

Bog Spavin

Cure the lameness and remove the bunch without scarring the horse—have the part looking just as it did before the blemish came.

Fleming's Spavin Cure (Liquid) is a special remedy for soft and semi-solid blemishes—Bog Spavin, Thoroughpin, Splint, Curb, Capped Hock, etc. It is neither a liniment nor a simple blister, but a remedy unlike any other—doesn't irritate and can't be misapplied. Easy to use, only a little rubbed, and your money back if it ever fails.

Fleming's Vest-Pocket Veterinary Adviser describes and illustrates all kinds of blemishes and gives you the information you ought to have before ordering or buying any kind of a remedy. Mailed free if you write.

Worth Looking Into

When it becomes necessary to buy feed, it will be well to keep in mind the word

"CRESCENT."

"Crescent" is a mixed crop, with the Government analysis on every bag. One of the largest dairy herds in Ontario recently ordered a carload, and the order was placed after thoroughly testing its value as a dairy feed. A k your dealer about it. If he does not know, write us. We can give you a close price on a carload.

SOME SHEEP HEARING

Our Australian correspondent, in a letter recently received, gives some marvelous records of rapid sheep-shearing by hand in that country. The feat of Dan Cooper, of shearing 316 sheep in a Queensland shed in a little over eight hours, has raised the question who is the world's swiftest shearer. Jack Horn sheared 321 in eight hours with hand shears as far back as 1892. As hand shears are not now used, it is likely this record will never be beaten. Many people believe that Harry Livingstone is the greatest shearer, as he put through his hands this year in four succeeding days, 233, 225, 237 and 321. Cooper's feat, when he broke the record, was actually 316 sheep in 520 minutes. The sheep were full-wooled ewes.

A HANDSOME CHRISTMAS BOX.

The great advantage of the purchase of Canadian Government Annuities for their children should appeal to all parents, for the annual payments are so small that provision for their future may be made with little, if any, present sacrifice. For example, an Annuity of \$100, payable at 60, may be secured for a boy who was 5 last birthday, for an annual payment of only \$4.75, or less than 10 cents a week, or for a total sum paid in of \$261.25. In the event of the death of the child before he was 60, all the money that had been paid in, with 3 per cent. compound interest, would be refunded to his heirs. When the boy arrived at an age when he was earning for himself, he could carry his own contract to completion at a rate far below what he could have obtained at his then age.

It is the custom of many parents to spend on their children at Christmas time amounts which at other times of the year they feel they could not afford, and too frequently are the purchases made of no lasting or permanent benefit. Would it not be a better plan to start each child on the road to the purchase of a Canadian Government Annuity, and continue the "Box" every Christmas until he was able to carry it for himself? The child, if he lived, would remember with gratitude Santa Claus's visits.

Information as to how the purchase may be made, and of the cost at any age, will be supplied you at the Post Office, or by the Superintendent of Annuities, Ottawa.

Keeps out large Animals—Keeps in the Chickens

We've put strength and stiffness into the **PEERLESS JUNIOR** Poultry Fence so it can stand the attacks of restless animals from the outside. We have made it close enough so small fowl cannot get through. It is made of much heavier wire than the ordinary poultry fence, well galvanized, therefore much more durable.

Peerless Junior the fence that saves expense

That heavy, No. 9, hard-steel wire at top and bottom holds the fence taut and true without the necessity of fence boards and saving more than half the usual number of posts. That means considerable saving to you. Write for our printed matter about **PEERLESS FENCES**. We make fences and gates for every purpose.
