

THE QUEBEC TRANSCRIPT.

SIR WALTER SCOTT'S WORKS,
Complete in seven Volumes.
A FEW SETS FOR SALE, at a reduced price, by
W. COWAN & SON.
14th October, 1839

PHRENOLOGY.
THE use of the rooms of the Quebec Debating Club, (Freemasons' Hall,) having been kindly granted to Mr. Burke, for the purpose of delivering a PUBLIC COURSE OF LECTURES ON PHRENOLOGY, he will commence the course on **THURSDAY EVENING, the 31st instant,** at 8 o'clock precisely.

The succeeding Lectures will be delivered on the following **Saturdays, Tuesdays and Thursdays,** at the same time and place. The Course will consist of **10 Lectures.** The price of tickets for the Course will be for a Gentleman **Two Dollars**—for a Lady **One Dollar.** Tickets for single Lectures a **quarter Dollar.**

MECHANICS' INSTITUTE.
Mr. Burke will deliver a similar course of Lectures, to the members of the Mechanics' Institute, at their Room, over the shop of Mr. Bickell, corner of St. John's and St. Stanislaus Streets.

Tickets for the Course **One Dollar**—for single Lectures **Seven pence half-penny.**
Mr. Burke's views of Phrenology are in many important particulars entirely new. They are the result of rigorous experiment and of diligent study of the science for nearly **twelve years.** His improvements and discoveries are of such a nature as to enable him to answer all the objections hitherto urged against Phrenology, not merely to the satisfaction of the **Phrenologists,** but to that of the most determined **Anti-Phrenologists,** provided of course he will give himself the trouble of attending to the evidence that can be adduced in favour of the Science. Phrenologists have mingled so many errors with the truths they have discovered, that few persons are aware of the **real nature of the Science.**

CALEDONIA SPRINGS.

THE favorable opinion I formerly entertained of the waters of the Caledonia Springs is MORE than CONFIRMED, as well from the benefits I personally derived from their use, as from what I observed of their effects on others. The water should be drank in moderate quantities before breakfast, and persevered in for some weeks at least.

THE HUMAN HAIR.

WHERE the hair is observed to be growing thin, nothing can be more proper than the use of oils, grease or any fatty matter. Their application can only be recommended through the grossest ignorance, as they hasten the fall of the hair, by increasing the relaxation of the skin. When there is a harsh, dry, or contracted skin, and where the small blood vessels which carry nourishment to the bulb are obstructed, then the oils, &c., may be good, as they tend to relax the skin; but alone they are of no avail. There must be a stimulus to rouse the vessels to their proper, and quicken the current of the blood.—Extract from *Cirrhough's Treatise on the Hair.*
The BALM OF COLUMBIA is the only preparation that can have that effect, being entirely free from any oily substance.

A CASE IN POINT.

I had unfortunately lost nearly all the hair from the top of my head, when I commenced the use of the Balm of Columbia, and have, by the use of two bottles had my head covered with a fine growth of Hair.—There can be no mistake in the matter, as any of my friends can see by calling on me. I had also become quite grey, but had the grey hair plucked out, and it has grown in as the Balm of the natural colour, if any body doubts these facts, let them call upon me and see. I bought the Balm of Comstock & Co., 2, Fitcher Street.
