THE CAUSE OF WOMAN'S TROUBLES

Is Diseased Kidneys and the Cure is Dodd's Kidney Pills.

Wonderful Cure of Mrs. James Kin- sella, Who Slept in a Chair for Two Summers—What She Says Of It.

St. Malachy, Que., March 20.— (Special).—A cure of great interest to women has attracted the atten- tion of those interested in medical matters in this neighborhood. Mrs. Jas. Kinsella, wife of a well known citizen, had suffered from a compli- cation of troubles for about 25 years. She had a pain in the right hip, in the back and was obliged to pass water every fifteen minutes in a burning itching sort of way. She could not sleep at night and had to sit up in a chair for two summers. Dodd's Kidney Pills cured her. Mrs. Kinsella speaking of her cure says, "After the first box of Dodd's Kidney Pills I felt much better. Then I got more and they did me a world of good. I have never slept in the chair since I used Dodd's Kid- ney Pills."

"Woman's health depends on her kidneys. Nine-tenths of the so-called female complaints are caused by uric acid in the blood. Cure your kidneys with Dodd's Kidney Pills and you can have no uric acid in the blood."

Offering No Challenges. "Do you claim that the world owes you a living?"

"No," answered Meandering Mike. "De man dat goes around claimin' makes hisself unpopular. I'm satisfied to get my livin' whether it's owing to me or not."

Excitements of Begging. There must be an excitement about begging, which is almost like the pleas- ure of stalking-taking the measure of the person you see in front of you and knowing the kind of appeal that is likely to weigh with him.—Bishop of Manchester.

RADIANT WOMANHOOD.

The glory and satisfaction of beau- tiful womanhood can be known only to those possessing the unlimited ad- vantages of health. No weak woman can be happy or enjoy half the pleas- ures of life. Pallid cheeks, sunken eyes, exhausted nerves, all tell of a terrible struggle to keep up. What the weak woman needs is Ferrozone; it renews, restores and vitalizes in- stantly—it's a "woman's remedy," that's why.

Ferrozone makes women strong, plump and healthful because it con- tains lots of nutriment, the kind that forms muscle, sinew, bone and nerve. Vitalizing blood courses through the body, making delightful color, happy spirits, true womanly strength. Fifty cents buys a box of Ferrozone in any drug store.

Hopeful He Won't Find It. "That man's always looking for work."

"Yes, that's what he says, but he's one of those people who go round with a snow shovel in July and a pitchfork in January."

Let no man talk of freedom until he is sure he can govern himself.—Goethe.

DEAD SICK OF ASTHMA? You couldn't be otherwise with such a distressing malady. Well, for one dollar spent on "Catarrhose" you can be thoroughly cured. Podiat- ists to delay, because asthma steadily grows worse. Get Catarrhose to- day and cure yourself; it's pleasant to use, very simple, and guaranteed. Prescribed by thousands of doctors and used by people of nine nations. Certainly Catarrhose must be good; it hasn't failed yet, no matter how chronic the case.

Everything that is most beautiful in life and art owes its existence to impulse—not to intention.

MESSRS. C. C. RICHARDS & CO. Gentlemen—My three children were dangerously low with dipht- heria. On the advice of our priest my wife began the use of MINARD'S LIMEWINE. In two hours they were greatly relieved, and in five days they were completely well, and I firmly believe your valuable LIMEWINE saved the lives of my children.

Gratefully yours, ADLARD LEBEVRE.

THE NEW VOGUE.

How the Revival of Cashmere Is Ex- ploited—The Elbow Sleeve Char- mingly Graceful—Attractive Features Illustrated in Smart Costumes.

The caprices of fashion are never so acute as when the vogue of a season is being evolved. One of the tentative efforts of Paris, shown in the cut, il- lustrates the revival of cashmere. This is a demieson costume of mastic

Of the elbow sleeve, whose vogue seems assured despite all the atmos- pheric uncertainties of spring, one of the figures in the second cut gives a charming illustration. The dress is of red cashmere cloth, trimmed with nar- row lines of braid to match, the waist- coat being of white cloth, the cravat and sleeve ruffs of deep ecru net.

The hat of this costume also deserves notice. It is of a favorite shape. Made in red felt, it is trimmed with a shaded

A Buffalo Lady says:—Dr. Leon- hardt's Anti-Pill differs from the old methods in Medicine as day from night.

Mrs. J. H. Behora, of 169 London St., Buffalo, N. Y., writes of Dr. Leon- hardt's Anti-Pill—the Great System Treatment:

"Its action is so different to any- thing else I ever used—Anti-Pill is so mild and gentle that I never thought it would cure my chronic Constipa- tion, but it did."

"Soon after the birth of my first child, 14 years ago, Constipation be- came a chronic ailment. I used everything I heard of, but no remedy helped me at all. I must have used fifty differ- ent medicines in that time."

"I finally got very bad and at times would have no relish for food, and what I did eat I could not digest. Afterward, I had headache, bloating, bearing down pains, backache, could not sleep well, easily tired and never felt rested."

"From my very first dose of Dr. Leonhardt's Anti-Pill I began to im- prove. Now I am well. It is wonder- ful."

Dr. Leonhardt's Anti-Pill is sold by all druggists, or The Wilson-Pyle Co., Limited, 100, Victoria Park, Ont. Sole agents for Canada. The price is 50c.

