

New York City, July 1912.—After three weeks' suffering and absolutely without the use of my right foot from an attack of neuritis, I happened to take up THE SENTINEL OF THE BLESSED SACRAMENT and found a picture of Ven Père Eymard, with special favors obtained through its use. I cut it out and placed it on my foot, promising to publish the cure, should one take place. In less than thirty six hours I was able to place foot on the floor for the first time.

Ardmore, Pa., July, 1912.—I had been suffering from a very severe affection of the ears. After nine months my hearing became very bad. Remedies were of no avail. I began a Novena to Ven. Père Eymard and, before it was ended one ear was much better. I made a second, and now both are well. I promised publication, and I enclose a Mass offering to further his Beatification.

Camden, N. J., July, 1912.—I wish to return thanks to our Eucharistic Lord for the great favor granted my wife. She was suffering so intensely from a sore on one of her limbs that she could hardly endure it. She placed a picture of Ven. Père Eymard on the limb, and obtained relief. I offer a Novena of Masses in thanksgiving for the wonderful graces sent us.

Portsmouth, N. H. Sept. 25, 1912.—While reading the "Sentinel one evening, I happened to read of Ven. Père Eymard and of all the good deeds he has done. So having a sister afflicted with sore eyes for about two years, I resolved to make a Novena to that great Venerable, and promised a publication if cured.

When my Novena ended, the fourth day, her eyes began to heal, and now are as well as they ever could be expected of her. Hoping I have fulfilled my promise and thanking Ven. Père Eymard for his good works.
