

Assiniboia makes room for complex

Nostalgia has no place in the expansion plans of the campus planning committee.

Assiniboia Hall will likely be removed within a year to make room for a new physical sciences and chemistry building.

Campus development officer J. R. B. Jones said the old residence and the nearby sociology hut will be demolished as soon as authority is received from the campus planning committee to begin work on the twelve storey physical sciences building.

"We wouldn't knock it down if we didn't need the space," he said.

The new complex must be situated close to the present math physics building. The only alternate solution to the Assiniboia Hall site would be the quad. The planning committee does not want to destroy this large field.

AESTHETIC REASONS

Certain temporary buildings will also be removed for "aesthetic reasons" and to provide more space.

Rumors that Athabasca Hall, Pembina Hall, and the Arts building will be torn down soon are not true, Mr. Jones said.

Plans for the next five years still include use of these old buildings.

"There are not many buildings we intend to knock out," said Mr. Jones. "We can't afford it."

Some of the older buildings are being retained because of tradition. Athabasca Hall was the first building on campus and according to Mr. Jones, it "was the university." Classrooms, labs, and student residences were all contained in the same building.

He said the cost of maintaining these buildings must be balanced against their tradition. "We do like to retain what is old and good, but we don't do it for nothing," he said.

"Anything that's useful we'll retain."

GOOD OLD DAYS

Mrs. Reg Lister, whose husband was superintendent of building for 45 years, recalled the days when her husband supervised students in the three older residences.

"It was just like a family; it was so small," she said.

She said she did not think the same atmosphere could be achieved in the larger residences.

The old buildings should be re-

Sport shorts

The Varsity Bowling Club will be holding a Men's Singles bowling tournament Sunday, Dec. 4 at the Windsor Bowl. There are cash prizes for the top three positions.

All university students are eligible to compete in the event which begins at 1 p.m.

There will be eight games at 25 cents per game plus a two dollar entry fee. It is a limited handicap event.

For more information call Norm Kortés at 434-2047.

There will be a meeting of all those interested in trying out for a place in the intervarsity badminton teams (men and women) on Tuesday, December 6th in room 124 of the Phys Ed building.

More shorts

All short shorts must be submitted on forms available at The Gateway office, room 209, SUB. Failure to use these forms may mean the non-inclusion of your short short.

MIXED CHORUS

U of A Mixed Chorus members will meet in ag 345 at 7 p.m. Dec. 12 to go to University Hospital for carolling.

U OF A RADIO

U of A Radio announces a correction in the student directory. Their phone number is 433-3053.

Sausages come to mp 126

Not many people would hitch-hike to Ottawa with a sausage to prove a point.

Stan Daniels, field worker for the proposed Native Federation of Alberta, did just that.

He was one of four panelists at a discussion Monday. The other panelists were Doug Duffy, regional welfare officer for Indian affairs, Dr. Sally Snyder, anthropologist, and Father J. Couture, missionary at Winterburn and ed

psych grad student.

The topic of the discussion, chaired by Clayton Sauve, sociology grad student, was the future of Indian people in northern Canada.

The discussion was sponsored by the Indian Affairs Committee on campus.

The purpose of Mr. Daniels' trip to Ottawa was to make the prime minister aware of the conditions that exist on northern Indian reserves.

The sausage was to serve as evidence. Mr. Daniels had bought the two pounds of beef sausage at a Hudson's Bay Company store on one of the reserves. He paid \$2.98 for it. When it was brought to the attention of store officials, they claimed it to be a clerical error.

NO ERROR

Mr. Daniels is firmly convinced it was no clerical error. He stated the rest of the meat was also high priced.

Lionel Conacher (Honors Bus. Admin. '60) is a successful London Life sales representative.

Lionel K. Conacher* counsels '67 grads:

"Why I chose a marketing career with London Life"

"In my field of work, there is *unlimited scope* for graduates who seek freedom to decide their own future along with an opportunity to develop their own potential.

"London Life gives you three major assists in establishing your career in marketing:

"First, a solid three months of specialized training at the head office, with emphasis on marketing among executives and professional men, in business insurance, estate planning, taxation and group insurance. And this is only the *beginning* of your training.

"Second, an attractive starting salary that helps you become established. Also, there are plenty of opportunities for graduates to move into key marketing management areas.

"Finally, you are backed by the company with more insurance in force on the lives of Canadians than any other. A company whose annual sales are unexcelled in the Canadian market."

Graduate Opportunities

London Life requires graduates with bachelors or masters degrees in commerce, arts, and business administration, to develop the fast-growing market of life insurance throughout Canada.

Successful candidates will enter the marketing branch for specialized training in group sales and

ordinary life sales to professional people and businessmen. Beginning with three months of initial training at its head office in London, Ontario, the company's 18-month training and development program for university graduates continues under expert supervision in your home area (or another location of your choice), with continued short courses in London.

An attractive salary is provided during the training period and can be supplemented by sales commission. In addition, you enjoy individual freedom to develop your own skills, knowledge and income at the pace you choose to set. There are *no limitations* to opportunities in life insurance marketing.

A London Life representative will be interviewing at your college placement office on the date below. If you are interested in learning more about a marketing career with London Life, arrange for an appointment through your placement officer.

*At the University of Western Ontario, Lionel Conacher was well known as a fullback on the champion University Mustangs of 1957 and 1959. He was graduated in 1960, joined London Life, and became a group insurance supervisor in Montreal. In 1963 he transferred to the company's Ordinary Branch in Toronto, where he has successfully established a business clientele.

A representative will be interviewing at this campus on December 6
