NEIL SANGSTER, ADMISION: W. G. McGERRIGLE, President. Adults 25c Children 15c Sec.Treas.

WHO WANTS THIS BULL?

DAM—Butter, 7 days, 30.69; milk, 1 day, 100.3. SIRE—Sir Lyons Hengerveld Segis, a son of King Segis and Blanch Lyons DeKol, 53.31. He is 5 years old, and as half my herd are his daughters, I must sell to avoid in-breeding. He is active and sure, half white; his calves are more white than black. His two nearest dams average 32 lbs.

A. Sherrick - - Ringwood, Ontario

HERE'S A TOP NOTCHER

Sire—KING SEGIS WALKER. Dam—30 lb. daughter of PONTIAC KORNDYKE. He's only a baby, but he will grow.

A. A. FAREWELL - - OSHAWA, ONTARIO

Four 30 lb. Cows this Winter at VILLA VIEW

We have for sale the best lot of milk calves that we have ever been able to offer from dams with records up to 28 7/8; many of them good prospects for 30 lbs. Also one bull ready for service from a 19-lb. two-year-old. Buy your next bull where 30-lb. cows are being developed, and faster than at any other herd in Canada. Write to-day to

ABOGAST BROTHERS - - SEBRINGVILLE, ONT.

Farm and Dairy is in an excellent position to champion the cause of the farmer in Canada, because it is owned and controlled exclusively by farmers.

HOLSTEINS WANTED

Want to buy five or six good young registered Holstein cows. Send price, age and full particulars to

Box 448, Farm & Dairy, Peterboro

ELMCREST STOCK FARM

Offers for sale No. 2 Bull 1 month old. Dam by a son of the \$1,800 (one time world's record) two-year-old Ardella DeKol Tennes 13700. Sire a son of King Segis Pontiac Kingest, the \$35,000 Bull. A beauty, well grown, and priced at a bargain, \$185.00. Could also spare a few females, fresh or springing. The best in Holsteins and a square deal—that's us.

W. H. CHERRY, - - Bell Phone - - HAGERSVILLE, ONT.

LAKEVIEW CALAMITY RATTLER

is sire of every female at "Sunnybrae", over one year. His sire has 29 tested daughters up to 38.06 butter, 735.1 milk in 7 days. His dam has one daughter a past champion; she a daughter, World's Champion two-year-old, 31.71 butter, 510.6 milk in 7 days, test 4.97% fat.

We have for sale two very choice light colored bull calves, 1 and 3 months old. Will double in value when dams are tested. Their sire carries champion blood also.

L. Rogers, "Sunnybrae" Manvers Sta., Ont.

MARKET REVIEW AND FORECAST

TORONTO, May 6.—In looking over the consignment of bank clearings for the month of April, it is interesting to note that only two cities in the whole Dominion of Canada showed decreases for that month, they being Winnipeg and Calgary. It is noted that two cities showed a falling off as compared with the same month a year ago, now to show that business throughout the Dominion is being well maintained. The grand total clearances for the month show an increase over April, 1917, of 2.08 per cent.

Spring seeding is being actively prosecuted, a first-class seed bed being assured in most cases. On account of the cool weather, growth has been rather slow, but indications point to good spring crops. An increase is expected in the acreage of spring wheat, also oats, barley and sugar beets. The growing of flax is showing a marked revival. Clover has come through the winter much better than wheat, and grasses generally are getting off to a good start.

While grain is scarce and all kinds of millfeeds are very difficult to get and hard to secure, the flow of milk is about normal. There is a good supply of hay, straw and roots, but ensilage is scarce.

Wheat.

Supplies of Western wheat are but very meagre, being higher and stronger than the mills running at capacity. It is anticipated, however, that more ample supplies should now be forthcoming, as crops are being shipped down by lake routes. The amount arrived by water at Goderich last week. Quotations: Manitoba Wheat—in store, Fort William, nominal. No. 1 Northern, \$2.23; No. 2 Northern, \$2.20 1/2; No. 3 Northern, \$2.17 1/2; No. 4 wheat, \$2.10 1/2. Ontario wheat—New crop, No. 2, \$2.22, basis in store, Montreal.

Corn and Grain.

Western oats are scarce at the lake ports. Prices of Ontario oats continue easy, with offerings limited. The opinion has been expressed by dealers that there are not great quantities of Ontario oats now available for market purposes. The sense is the case in connection with rye and barley stocks. An odd car of corn of the poorer grades is being moved forward each day. Demand for this is not strong and dealers, therefore, have considerable margin. It is expected that the United States Government will be in the American market again in a short time buying corn for export purposes. Quotations: Manitoba oats, 80c to 85c; Ontario oats, 85c to 90c; rye, malting, \$1.54 to \$1.56; peas, \$1.50 to \$1.70; Montreal quotations: Western oats, 95c to \$1.01; local white, 95c.

