ST. CATHARINES, ONTARIO

For One Thing, I Have Been Extremely Interested in the Advertisements. I Was Particularly Struck With One of

—Wm. Clark Co., of Montreal, dealing with Chateau Brand Pork and Beans, on the back cover of a special number. It moved me to order a number of cases, and they just came in a few days ago.

"In reading The Grocer weekly from cover to cover, I have received so many benefits that I find it difficult to particularize.

"I have charge of several departments and receive a great many trade papers, but The Grocer is in a class by itself."

The above was written several months ago by the manager of the grocery section in a Hamilton department store.

The manager of the grocery section in a Montreal department store says:

"I look for The Grocer's appearance every week, and give it a cordial welcome each time it reaches me, knowing I shall find sound information and helpful advice in every one of its pages. I appreciate your paper very very highly."
