GOSSIP.

Mr. Hugh Thomson, St. Mary's, Ont., ordering a change in his advertisement, writes: "Through the advertisement in the 'Advocate,' I have sold: One Short-horn bull to Mr. F. F. Hamilton, Cromarty, and a right good one he is; to Nagle Bros., St. Mary's, the cow, Methlick Mayflower 4th, and the heifer, Methlick Queen. Still have one bull left, a good one, and some cows and heifers I would dispose of."

Messrs. J. R. McCallum & Son, Iona Station, Ont., breeders of Shorthorns, in ordering a change in their advertisement, write that their stock has come through the winter in fine shape, and all their bulls over one year old are sold; but have four real good ones between seven and twelve months old for sale; two of them sired by Aberdeen Hero 28850 (imp.); the other two by their late stock bull, Royal Duke 34678. They have also some good heifers between one and two years old for sale; some of them bred to the present stock bull, Wandering Count 50328, by Wanderer's Last (imp.), sold for \$2,005.

Mr. Geo. G. Stewart, Howick, Que., importer and breeder of Clydesdale horses, writes from Scotland: "I intend sailing for Montreal May 7th, and expect to reach Howick about the 19th, with seven Clydesdales, of which the following is a brief description: Rankellour Marksman (11868) is a three-year-old, bred by M. B. Nairn, Esq., of Rankellour, Fifeshire, sire Balmedie Marksman (10677), by Royalist (6242), dam Polly of Rankellour (15203), by Garnet Cross (1662). This is a horse of fine color, plenty size, and having a very good use of himself. He has the best of feet and legs, while his body is massive, and turned to perfection. Vivacity is two years old, of excellent quality, of a beautiful bay color, with four white legs, bred by J. D. Fletcher, Esq., of Rosehaugh, Avoch, sire Prince Albert of Rosehaugh (9357), by Prince of Albion (6178), dam Lady of the Lake (12147), by Macgregor (1487). The above pedigree shows this colt to be descended from the best Clydesdale blood in Scotland, for when we come to Prince of Albion and Macgregor, we need not go further. There should be many buyers for this one. Pride of Brechin is a dark brown two-year-old, bred by Jas. Fleming, Esq., Frickheim, sire Lord Lovat (11408), by Mains of Airies (10879), by Prince of Wales (678). This colt, which will appear in next volume of studbook, is the making of a typical Canadian horse. At present he is lean, but with good luck and time, will prove one of the best of this bunch. Captain Guthrie is another dark brown two-year-old, bred by Mr. Duncan Guthrie, Glasterlaw, sire Moncrieffe Marquis (9953), by Prince of Carruchan (8151), dam Miss Rose, by Mains of Airies. The sire of this colt was first-prize winner at the Highland Agricultural Society's Show, and his grandsire, Prince of Carruchan, has an unbeaten record. I don't mean to boast when I say that there is not any better two-year-old in Canada than this one. He took a high place at the Aberdeen Show in March last. Those in want of a show horse had better take a look at Captain Guthrie. Dunragan is a yearling of full pedigree, got by Moncrieffe Marquis, well grown and well bred, and can be sold cheap. I have also two very nice yearling fillies, got by Senator's Heir, the champion horse of all ages at Ottawa last March, and for which I expect a ready sale, as they are of fine quality, and can be sold worth the money."

If You Want a Bull (under 1 year) to show and win with this fall, bred from officially tested stock, write H. BOLLEET, Cassel, Ont.

GOSSIP

Things are being done all the time that wisecracks said could not be done.

You can "see the finish" of the person who has finished his education.

You can get some authority for any fool thing you care to do.

If you give up all that has been given up by others, you might as well decide to travel in the beaten cow paths all your life.

Those past opportunities and present sad sighs are not laying much of a foundation for anything you would like to build in the future. Cut out the sighs.

A "Farmer's Advocate" subscriber in Simcoe Co., Ont., writes that he has made a calculation this year in potato planting which figures out as follows. An ordinary grain bag holds about 2,300 seeds, when not cut too large, and when planted in hills three feet each way, with three pieces in a hill, it takes about 14,620 seeds, or about five and a half bags. When planted with a plow in rows thirty inches apart and ten inches in the row, it takes 20,700 seeds, or about eight bags. If planted in rows thirty inches apart, one foot apart in the row, it takes 17,200 seeds, or about seven and a half bags to plant an acre.

Mr. David Hill, Staffa, Ont., writes: "I wish you to change my advertisement, and mention a few Shorthorn heifers instead of the filly, as I sold her to Mr. John Jickling, St. Mary's, who answered the first insertion of the advertisement. She is registered Mertoun Lady [5857], sire Pride of Glasnick (imp.) [2978] (5249), and is one of the many good ones by this noted sire. Mr. Jickling has made no mistake in securing her, as she is a typical two-year-old Clydesdale filly. I am still offering the two young Clydesdale stallions. They are a pair of right good ones at a right price, and should be seen by those who want such before purchasing. The heifers I am offering are sired by Defiance = 39908 =; are one year old; are going to be good cows, and will be sold reasonably, if sold soon."

Mr. Richard Gibson, Delaware, Ont., writes: "A word as to the Shorthorn bulls I am advertising. They were both being fitted for St. Louis, but the fates forbode. Perhaps as well. Gay Lothario weighed, three weeks ago, 1,760 lbs. at twenty-six months old. He just put on 100 lbs. last month. He is a show bull sure, and with his straight Cruickshank pedigree is surely a treasure. Were I wealthy, or had a herd of cows fit for his service, money could not buy him. Scottish Diamond, not weighed (because I have no private scales, the other weight is official), but he is so sweet and so mellow, he made the Captain's mouth water. He is a little champion. The other bulls are good, and very good, but not in same class, neither are the prices."

TRADE TOPIC.

THE MELOTTE.—We are in receipt of a new announcement from the Melotte Cream Separator Co., in which notice is given of improvements which must tend to add to the popularity of that already popular machine. By changing the skimming device, the Melotte Co. has been enabled to reduce the number of plates in the bowl in all sizes of the machine, thus lessening greatly the work of cleaning. Those who purpose buying a separator this year will do well to send to the Melotte Co., 579 and 581 St. Paul St., Montreal, for a catalogue, which will be gladly sent on request.

Sharple's Tubular SEPARATORS

Tubulars Find Gold In Milk

Good butter is worth 20 to 30 cents a pound. Butter is worth only one cent a pound as stock food, yet farmers using gravity skimmers—pans and cans that leave half the cream in the milk—feed that half the cream to stock, then wonder why dairy-ing don't pay. Can't find gold without digging. Can't make dairy pay big profits without getting all the cream.

TUBULARS

Dig Right Down

to the paying level—squeeze the last drop of cream out of milk—make dairy pay. Tubulars are the only modern separators. The picture shows them. Write for catalogue G-193.
