

Belmar Parc Shorthorns

WE think we have as great a lot of young show animals as has ever been on one farm in Canada. Our herd is large, the individuals are choice and of the richest Scotch breeding, and our prices are moderate. 15 young bulls, 25 heifers under three years. A splendid group of breeding and show matrons. Mostly in calf to the champion Marigold Sailor =53258= and the prizewinning Nonpareil Archer (imp.) =45202=. Pembroke is on the main line of the C. P. R. and the Canada Atlantic Division of the G. T. R. You can leave Toronto 11 a. m., arrive Pembroke 12.05 p. m., see the herd, and arrive Toronto next morning at 7.20. We prefer you to see the cattle, but if you can't spare the time we take special pride in filling mail orders satisfactorily.

GOSSIP.

HAWTHORNE DAIRY SHORTHORNS.

Established 30 years ago by the purchase of the cow, 2nd Fair Maid of Atha 983, sired by Proud Duke, he, also, being a dairy-bred bull, and her dam tracing to Imp. Princess 419. This far-famed dairy herd, now numbering about 30 head, are all descendants of the above-named cow, and are the property of Mr. Wm. Granger & Son, of Londesboro, Ont., on the London-Wingham branch of the G. T. R. No man or men breeding Shorthorns in Ontario take more pride in the care of their herd than do the Messrs. Granger. The result is that the herd is always in nice, sleek, thriving condition. Probably one of the greatest factors in the notoriety of this herd, as one of the leading dairy Shorthorn herds of the Dominion, was the record of the cow, 2nd Fair Maid of Hullett, which was entered in the dairy test at the World's Fair, Chicago, in 1893, and although she passed through a serious sickness, which put her out of business for several days, she ended up the test in 7th place in a group of 70 cows in the test, showing a milk yield of 54 lbs. a day, and butter-fat of 2.54 lbs. a day. A daughter of hers, World's Fair Maid, has made 16½ lbs. of butter in seven days in a private test at the farm, and many more in the herd to-day are capable of as great a showing, and the Messrs. Granger intend to pay more attention to the records of their herd this year. The herd, as it is constituted at present, are the get of such sires as Beau Ideal 22554, a straight-bred Bessie, got by Imp. Sittytton Stamp, dam Imp. Bessie Lass. He was a massive bull, weighing nearly 3,000 lbs. Next to him came Golden Eagle 30943, an Isabella, by Golden Measure, dam Isabella 14th. Following him was Prince Misty 37864, a grandly-bred Missie, by Imp. Prince Bosquet, dam Imp. Mistletoe 21st. After him, and the present stock bull, is Imp. Aberdeen Hero, a Matilda-bred bull, by Reveller, dam Madge, by Queen's Guard. As to his individuality, we have only to say he was shown 21 times, and won 21 first prizes, and a look over the dozen or more nice smooth heifers by him shows him to be a sire of more than ordinary worth. He is now for sale. The majority of the females of this herd are built on true dairy lines, and, if officially tested, would certainly show wonderful results. There are about a dozen heifers, from 10 months to three years of age, for sale, an exceptionally desirable lot, as they are a thick-fleshed, good-doing lot, and show they will be grand milkers. The bulls for this year are all sold and scattered from Quebec to Alberta. Don't neglect these heifers, if in want of dairy Shorthorns.

HORSE LITERATURE.

I have looked carefully over "Our Friend, the Horse," by Frank Townsend Barton, F. L. S., M. R. C. V. S., and consider it would make a fairly good addition to a farmer's or stockraiser's library. It deals with the different breeds of horses and ponies, somewhat briefly stating their origin, characteristics, etc., treats of anatomy, diseases and treatment, actions of medicines, and the different modes of administration; gives many useful prescriptions, etc. It also treats of foods and feeding and the general care of the horse. It is published by Dean & Son, Fleet street, London, Eng. "WHIP."
