

CREATED DISCONTENT.

British Ministry Accepted a Successful Opposition Amendment.

London, Nov. 15.—During the discussion of the land tenure bill in the House of Commons yesterday, the Government accepted an opposition amendment, which created much discontent among a large section of the Government supporters, who openly expressed their disapproval.

OVERTAKEN BY NAUSEA.

You don't know if it's going to stay down or come up. You feel like thirty cents and look even worse. If one thing is quicker than another, it's "Nervine." Ten drops in sweetened water gives relief instantly. Almost like magic is the change you experience. The cause of the nausea is removed, every symptom of vomiting and indigestion is cured within ten minutes. When Polson's Nervine is so trustworthy and economical, a bottle at home wouldn't be amiss. Large ones for a quarter at all dealers.

Blame Bridge Tender.

Atlantic City, N. J., Nov. 9.—After a stormy sea, the coroner's jury late Wednesday night agreed to place the blame for the Thoroughfare wreck of Sunday, Oct. 28, upon Daniel Stewart, the aged bridge-tender.

Foreign Office Denies.

London, Nov. 9.—The Foreign Office says there is absolutely no truth in the rumors that Lord Curzon, the ex-vice-roy of India, is to succeed Sir Mortimer Durand as ambassador of Great Britain at Washington.

ALMOST DEAD OF BRONCHITIS.

Few people have suffered more than John P. Taylor, of Dymont, P. O., Ont. Today he is well and writes, "I must tell you how much Catarrh-rhine has been to me. I was so bad with bronchitis sometimes that I thought it would soon be over with me. A spell of choking would come on that left me prostrated and weak. Since using Catarrh-rhine I have had no trouble at all. It strengthened my throat, stopped the cough, gave me free breathing and entirely cured me." Just the usual experience of Catarrh-rhine invariably cures whether Bronchitis, Asthma or Catarrh. Two sizes, 25c. and \$1.00 at all dealers.

Bond Memorial Fund.

Montreal, Nov. 15.—As a memorial to the late Archbishop Boire, it has been decided to endow a chair of New Testament history in the Montreal Diocesan College, and for this purpose a fund of \$40,000, to be known as the Archbishop Boire Memorial Fund, will be raised.

A SUGGESTION OF RARE VALUE.

A diseased condition of the surfaces of the air passages causes bad breath, but more commonly emanates from indigestion or an impure condition of the blood. Thousands of cases prove that Dr. Hamilton's Pills, through their specific action on the secretory and eliminative organs, not only cure bad breath, but also thoroughly purify the system that anything suggestive of blood or digestive troubles is impossible. Through Dr. Hamilton's Pills the skin grows rosy and clear, activity of the body and mind increases, and bounding health is established. Sold everywhere.

Countess Castellane Gets Divorce.

Paris, Nov. 15.—The tribunal of first instance of the Seine, Judge Dittie presiding, at noon yesterday granted a divorce to the Countess de Castellane (formerly Anna Gould of New York), and gave her the custody of her children, who, however, will not be allowed to be taken from France without the consent of their father, Count Boni de Castellane. The judgment was given with costs against the count.

FORCEFUL FACTS.

One-sixth of the deaths from disease are due to consumption. Nine-tenths of all cases of Golden Medical Discovery for "weak lungs," have been perfectly and permanently cured. Cornelius McCawley, of Leeburg, Armstrong Co., Pa., had in all eighty-one hemorrhages. He says: "My doctor did all he could for me but could not stop the hemorrhages, and all gave me up to die with consumption." What doctors could not do "Golden Medical Discovery" did. It stopped the hemorrhages and cured their cause. This is one case out of thousands. Investigate the facts. Feel Dr. Pierce's great work. The People's Common Sense Medical Adviser is sent free on receipt of stamps to pay cost of mailing and customs. Send one-cent stamps for paper-covered book, or 50 stamps for cloth binding. Address Dr. R. V. Pierce, Buffalo, N. Y.

Learning is pleasurable, but doing is the height of enjoyment.

Minard's Liniment cures Dandruff

MRS. TERRY KILLED.

Fell Down Elevator Shaft in the T Eaton Co.'s Store While Purchasing Christmas Presents.

