

Dain Hay Tools Cut the Cost of Hay-making by One-half.

THERE'S money in Hay—if it does not cost too much to make it. The Dain Implements cut the cost of Hay-making to the lowest possible margin, because they are perfect in every detail. More than that they are built to endure—the farmers owning them declare that they are *practically indestructible*. It will pay you well to know all there is to know about *Dain Hay-making Helpers* before investing a dollar in any hay-making implement.

Here's the *Dain Vertical Lift Mower*—a machine that you couldn't smash under any sort of service. Before leaving our factories every *Dain mower is subjected to a tremendous test*—a test that would make a scrap iron of any ordinary implement. There's *no lost motion* about the Dain—the moment the horses move the knife begins cutting. The machine is built with surplus strength in every part, and so perfectly balanced that the draft is easy. Yet, we so build the Dain Mower that—in the rare event of an accident—an inexpensive part effects prompt repairs.

The *Dain All Steel Side Delivery Rake* is in a class by itself. Its triple set of teeth, turning slowly, put the hay in shape for curing without injuring leaves or stalks. It delivers the hay gently into a loose, fluffy, continuous windrow, so that the air and sun penetrate—it cures quickly and retains its full nutriment. Simply constructed and almost *break-proof*.

The *Dain Steel Frame Roller Bearing Loader* has always been considered the best and easiest loading machine on the market. Besides the many exclusive *features* which have made the Dain famous our *new Loader is equipped with four sets of Roller Bearings, which decrease the draft to a minimum*. But, get the details, they'll please you, and it will pay you to have them.

Study the *Dain Line* before you outfit yourself with hay-making implements. You'll have better machinery and more money in the bank if you do so. Dain Implements are built to endure and to reduce friction—they are specially designed for simplicity, strength and money-making service.

N. B.—Write to-day and ask us to forward you complete details of any or all of the DAIN *money-saving and money-making* implements. Besides the implements mentioned, we manufacture the Success Roller Bearing Manure Spreader, Hay Presses, Ensilage Cutters, etc.; and

"EVERY DAIN IS THE LEADER OF ITS KIND."
