

FEEDING FACTS

In ordinary feeding the steer consumes about 3/4 of its ordinary feed; the balance is undigested or wasted.

This undigested balance can be made to give 1/2 to 1 lb. extra gain per day, and at a profit, by adding the "salt, pepper, and gravy" to its food to make it "tasty."

You like these on your own food; why not the animal.

Like ourselves the animal longs for a "tasty" meal.

It starts the "mouth watering" before eating, and the stomach fills with digestive fluids to thoroughly dissolve the food.

This extra amount of digestive fluid dissolves an extra amount of food. This is where the extra gain comes in.

Clydesdale Stock Food

is the "salt, pepper and gravy" that makes the animal's "mouth water." It is equally good for Horses, Sheep and Hogs.

Nothing injurious in it and can stop feeding it without harmful effects. Human beings can take it with benefit. We take it every day. We know its contents. It is made clean.

If not satisfied your money will be cheerfully refunded by the dealer.