Toronto, Nov. 15.—Yesterday afternoon Mrs. Mary A. Terry, wife of Herbert E. Terry, 52 Bellevue avenue, was killed by falling down an elevator shaft in the T. Eaton Co.'s store. Opinions differ as to how the accident happened. Some say she fainted, others say while standing on the elevator on the third floor her skirt got caught under the door and she fell. This pulled her back against the wire guards, which yielded to her weight, allowing her to drop to the bottom. The injuries which caused death were to the head.

The deceased was 40 years old, the mother of two girls and two boys. Mr. Terry is chief engineer for the Toronto Electric Light Co. at the Terauley street station.

Mrs. Terry was purchasing Christmas presents for friends in South Africa.

An inquest will be held to-night.

Syrian Cut to Pieces.

St. Stephen, N. B., Nov. 5.—John Dade, a Syrian, was frightfully mangled in the new paper mill here Tuesday night. The body was found in the chip screen yesterday morning cut in pieces. The mill into the 14-inch conveyor, which carries chips from the chipping machine to the screen where his life was beaten out.

Two Toronto Firemen Hurt.

Toronto, Nov. 15.—Responding to an alarm from Box 31 at 3 o'clock yesterday afternoon, Hose 16, from Richmond street Station, and Aerial 1, from Lombard street, came into collision at Church and Lombard streets. As a result, Lieut. Arthur Everist and Fireman Charles Elliott of the hose section are in St. Michael's Hospital with painful injuries to the head and shoulders.

Everist had five stitches in a scalp wound, and Elliott complains of his head paining him.

The horse which pulled the hose wagon had to be shot.

The Lyceum Arcade, where the fire was, was damaged about \$50.

CHARIVARI SHOOTING.

Four Young Men Wounded by Newly-Made Irate Benedict.

Brookville, Nov. 15.—At least four young men will have occasion to remember a charivari in which they took part near Bishop's Mills, about 17 miles from Brookville.

Mr. and Mrs. Davis, an elderly couple, were being charivariated on the night of their marriage. The boys were particularly noisy in their demonstration, and though offered money to go away, refused, saying they would return the following evening to continue the performance.

Davis, it is said, warned them to be prepared for the consequences. The gang turned up about 10 o'clock. William Hutchinson knocked on the door, which quickly swung open. As it did, Davis gave him the contents of a charge of shot from his gun. He was struck below the knee, the shot shattering the bone so badly that it is thought he will eventually lose his leg. With the remaining barrel Davis fired a crack at another, let drive at the fleeing companions of J. Hutchinson, three of whom he struck. One man was shot through the hand and the others on different parts of the body, but not seriously.

No prosecution has as yet been instituted.

CARS RUN IN HAMILTON.

But They Are Stopped and Rotten Eggs—Large Number Wounded.

Hamilton, Nov. 13.—There was a great mob on the scene yesterday afternoon near the corner of King and James street during the two hours from 3 to 5, that the street cars were operated. The police appeared to be utterly unable to cope with the situation, for although the cars were stopped and rotten eggs, about all the police did was to take the names of two boys, Jack O'Brien, Bay and Cannon streets, and Archie Ralston, No. 255 North East avenue.

It is probable that the militia will be required. Though not serious, the egg cases are very long. Chief Smith and Sergeant-Major Prentice were both hit by eggs, and there was hardly a policeman on duty who did not get a cut or a bruise. Windows in several cars were broken, with rotten eggs flying about.

The York street car fared the worst. Every window in it was broken, and the motorman was dragged out. One of the strikebreakers, who acted as a motorman, had his eye cut.

The cars will start out early this morning again and will be operated until 5 o'clock in the evening.

The Ontario Railway and Municipal Board has been asked by Mayor Biggar to intervene, and the board promised to take up the question at the conclusion of its sessions here.

HOLDS BANK RESPONSIBLE.

Government Sues to Recover Money Lost Through Forgeries.

Ottawa, Nov. 13.—In the Supreme Court yesterday the argument was begun in the case of the King vs. the Bank of Montreal.

The action was brought by the Government of Canada to recover from the Bank of Montreal the sum of \$75,707, the aggregate of the sums paid by the bank upon cheques forged by Martin, a clerk in the Militia Department, who was convicted of the forgeries of these cheques and sent to the penitentiary. All these cheques were paid by the several third party banks, in each of which Martin kept an account. In the Quebec Bank in the name of Charles Cote; in the Sovereign Bank, Charles D. Cote; and in the Royal Bank in his own name.

