Demand the Same Standard of Quality in the Case as You do in the Movement.

IN BUYING a watch you are particular to choose a standard movement, for the reason that its intrinsic value returns a full equivalent on your investment. The same principle applies to watch cases. But while you may know a good deal about the movement, it is easy to be fooled on the case, by reason of the several cheapening processes available to the irresponsible manufacturer, whereby he can mislead the uninformed buyer. Fortunately, there is a way to recognize and secure the same high standard in the case as you obtain in the movement, and that way is to look for the "Winged Wheel" inside the case you buy.

Remember that under the Canadian Stamping Act the guarantees of wear are forbidden, and your only safe guide now is the integrity of the maker of the case. For over a quarter of a century the "Winged Wheel" mark of the American Watch Case Co. has been as standard among reputable jewelers as the Hall Mark of England. Its presence on a case is a sign of absolute integrity of gold value and honesty, and reliability of construction. It safeguards you against spurious substitutes. Be sure and look for it.

"THE WATCHMAN." Sent Free. Contains news about latest styles of "Winged Wheel" cases; also tells you how to care for your watch. An expensive booklet sent free of charge. Write for your copy to-day.