Milk Feeds.

The trade in bran and shorts has been very quiet on account of the very limited supplies available, and the only business of any importance passing is in pure bran mostly at Montreal. There is a steady demand for all offerings, and prices rule firm, with sales at 87 1/2 a ton, including bags. Quotations at Toronto are: Carls delivered, Montreal freight, bags included, Bran, \$35.40; shorts, \$40.40. Bran as quoted at Montreal, \$35.40 and shorts, \$40.40.

Hay and Straw.

Hay is quoted in Toronto at \$16 to \$17 for No. 1, with mixed cut at \$16 on truck; straw, car lots, \$15.00 to \$15. Montreal quotes No. 2 hay, car lots, \$17.

Potatoes and Beans.

Delaware and Irish Cobbler varieties of potatoes are in good demand, and Ontario seed potatoes are selling very well just now. Ontario ones are quoted \$1.66 to \$1.70; Delaware, \$1.82 to \$1.90. Canadian prime beans, bushel, \$7.50 to \$8; foreign, hand picked, \$6.75 to \$7.

Eggs and Poultry.

The egg market is firm under strong buying in the country at 37c to 38c f.o.b. cases returnable. Wholesale prices to the retail trade are: New laid, 40c; selected, New laid, 42c to 43c; cutters, 45c to 46c. Montreal, too, reports a strong buying, and prices of 43c to 44c in a jobbing way. The supplies of poultry coming forward are very small, and demand is good.

Table with 2 columns: Item and Price. Includes Chickens, Milk fed, Hens, Broilers, Ducks, Turkeys, etc.

Dairy Produce.

The production of butter is apparently equal to, if not slightly better than the amount required for immediate consumption, and there has been a slightly easier feeling in the market during the past few days, and prices have declined several cents. At county points cream-

ery solids are being bought at 43c in 45% creaming, 42 1/2c to 44c; butter, 34c to 35c. Wholesale quotations are: Creamery solids, 46c to 47c; sprats, 45c; butter, 34c to 35c; ordinary, choice dairy print, 42c to 43c; ordinary, choice print, 38c to 40c; baker's, 36c to 38c. Now that cheese prices have fallen, it is anticipated that financial arrangements will shortly be made to enable the Commission to accept delivery of the new season's cheese.

Beard's Sales.

St. Hyacinthe, Que., April 27.—100 boxes sold at 20 1/2c, 125 packages butter at 41c. Belleville, April 27.—280 white sold at 21 1/2c. Woodstock, May 1.—Seven factories boarded 424 boxes of colored cheese. On the board the highest bid was 21 1/2c, with no sales. On the curb the cheese sold for 20c. Brockville, May 2.—2312 white and 691 colored. Sales, 2587 boxes at 22 1/2c, 1200 white and 487 colored. Balance on street at same price. Kingston, May 2.—623 boxes, boarded, 473 boxes, white, sold at 22 1/2c.

LIVE STOCK.

Cattle soared to new levels during the week, the commercial editor of the Toronto Globe and Mail fully describes the activity of trade as follows:

"The cattle market at the Union Stock Yards started out strong this week and finished the week higher and stronger than the close of any week in the history of cattle trading in Toronto. Good choice calves have been demanding high, and then higher prices on every market have been realized. The prices asked early in the morning were not before the cattle were disposed of. At times it seemed as though the price of the price the quicker the cattle sold, there was no hesitating on the part of the buyers. Immediately they once they saw a lot of cattle they made an offer, they either bid or raised the bid, and the animals quickly transferred to some other bidder. Cattle sold on Wednesday at \$18 per cwt. were sold on Monday for a choice handy little animal of 110 pounds. Two other animals were disposed of at \$18.50 a cwt. on Tuesday. The highest price for a straight and good cow, paid to the George Ferguson of H. P. Kennedy's Limited, on the 1st of May.

"The price of the week's trade was cashing anywhere up to \$16 per cwt. Good weight of heavy cattle were selling around \$12.50 to \$14 per cwt. The high record of the week was \$121.62 for a pair of heifers, but the shalfiters were endeavoring to lower the price, but the high record of hope throughout the country and the increasing demand prevented a continuance of lower prices. Accordingly there was a firmer feeling to the market on the opening day of the week, and since then the prices have advanced almost daily until now they are selling at from \$20.75 to \$21. The high record of few weeks ago.

"The strong feature of the Montreal market, best selects selling up to \$22 a cwt. Calves were in strong demand at \$18.50 a cwt. Cattle went to \$13 a cwt. A few spring calves sold at \$15 to \$16 each or in the neighborhood of 60 cents a pound.

Quotations—

Table with 2 columns: Item and Price. Includes Heavy steer, choice, Huters' steers, Huters' heifers, Huters' cows, etc.