The defence of the Bank of Montreal was that the loss system in the accountant's branch of the Militia Department gave the facilities to Martin for the perpetration of the forgeries, and that the crown was therefore estopped by its own negligence. They also claimed relief over the third party banks in case they were liable to the crown. The trial judge and the Court of Appeal for Ontario held against the Bank of Montreal on both claims.

Indigestion

Stomach troubles is but a symptom of, and not itself a true disease. We think of Dyspepsia, Heartburn, and indigestion as real diseases, yet they are symptoms only of a certain specific Nervous sickness—nothing else.

It was this fact that first correctly led Dr. Shoop to the creation of that now very popular Stomach Remedy—Dr. Shoop's Restorative. Going direct to the stomach nerves, alone brought that success and favor to Dr. Shoop and his Restorative. With out that original and highly vital principle, no such lasting accomplishments were ever to be had.

For stomach distress, bloating, biliousness, flatulence and sallow complexion, try Dr. Shoop's Restorative—Tablets or Liquid. And see for you self what it can and will do. We sell and cheer fully recommend

Dr. Shoop's Restorative

C. H. GUNN & CO.

COMPLAINTS AGAINST C. P. R.

Alleged to Be Giving Coal Preference—Telephone Tariff.

Ottawa, Nov. 15.—The Railway Commission has issued orders for the investigation of complaints against the C. P. R., emanating from the west. The allegation is that the preference is given to coal traffic as against the wheat traffic. The telephone companies have been given three months' extension of time in which to file their tariffs.

When the tip of a dog's nose is cold and moist, that dog is not sick. A feverish, dry nose means sickness with a dog. And so with the human lips. Dry, cracked and colorless lips mean feverishness, and are as well ill appearing. To have beautiful, pink, velvet-like lips, apply at bed-time a coating of Dr. Shoop's Green Salve. It will soften and heal any skin ailment. Get a free trial box at our store, and be convinced. Large, nickel-capped, glass jars, 25 cents. Sold by C. H. Gunn & Co.

"LIFE" CONVICT ESCAPES.

Cronstadt, Russia, Nov. 15.—Twenty-five sailors, who were sentenced to hard labor in the mines for life, after having been convicted of participation in the August mutiny, escaped Tuesday night, while awaiting deportation.

They were allowed to visit the baths, under an escort of 16 soldiers, and overpowered and disarmed the guard, killing one man. Only one has been recaptured.

The readers of this paper will be pleased to learn that there is at least one disease that has been cured in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have as much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, O.

Sold by all Druggists, 75c.

Take Hall's Family Pills for constipation.

W. C. T. U. raises fees.

London, Nov. 15.—The whole morning session yesterday of the principal W. C. T. U. was taken up by the discussion of a motion by Mrs. Thornley of London to raise the membership fee from sixty cents to one dollar. The motion was finally carried almost unanimously. At the afternoon session a number of addresses were delivered.

Preventives, as the name implies, prevent all Colds and Grippe when taken at the sneeze stage.

Preventives are toothsome candy tablets. Preventives dissipate all colds quickly, and taken early, when you first feel that a cold is coming, they check and prevent them. Preventives are thoroughly safe for children, and as effectual for adults. Sold and recommended in 5 cent and 25 cent boxes by

Sold by C. H. Gunn & Co.

Financial conditions alter a good legal loan.

Painting the town is not one of the cardinal virtues.

A druggist can obtain an imitation of MINARD'S LINIMENT from a Toronto house at a very low price, and have it labeled his own product. This grossly imitative is the poorest one we have yet seen of the money that every Tom, Dick and Harry has tried to introduce.

Ask for MINARD'S and you will get it.

Dressmakers' bills are the root of many divorce suits.

Don't be fooled and made to believe that rheumatism can be cured with local applications. Hollister's Rocky Mountain Tea is the only positive cure for rheumatism. 35 cents. Tea or Tablets.

A. I. McCall & Co.

FACTS ABOUT BATS.

Naturalist Experiments With Animals Which Dispense With Sight.

