MYSTERY IS SOLVED

J. B. Kelly of This City
Finds that Mrs. Crow Died
In Detroit

Only One Surviving Rela-
tive of Woman Wanted
in Toronto

A few days ago an item appeared in The Planet referring to a letter which was written by Mayor Coatsworth, of Toronto, asking as to the whereabouts of a Mrs. Crow, who was wanted in Toronto by persons who had something of advantage to communicate to her. The information has since been received by Mayor Stone, and has been forwarded to Mayor Coatsworth.

Mr. J. B. Kelly, who lives on Queen street, saw the reference to Mrs. Crow in the newspaper, and knowing that Mrs. Crow once lived here, but had since gone to Detroit, he investigated the case, found out all of the particulars and supplied Mayor Stone with the information desired. In an interview with The Planet this morning, Mr. Kelly said:

"There were two sisters, Mrs. Crow and Mrs. Ganley, who were Misses Forhan before they were married. I knew them well, for when they first came to Chatham many years ago they started up in a dress-making establishment in my store on Queen street, in fact in the very place where our millinery is now located. They remained here until about twelve or fourteen years ago, when they moved to Detroit. Mrs. Crow died in Detroit about ten years ago and Mrs. Ganley died about two years ago in the same city. Mrs. Ganley's daughter, Dolly, is now living in Detroit at 280 Fifteenth street. I went to the house, but she was not in at the time. She is a dress-maker in Detroit. The two, Mrs. Ganley and Mrs. Crow, had one brother, John Forhan, who lived in Chatham about eight years ago.

"This is the history of the case as far as I can make it. The history from Toronto is made by some one in England, and I suppose there is money behind it. In that case, the daughter of Mrs. Ganley, being the only surviving relative would be entitled to it."

SOCIAL EVENING.

A most successful social evening was given last evening in the First Presbyterian Church, under the direction of the Young People's Society. There was a large attendance and a splendid program was given, which consisted of a piano solo by Miss Daniela Foreman, a violin solo by Ray Peck, and vocal solos by Misses Beatrice Smith and Daisy Carter. Miss Norma Smith, of the Model School, daughter of Inspector Smith, gave a recitation and Miss Madge Farquharson also gave a reading.

"WHAT'S THE SCORE?"

Aldermen Austin and Westman spent yesterday in Detroit on industrial business for the city. The genial chairmen of the Finance and Industrial civic committees have, as a result of so much exposure to baseball enthusiasm, become infected with scoreboarditis in its most virulent form. They didn't get to see the game yesterday, but they heard the noise and the cheering and the enthusiasm caught and stuck. Neither of the usually grave and businesslike city fathers had much time to talk about anything else but ball this morning.

"I tell you the Tigers cannot win now," remarked Ald. Austin. "From what I can make out the Cubs play a game that should make them feel like a back concession team. It was simply awful the way people over there have gone crazy over ball. Imagine paying from \$5 to \$25 for a seat at the game, and then waiting in line from eleven o'clock in the morning in order to get in."

TRAIN WAS DELAYED

The engine attached to the G. T. R. train which leaves Windsor at 7.35, ran out of water when the train got as far as Jeannette's Creek last night. For a full hour and a half the train hands had to carry water to the engine in pails to keep the engine boiler from cracking with the heat.

The conductor telegraphed to Windsor for a new engine, which was late in arriving. The train was delayed for nearly two hours, through someone's neglect to fill the engine boiler with water before leaving Windsor.

The fellow who kicks himself goes back on his best friend.

A GOOD SAMARITAN

Mine Host John Pleasence
Favored With Unexpected
Guest

Housed An Indigent Family
During the
Night

Mine Host John Pleasence of Hotel Rankin proved himself a friend in need last night, when the stark paid an unexpected visit to a room in which he had lodged an indigent and poverty-stricken guest. No doubt the Rooseveltian bird looks down on the genial and whole-souled proprietor of the Rankin to-day, and smiles its deep gratitude to him.

The story is a long one, but to put it in a few words, a woman who gave her name as Mrs. Newton, of Nixon, Ont., accompanied by two small children, called at the Rankin about 11.30 last night. She was in destitute circumstances, and her children were hungry, tired and travel-stained. She explained that her husband had cruelly deserted her seven months ago, and she had learned that he is now in Tupperville. She was on her way to find him when she ran out of money, and she and her children were so tired they could travel no further. The heart of the big hotel-keeper was touched by her sad tale of want and misery, and after feeding the family he had them shown to a room for the night.

There were three in the family when they went up to their room last night. This morning Mine Host Pleasence says there were four. In the early morning a new guest arrived in the shape of a bright, healthy, crowing baby boy. The case is one of the most pitiful known in this city for some time. The poor mother is without home or money, and now has three helpless little children on her hands.

The authorities at Tupperville have been notified, and are on the look-out for the husband.

IT WAS LAID OVER

Case against Minnie Fraelick will
Come up Later—A Serious
Charge

Miss Minnie Fraelick and Owen Palmer, both of Tupperville, appeared in the County Police Court this morning, charged with being inmates of a disorderly house. They were brought into the city by Constables McGregor and Peters. The girl is a daughter of Anson Fraelick, of Tupperville, and is a sister of Miss Annie Fraelick, who is well known to many people here. Another girl, a sister of Minnie Fraelick, who is under age, was also brought to the court. It is quite probable that she will be taken in charge by the Children's Aid Society, as the Executive Officer, W. A. Gunton, was present in the court room to look after her. The case was allowed to lay over until such time as the father of the girls will be able to appear in court.

