite miffed because the Lily wouldn't buy him an automobile.

Mrs. Langtry paid out much British money to keep her little husband happy and contented, and surely no hint in London was cheerier or more home-like than theirs. His tastes for luxuries developed to a point, however, where he could not gratify them without paying the oil stove, and so De Bathe left her. Just before leaving he was heard to sing in one of the clubs:

Lily won't buy me a mobile,
A mobile, a mobile,
She bought me a spider cart,
But it almost broke my heart,
When she said she wouldn't buy a mobile.

New life for a quarter. Miller's Compound Iron Pills.

A Few Family Names.

British census reports of family names give in England and Wales 253,636 Smiths, 242,100 Joneses, 231,970 Browns, 22,091 Coopers, 31,200 O'Neils, 29,100, and 1 Peilly, 29,000.

Mrs. G. Howell, Dante, Ont., says: I find Miller's Worm Powders a good medicine.

ONE WAY OF KILLING WHALES.

There is Little of Excitement or Danger.

Dr. Frederick W. True, of the Smithsonian Institution, who has just spent two months in whale hunting in Green Bay, on the northeastern coast of Newfoundland, reports an interesting experience. He was sent out by the institution to study the flaback whale, and of ninety-eight animals caught all but eleven were of this variety. The story-book romance has gone entirely out of whaling as pursued by the Newfoundlanders. There is no frail whaleboat, with the grizzled old harpooner in the bow to strike the whale, but instead a little steam craft and a powerful gun.

This gun throws a large iron harpoon, with crossarms while he against the shaft until it strikes a solid body, and then project out and imbed them.

The head of this harpoon is cigar-shaped and sharp-pointed and explodes as it pierces the whale's side, generating a gas, which serves to keep the fish afloat after the wrecking effect of the shock on its internal organs has left it a lifeless mass. A stout rope is attached to the butt of the harpoon, and by this the whale is kept in leash as it thrashes madly through the water in a vain effort to escape its unknown enemy. Death rapidly ensues, unless, as sometimes happens, the projectile goes through the fish from side to side, when a second shot is necessary.

FROM PAIN TO HEALTH.

A Chippewa Lady Tells a Story of Suffering and Release.

Suffered From Heart Trouble for Years—Her Misery Further Aggravated by Kidney and Stomach Trouble.

From the Star, St. Catharines, Ont.

In the village of Chippewa, and along the Niagara frontier, there is probably no better known or respected resident than Mr. and Mrs. David Schabel. Both are of German descent and display much of that old-fashioned hospitality so often found in the fatherland. To a correspondent of the St. Catharines Star, who recently called at Mr. Schabel's home, Mrs. Schabel related the following story: "Years ago my physician told me I had heart disease. I have been troubled at intervals with palpitation and severe pains, and sometimes my heart would almost cease to beat. I would become dizzy, restless and frightened. At other times I slept badly and had troublesome dreams. I lingered in this state until last winter when exposure to cold affected my kidneys and completely prostrated me. The spring came, when my complaints were further aggravated by stomach trouble. I loathed food and could realize that I was daily growing weaker. My physician's treatment would sometimes slightly benefit me, but as time wore on, I was worse than ever. Finally, after all hope was apparently gone and a large sum of money had been thrown away for medicines that did me no good, a friend strongly advised me to try Dr. Williams' Pink Pills, two boxes of which were brought me at the beginning of the summer of 1899. I used them and in a very short time I noticed improvement. I continued the use of the pills faithfully until I had taken eight boxes. I am now able to attend to all my household duties, and my health is as good as ever. I have never had better health than I am now enjoying, and since discontinuing the pills have had no symptoms of the old complaint. I feel that I am under lifelong obligations for the benefit I have derived from Dr. Williams' Pink Pills, and will continue to praise them when opportunity offers."

Color in Medical Practice.

The use of colors as a part of medical treatment is not a new one. Red light, for example, has been recently advocated in the treatment of measles and smallpox. Jean Gaddesden cured the son of Henry L. King of England, of smallpox by surrounding the prince with scarlet, clothing him in scarlet, as well as all his attendants, and having red carpets and hangings in the room. The record shows this cured so well that his face was not even scarred.

How's This?

We offer—One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him to be honorable in all business transactions and financially able to carry out any obligations made by him.

WALTER D. WALKER, Wholesale Druggist, Toledo, O. WALKER, KINMAN & MARVIN, Wholesale Druggists, Toledo, O.

Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Price, 50c. Sold by all Druggists. Testimonials free. Hall's Family Pills are the best.

Not Worth Mentioning.

A clergyman was called upon to perform a marriage ceremony for a couple in middle life. "Have you ever been married before?" asked the clergyman of the bridegroom. "No, sir," "Have you?"—to the bride. "Well, yes, I have," replied the bride, laconically; "but it was 20 years ago, and he was killed in an accident, when we had been married only a week, so it really ain't worth mentioning."—San Francisco Wave.

Minard's Liniment cures burns, etc.

Heart-Shaped Revers. Chinchilla is often used on dark green, gray or dark blue gowns, but midwinter sees it employed on gowns of Burgundy red for January visitings. The contrast is rather striking for the red seems a deeper wine color for the blending with cloudy gray chinchilla. A collarette and muff and heart-shaped revers of the dainty fur are all the embellishments required.

Well people do not worry. Take Miller's Compound Iron Pills and be well, 50 doses for a quarter.

TO A COQUETTE.

