## A PROPERTY WITH MONEY IN IT

The one part of Ontario which is attracting more attention than any other at the present  
time is Fort William. With the immense West behind it, manufacturers, wholesale houses and  
capitalists of the East have come to realize that its future must be brilliant. The three transcon-  
tinental railways are doing much; the splendid harbor—one of the best on fresh water—is doing  
more; but its greatest natural asset—the Kakabeka Falls, which has now been harnessed to produce  
enormous electric power—has fixed its destiny as the most advantageous point for the production  
of wares of every kind intended for the rich, populous and far reaching markets of Manitoba,  
Saskatchewan and Alberta. Fort William will be one of the leading commercial and industrial  
cities of Canada. Real property will rapidly rise in value. Its finest residential subdivision is

CENTRAL PARK  
FORT WILLIAM

This new subdivision is in every way thoroughly high class. It lies in the very heart of  
Fort William and about a quarter of a mile from the Post Office. It immediately adjoins Fort  
William's best residential district. Being high and dry above the river, convenient to the city  
and to the street cars, and exceptionally well situated for sanitation, it is even now looked upon  
as the most popular portion of the city for residence and investment.
