## FARNHAM OXFORD WINNINGS AT ST. LOUIS.

Messrs. Henry Arkell & Son, Farnham Farm, Arkell, Ont., write: "We have just returned from St. Louis safely, where we won some thirty-four prizes with twenty-eight sheep, among them a number of first premiums and three champion prizes; and we wish to thank Mr. Elderkin, the Canadian Live-stock Commissioner at St. Louis, and his associate, Mr. Cottarelle, for the efficient way in which they assisted exhibitors there, both in the exhibiting of their stock and its removal from the fair grounds. We are sure that all the exhibitors gratefully appreciated their kindness."

## THE LAST CALL FOR J. BRIGHT'S SALE.

As previously announced in these columns, on Nov. 16th, at his farm, four miles from Myrtle and seven from Oshawa, Ont., Mr. John Bright will hold his dispersion sale of 12 registered Clydesdale fillies, three of which are imported, and 35 head of Shorthorn cattle; 25 head of two-year-old grade steers, and a full line of implements, many of which are nearly new. Mr. Bright wishes it distinctly understood that this is a bona-fide sale, and there will be no reservation whatever, as he is quitting farming. At the same time he will sell his 200-acre farm, on which are all modern improvements. This is one of the best farms in the county of Ontario, and is very convenient to schools, churches, and stores. Remember the date, Nov. 16th.

## IMPORTANT SALE OF OXFORD DOWNS.

Among the importers and breeders of Oxford Down sheep, few if any in America have been longer or more favorably connected with the business than Peter Arkell, of Teeswater, Ontario, who, as advertised in this issue, is retiring from farming and intends to disperse his entire flock by auction, at Summer Hill Farm, on Wednesday, the 16th day of November, when the public will have a rare opportunity of securing choicely-bred Oxfords at their own prices. The flock consists of about 130 head, bred direct from imported foundations, imported rams being continually used. For several years, up to the last three or four representatives of the flock were shown at the large exhibitions of Ontario with marked success. The demand for fitted flocks for show purposes in the U. S. drew upon their supply to such an extent that it was decided to withdraw from the show-ring, and give that branch all the attention possible, which has proved profitable, several flocks being fitted during the past season. The flock to be sold is in good, thrifty field condition, and young, Mr. Arkell having culled out the older ones for the butchers. Any lambs that are not up to the mark also go to the block. The lambs are all got by two imported Reading rams, and are an even, good quality lot. The ewes will all be bred before the sale, which will further add to their value. Anyone in want of sheep, and we wish to say right here that there are thousands of farmers right here in Canada, as well as in the U. S., who have no sheep, who, in their own interest, ought to have sheep of some kind, as there is sure to be good money in that class of stock in the near future. Purchasers may depend upon Mr. Arkell using them right. He will also dispose of his horses and cattle. The horses number ten head (carriage-bred). The cattle are Shorthorn grades. We bespeak for him the patronage of our readers.