Although I may have no to-morrow, I have I not had yesterday. Of the future there's naught I would borrow, Although I may have no to-morrow, Thou art fickle, I know, to my sorrow. And so I'll rejoice while I may, Although I may have "No" to-morrow.

A Kitchen Hint.

It is well to remember in cooking vegetables that nearly all are injured by being boiled with fresh meat. The disagreeable odor of boiling cabbage or onions may be lessened by putting a very small amount of cayenne pepper in the boiling water.

Minard's Liniment relieves neuralgia.

German Slave Trade.

The German Government is making vigorous efforts to suppress the slave trade in the German-African colony, and for this purpose the police force there has been considerably augmented.

Miller's Grip Powders cure.

Mrs. Harduppe—What time is it? Mr. Harduppe—I don't know. "Isn't your watch going?" "No; it's gone."

Dressing the Hair.

Fair hair is always prettiest when it is dressed in a fluffy way, which allows the light to shine through it. Dark hair, on the contrary, should be arranged so as to show its gloss, in large masses, full of reflections.

Miller's Worm Powders are a wonderful medicine for ailments of children.

First Offence.

Mrs. Ben Ewert—You don't mean to tell me you were ever a poet? Harvard Ewert—Yes, kind lady, unfortunately I was. Dat wuz where me feet first went astray.—Philadelphia Press.

Minard's Liniment cures dandruff.

A GALLANT FIREMAN.

Attacked by a Fiery and Persistent Fire He Conquered It.

Lumbago Tortured Capt. Mangen for Years—His Doctor Recommended Dodd's Kidney Pills—Three Boxes Effected a Complete Cure.

Point St. Charles, P. Q., March 26. —We owe a great deal to our gallant firemen.

Their work obliges them to risk and often to sacrifice their lives in the most unselfish way.

And the hardships to which they are continually subjected soon tell on them.

The frequent drenchings they undergo, at big fires, bring on Rheumatism, Lumbago and other Kidney troubles.

Lumbago is a common enemy of the fireman.

That is why so many gallant firemen are compelled to retire while still young men.

Lumbago cripples them, weakens them, and unfit them for hard work.

Dodd's Kidney Pills are a specific for the positive and absolute cure of Lumbago.

Dodd's Kidney Pills drive Lumbago out, strengthen and stimulate the kidneys. Then the kidneys provide pure, rich blood for the nourishment of the body.

Dodd's Kidney Pills make the Kidneys filter Lumbago out of the blood. That is how and why they cure the disease so completely.

Capt. T. Mangen, of No. 9 Fire Station, this town, says: "I suffered horrible torture from Lumbago and Kidney troubles, till my doctor advised me to use Dodd's Kidney Pills. I had been a member of the fire brigade for 28 years, and never could get relief from these diseases till Dodd's Kidney Pills gave me it. Three boxes cured me totally."

Color in Medical Practice.

ART IN PICTURE-HANGING.

Good Effects to be Secured Only by Study.

To-day no one hangs pictures in pairs. The time when regularity of arrangement was considered the corner stone of elegance has vanished, and in its place has come a wild struggle after the unexpected by those whose one idea of artistic effect is to have nothing match anything else. The weird result their efforts produce is due to their failure to appreciate the fact that harmony, at least, must rule, even although uniformity has been discarded.

There must be a scheme to which the general tone of the pictures should conform. A dark carbon must not hang close to an etching drawn in delicate lines and bordered by a broad white mat. If water colors with their soft tints elbow oil paintings with their bolder tones, the former will be faded, the latter coarsened.

Let it be grasped, in the first place, that certain things may go together, while others must be barred from the association. Etchings, photographs, drawings, some engravings, water-colors, pastels, may be assembled on friendly terms. Even then, however, there must be judgment exercised in the way they are placed. Contrary to the natural inclination, dark, heavily shaded pictures should not always hang in the strongest light, but should in some cases seek a sheltered position, away from the glare of the windows. Near the light may hang the pictures in fainter tints, the subdued water-colors, the fine engravings, whose best points need illumination. This order may sometimes be reversed when the lowest pictures should be more sombre in hue than the upper, and should lead the eye unconsciously from the deepest tone to the highest light.—Harper's Bazar.

Didn't Follow Instructions.

Indignant Patron—You advertise to cure consumption, don't you? Dr. Quack—Yes, sir. I never fail when my instructions are followed. Indignant Patron—My son took your medicine for a year, and then died. Dr. Quack—My instructions were not followed. I told him to take it for two years.—Ohio State Journal.

To Cure a Cold in One Day

Take Laxative Bromo Quinine Tablets. All Druggists refund the money if it fails to cure. 25c. E. W. Groves' signature is on each box.

A Historic Misconception.

"Nero has been badly maligned by the historians." Careful research has proved him to have been a most exemplary character.

"How about his fiddling while Rome was burning?"

"A pure invention. He was an active member of Appian Hose Company No. 1, and after they had got the fire under control he played for some time on the ruins."—Chicago Record.

PERMANENTLY AND PAINLESSLY CURED IN A FEW DAYS.

Putnam's Painless Corn and Wart Extractor removes all sorts of corns, warts and bunions without pain in a few days. It has been the standard for thirty years. Beware of acid flesh eating, dangerous substitutes and insist on having the genuine Putnam's Sure, safe, painless.

At the sale of the Augustus Daly library in New York last evening a "tall" copy of the first folio Shakespeare (London, 1623), was sold for \$5,400. The purchaser was James E. Hillsworth.

A formal order dividing the Philippines into four military departments has been issued at Washington.
