shares for the previou week, or 7,300 less. There has been a little demand for Athbasca, and on the board yesterday 32 was

asked and 28 bid for it. The advance work in the Athabasca is reported to be far ahead of the reduction of the ore by the mill. It is now claimed that there is \$300,000 worth of ore in sight The mill is cleaning up about \$10,000 a month, and the affairs of the company are

in a prosperous condition. There has been a little inquiry for Black tail, and the price ranges from 8 1-2 to It Is on Howe Sound and Is Said to Be 9 cents.

There has been some call of late Canadian Gold Fields syndicate, and the price has ranged from 6 1-2 to 7 cents.

Centre Star has picked up considerably centre star has picked up considerably since the fall occasioned by the laying off of the miners and the consequent shutting off of dividends. At first it fell to 80 cents. Then it rallied, and has advanced steadily, and is now worth \$1.38. It was worth \$1.50 before the slump. There is some dealing in Deer Trail at

okane and in the east around 10 cents. Evening Star is holding its own, and the price is about 7 1-2 cents. The develop-

expected that the spur will be completed to the mine about the 1st of March, and then the company will commence to market the product of its mine.

Lone Pine is rather weak, and the price ranges from 14 3-4 to 15.

There have been some sales of Merri son of late. These are caused by the resumption of work on the Morrison property. The company has ample funds on hand, and thinks it will not be long before the property will be on a paying basis. Okanogan has been selling at from 4 1-2 to 5 1-2 cents. The results of the las

cleanup are expected to come to hand within a few days, and this should stiffen up the price. Payne is holding its own fairly well and

is worth about \$1.02. Rambler-Cariboo is weaker than it ha been, and is worth about 49 cents. This company continues to pay dividends each

month, and holders are not inclined to par with it at present prices. Rathmullen has sold from 4 1-2 to

cents, 4,500 being sold at the latter figure, and 500 at the former figure yesterday.

Tamarac has fallen off a cent lately, an is worth about 7 cents. The company re cently moved its machinery from the old shaft to a point where it can be utilized in sinking a new shaft. The sinking of

the new shaft will now be proceeded with. There has been a good deal of trading in Van Anda in Toronto during the past week. The price has ranged from 5 1-2 to 5 34. This is an advance of about cents in the past week.

Waterloo is weak at 8 cents. Winnipeg is being handled some, and is worth about 24 cents. Brandon & Golden Crown sold yester day for 26 1-2.

Peoria is worth 1 34. Appended are the official quotations erday of the Rossland Mining and Stock exchange.

Mining Brokers. Mining Properties Bought and Sold. Up-to-date regarding all stocks in British Columbia and Washington

A RICH COPPER PROPERTY.

It looks very much as though Spokane parties were to have the good fortune to

Interest of this mine continues to bring forth favorable results. It gives more and more promise of making a mine of great merit. Giant is weaker, notwithstanding the fact that the ledge should soon be tapped on the 50 and 100-foot levels. The price ranges from 6 34 to 7 ceres. This is a slight fall from the orie that should are few days since.

King is worth about 19 cents. The company intends to ship 50 tons of ore per day, and is ready to do so now were the transportation facilities afforded it. It is expected that the spur will be completed.

stump which followed the stopping of the payment of dividends and the laying off len, 2000 at 7 3-2c.; Royal Gold, 50.5 inrst military ball. The half managers had ance of the successful completion of this just completed the coloring of the walls, and the laying off len, 2000 at 5c.; Okanogan, 500 at 5 1-2c. payment of dividends and the laying off of a portion of the forces employed in the mines. It will take a resumption of dividends, however, to restore the prices which preceded these incidents. The mines are worth as much as they ever were, and it is known to a certainty that advance work is all that is needed to again place them on a dividend-paying basis. So it is only a question of time with these big properties when the shares will take the place they bell own of time with these big properties when the shares will take the place they bell own of time with these big properties when the shares will take the place they bell own of time with these big properties when the shares will take the place they bell own of time with these big properties when the shares will take the place they bell own of time with these big properties when the shares will take the place they bell own of time with these big properties when the shares will take the place they bell on the price list. The brokers reiterate what has now become an odorndition again. This will come, they are the fine the tunnel of the contains the market in a good on the price list. The brokers reiterate what has now become an object the fine the tunnel of the property cannot be underestimated, as in addition to giving perfect ventilation to the mine; it has opened up an area of stopping ground over 400 feet long, with an average back of 100 feet.

The first chute of ore encountered in the tunnel wood five twick in an easterly and westerly direction, and on Tuesday as at an archine was of the wide in the property cannot feet long to the the Goal Mines to the Goal Mines the Goal did the follow the them in the tunnel of the total the property continues the stating to the the Goal did the follow the feet long to the the Goal did the follow the feet long to the the Goal did the follow the feet long to the Goal did the follow the feet wide in norther than the coll of the continues the fine to the follow the feet wide in an easterly and the feet wide in an easterly Thursday a solution again. This will come, they condition again. This will come, they say, when the British have beaten the Boer army to pieces. This victory is light able to come any day, and then it is said from that moment there will be a marked improvement in the condition and prices of improvement in the condition and prices will soon soar to ante-bellum prices. The sales by days for the past week were as follows:

Thursday Sales.

Tuesday's Sales And the sue surprise.

The Company, was i

of war.

Owing to the non-arrival of the pianist engaged for the evening, Mr. Falding and Captain Forim were obliged to start out early in the night to hunt up a substitute. Finally one was obtained, and after an hour's wait, the full orchestra started the program. During the interval several extra waltzes were kindly played by some of program. During the interval several extra waltzes were kindly played by some of the guests. Beyond this slight mishap the evening passed off without a hitch. All the members of the rifle company were present in full uniform and helped greatly to lighten up the pretty scene which was presented when the ball was in full swing, presented when the ball was in full swing, shortly after 10 o'clock.

shortly after 10 o'clock.

Although the union men had a special meeting on in the lodge room underneath the hall, they vacated the room early in the property known as the Britannia group, on Howe Sound, B. C.; a copper deposit has been discovered and is now at their urned into a supper room. The ladies and merchants of the city kind-being developed whose magnitude is a matter of astonishment to all the mining experts who have examined it. The property comprises seven claims, along which the gay throng descended to the days announced, and the ledge can be traced for a distance of 9,000 feet.

It looks very much as though Spokane parties were to have the good fortune to open up one of the biggest copper propositions of the decade.

Although the union men had a special meeting on in the lodge room underneath and good naturedly complain that the hall, they vacated the room early in the evening in order to accommodate the soldiers and their guests, and, the lodge room was then turned into a supper room. The ladies and merchants of the city kind-being developed whose magnitude is a matter of astonishment to all the mining experts who have examined it.