A married man doesn't have to fail in order that his wife may be a preferred creditor.

The English "Society for the Pre- vention of Consumption" presided over by the Prince of Wales, was recently addressed by Sir William Broad- bent, who stated that it was defin- itely known that every case of con- sumption began with a germ com- municated from some other case. There is no such thing as inherited consumption. There may be local weakness which tends to consump- tion, but the germ has absolutely to be planted in that weak spot before consumption can ensue. This ought to comfort thousands of people who have "weak chests" or "weak lungs." They are not forerunners of this dread disease. All that's needed to bid absolute defiance to this deadly scourge is to be able to strengthen the chest and build up a strong body. The answer to this is found in Dr. Pierce's Golden Medi- cal Discovery. It so purifies the blood and increases the blood supply, that disease is thrown off, and the weak organs are nourished into per- fect health, which defies germs of every kind. People, given up by doc- tors, emaciated, bleeding at the lungs with obstinate lingering coughs, are being cured every day by the use of "Golden Medical Discovery." It is a strictly temperance medicine contain- ing no alcohol, whiskey or other in- toxicant.

A fire may gain great headway, but when the engine comes it then feels quite put out about it.

Measure three level teaspoonfuls of cat- ture wheat flour, and mix with it a heaping tablespoonful of finely crushed ants—cane, walnut, Brazil nut or any kind preferred. Add two cupfuls of cold water, beat or stir to a smooth batter, then add half a cupful or more of cold water to make the batter like sponge cake. Incorporate all the fresh air possible in two or three minutes' beating and stirring or until it is full of air bubbles. Fill the hot gem pans and put at once into a hot oven.

The Value of Charcoal

Few People Know How Useful it is in Preserving Health and Beauty.

Nearly everybody knows that char- coal is the safest and most efficient disinfectant and purifier in nature, but few realize its value when taken into the human system for the same cleansing purpose.

Charcoal is a remedy that the more you take of it the better; it is not a drug at all, but simply absorbs the gases and impurities always present in the stomach and intestines and carries them out of the system.

Charcoal sweetens the breath after smoking, drinking, or after eating onions and other odorous vegetables.

Charcoal effectively clears and improves the complexion, it whitens the teeth and further acts as a nat- ural and eminently safe cathartic.

It absorbs the injurious gases which collect in the stomach and bowels; it cleanses the mouth and throat from the poison of catarrh.

All druggists sell charcoal in one form or another, but probably the best charcoal and the most for the money is in the form of Charcoal Lozenges; these are composed of the finest powdered Willow charcoal, and other harmless antiseptics in tablet form or rather in the form of large, leas- ured, lasting lozenges, the charcoal being mixed with honey.

The daily use of these lozenges will soon tell in a much improved con- dition of the general health, better complexion, sweeter breath and purer blood, and the beauty of it is, that no possible harm can result from their continued use, but on the con- trary, great benefit.

A Buffalo physician in speaking of the benefits of charcoal says: "I ad- vise Stuart's Charcoal Lozenges to all patients suffering from gas in stomach and bowels, and to clear the complexion and purify the breath, mouth and throat. I also believe the liver is greatly benefited by the daily use of them; they cost but twenty-five cents a box at drug stores, and although in some sense a patent medicine, they are far more effective and better charcoal than in any of the ordinary charcoal tablets."

SPIDER SILK.

Its Wonderful Strength, Elasticity and Lasting Quality.

The astronomer after the experience of many years has found that the spider furnishes the only thread which can be successfully used in carrying on his work, writes Ambrose Swasey in the Scientific American.

The spider lines mostly used are from one-fifth to one-seventh of a thousandth of an inch in diameter, and in addition to their strength and elasticity, they have the peculiar property of with- standing great changes of temperature, and often when measuring the sun spots, although the heat is so intense as to crack the lenses of the micro- meter eyepiece, yet the spider lines are not in the least injured.

The threads of the silkworm, al- though of great value as a commercial product, are so coarse and rough com- pared with the silk of the spider that they cannot be used in such instru- ments.

Spider lines, although but a fraction of a thousandth of an inch in diameter, are made up of several thousands of microscopic streams of fluid, which unite and form a single line, and it is because of this that they remain ten- der and round under the highest magnify- ing power.

A SCHOOLBOY'S DECISION.

Different, It Might Have Changed the World's History.

"When Charles Wesley, one of the founders of Methodism, was at school a gentleman of the same name in- troduced himself by letter to the boy's father and declared his intention of making Charles his heir," says a writ- er. "From that time forth the bene- factor discharged the boy's liability at school and behaved as the handsomest Santa Claus all the year round. After some years the incognito asked the boy if he would accompany him to Ireland. Charles eventually decided against go- ing. The stranger went his way alone. In Ireland he struck up an acquaint- ance with a person who adopted his name of Wesley, or Wellesley, became the first Earl of Mornington, grandfa- ther of the Marquis of Wellesley and of the Duke of Wellington. Had Charles Wesley accompanied his bene- factor to Ireland there had been no Methodist church, British India might still have been menaced by foes, even if it remained British at all; Napoleon would never have met his Waterloo, and England might have become an appanage of France. All this turned upon the decision of a schoolboy."