SMOKED AT FIRE

"I saw something in last night's Planet about a fireman smoking his pipe at Wonderland fire the other day," remarked Fire Chief Pritchard this morning. "I was not aware of this till I saw the item in your paper, but afterwards I found it (to be true, the fireman in question admitting that he smoked at the fire. His excuse was that his wife will not allow him to smoke at home, and he took advantage of the opportunity while at the fire. There is an unwritten rule around this department that no member shall smoke while fire fighting, and we enforce it as best we can."

"The wife of the fireman in question has promised to allow him to smoke at home, so that it will not be necessary for him to wait for a call to a fire to get a draw at his pipe."

THEY CARRIED EXPLOSIVES.

Men Arrested at Niagara Falls Plead Guilty to Charge.

Niagara Falls, Ont., Oct. 12.—Robert Pasquel and Thomas Harding, who were arrested here while carrying loaded revolvers, nitro-glycerine and soap, were arraigned before County Judge Wells at Welland on Thursday and pleaded guilty to the charges against them, Pasquel to that of carrying weapons for a purpose dangerous to the public peace, and Harding to carrying explosives. Both were remanded till Oct. 21 for sentence.

As these offences may incur the penalty of long terms in the penitentiary, it is probable the police will drop the effort to connect the prisoners with the Chippewa Bank robbery. The third man of the gang, who escaped by holding up Detective Greenwood with a revolver, has not been caught or his identity learned.

THE CITY'S GAS SUPPLY

Mr. D. A. Coste Says he was
Taken too Literally By
The Planet

Operators Have Implicit
Confidence in Field and
Results Warrant It

D. A. Coste, of the Volcanic Oil and Gas Company, called at The Planet Office, to-day, and, in the course of an interview, said that the article appearing in last night's edition with reference to the future of the natural gas in this section had apparently created a great deal of uneasiness. He said that he has since been kept busy answering questions with reference to the longevity of the gas, and, while he could not question the accuracy of part of the interview as reproduced as far as there being now in the field sufficient gas for Windsor, he said that he was taken too literally, and, in consequence, many in the community are apparently alarmed that there will be a shortage of gas.

If the users of natural gas will just consider for a moment that Mr. Coste, and those associated with him in the Tilbury gas fields have already invested over \$100,000, and that before completing the work in Tilbury they will have spent at least \$150,000; that the installation of the purification system in the city of Chatham cost \$10,000 they can readily see that if anyone is taking any chances the Volcanic Company themselves are doing so, and unless less they had unbounded faith in the field they would not be warranted in making any such gigantic expenditures.

With a six inch main, which is nearly completed, they will be in a position to furnish 10,000,000 feet of natural gas to Chatham per day, without affecting the pressure in the field, and it will be some time before Chatham will reach a point where the citizens on the coasted days will require more than 3,000,000 feet of gas. To-day Chatham is using a million feet of gas, and yesterday the line pressure in the field was 200 pounds, with 140 pounds pressure at the city limits, with only three wells opened. The remaining wells, with a flow of about 12 million feet, will be connected with the main line within the next week or ten days. The citizens of Chatham will, therefore, understand that there is no occasion for alarm.

LICENSE NOT REVOKED

The Crown Attorney requests a correction of the report about Michael O'Mara in yesterday's Planet, to this effect: This is the third time a third offence conviction has been secured in the county. In both of the former cases the licenses were cancelled at once. In O'Mara's case, under the new law, the license cannot be taken away until action is taken by the commissioners under a report from the inspector.

THE CARNIVAL

The carnival at the Tecumseh Roller Rink, last evening, was very largely patronized and there were some very costly and interesting costumes worn. It is estimated that after the dancery, dress parade, there were over three hundred skaters on the floor, and all enjoyed themselves immensely. The prizes were won by the following:

Best dressed lady—Miss Arnold.
Best dressed gentleman—R. Tippling.
First prize for comic lady's costume—Miss Hazel Bedford.
Second prize for comic lady's costume—Miss Verlyn Lamont.
First prize for gent's comic costume—S. French.
Second prize for gent's comic costume—F. Liddy.

EDICT TO UNITED STATES.

Premier Bond Breaks Away From the
Modus Vivendi.

Gloucester, Mass., Oct. 12.—All the plans of owners of American fishing vessels, of which a large fleet is on its way to Newfoundland and to secure the herring, have been thrown to the winds as a result of a cablegram received from Premier Bond yesterday saying that Newfoundland fishermen on American vessels within or outside the three-mile limit will not be permitted.

This edict takes the American fishing question back where it was by the act of 1906. It makes all herring brought into the United States dutiable and places a tremendous hardship on the American fish industry.

Copy Our Act.

London, Oct. 12.—(O. A. P.)—"If public opinion cannot find the means of making itself obeyed on the question of a railway strike," says a writer in Review of Reviews, "it's high time we adopted legislation like the Canadian Conciliation and new Labor Act."

CREPE PAPER

AND
Paper Napkins

FOR THE
COMING SEASON

We have our stock complete in
all shades and designs.

Plain Crepe Paper
