London, Aug. 8.—The Germans continue to make progress. Their efforts are to cut off the retreat of the Russian army from the Polish salient. They have commenced an attack on the fortresses of Kovno and Ossowetz, which are among the obstacles they must overcome in order to reach the railway running from Warsaw through Vilna and Dniester to Petrograd.

Rome, July 27.—So serious is the revolt of the Senussi tribes, fomented against the Italians in Tripoli by Turkish and German officers, that the Italians have been compelled for the time being to withdraw from Fezzan and retire nearer the coast.

The "North German Gazette" officially refutes Lord Haldane's assertion that Germany frustrated his peace efforts in 1912 by refusing his offers.

As was the case with the Oklahoma, which was badly damaged by fire the night previous to the attempted sinking of the Ericsson, the officials of the company did all in their power to keep the latest attempt to damage United States property at their yard from becoming public.