Bats are remarkably independent of the sense of sight. A naturalist describes some experiments demonstrating this fact:—Covering the eyes of a bat with wax, he released the creature in a room. It first of all made its way to the ceiling, but instead of striking this hovered a few inches off, slowly making its way along the top edge and down the side, apparently guided by the incoming draft of air. Next a thorough exploration of the room was made, and throughout the examination it never once struck either chairs or table and swerved aside when a stick was placed in its path. As a result of this experiment naturalists believe that bats have an acute perception of atmospheric currents and vibrations resident in the nerves of the wing membranes.

This matter was thoroughly investigated so long ago as 1793, when, by the cruel experiment of blinding the animal, it was shown that they could cross a room across which silken threads were stretched in such a way as to leave just sufficient space for them to pass between with outstretched wings. They not only passed the threads without touching them but they avoided with equal ease the walls and ceiling. Even when the threads were placed still nearer together they managed by contracting the wings, to pass between them. Branches of trees were similarly avoided, and when tired they suspended themselves on the walls of the room as easily as if they enjoyed the use of sight.

From this it was inferred that these creatures possess a marvelously delicate sense of touch in the wing membranes. But it is also regarded as probable that this is increased by the expansion of the skin of the external ear and by the development of folds of skin on the nose and muzzle. In some bats indeed, a perfect rosette of such skin is developed in the latter region, as in the "leaf nose" bats, and it is supposed that the additional lobe of the ear, known as the "tragus," performs a similar function.

A Perfect Figure.

In an anonymous book published lately in Paris the following proportions are given for the perfect body:—The head should be a seventh part of the body—that is to say, that the height should equal seven heads.

The forehead should not be too high nor too large. It should harmonize with the oval of the face. The skin should be white and free of wrinkles.

The eyebrows should be well marked and should end in a point.

The lashes, to be beautiful, should be long and silky.

The eyes shaped like diamonds are, according to this authority, the most beautiful.

The nose should be equal in length to the forehead. Its thickness should be in proportion to the other features of the face.

The chin should be delicately rounded and free from indentation.

The neck should be twice as long as the nose and twice as big as the wrist.

The shoulders should be plump, of the same height, and slightly rounded.

The chest should be narrower at the top than at the bottom.

The arms should be rather large above and should diminish toward the wrist.

The mouth should be shaped like a bow.

The legs should be twice as large around as the arms. The height of the calf should equal the lengths of the foot. The ankle should be tapering, the foot small and plump.

Balanced the Wrong Fish.

It happens sometimes that the cure is worse than the disease. It was in the case of the mother who tried to break her little Theodore of the habit of taking a charge off the sideboard. "What a fellow has bonbons when there are guests to luncheon," she said, "and although Theodore promises not to touch them he always does."

"You might do as I did in the same case," suggested the neighbor, smiling reminiscently.

"What did you do?"

"I carefully removed the inside filling from a chocolate drop and stuffed the shell with red pepper."

"It might have worked," replied the neighbor, "if Johnny had happened to eat it. As it was, I forgot all about it in the press of other matters, and at dinner time the guest of the evening got it."

Bismarck and His Wig.

Bismarck occasionally wore a wig. He wore it for warmth and was proud when it successfully served its purpose. But at a blessing of the Neva, at which his sovereign and the Czar were present, his wig played him false. An officer remarked upon its appearance as they galloped along together. "Is it visible?" asked Bismarck. "Yes; distinctly. It's slipping down on one side," was the answer. Bismarck tore off his wig and threw it into the vehicle, while the Czar and a whole host of other distinguished men looked on in amazement. Said Bismarck's sovereign at the end of the day, "What an utterly diabolical manoeuvre you executed with that wig of yours!"—St. James' Gazette.

She Opened the Door.

A doctor who had saved the life of a woman, a personal friend, was asked his charge. He said he generally allowed his patient friends to remunerate him as they thought fitting. "But don't you often get disappointed on these terms?" she inquired.

"I may say, never."

"As you are easily pleased, here," and she playfully gave him her empty hand, while in the other was concealed a check for a handsome sum. "How easily I could have taken you in!" she said, producing the check.

"But you have only succeeded in drawing me out," he said, declining to relinquish her hand. "Don't insult me with a check. I am most generously rewarded."

"Perhaps she understood the doctor's difficulty and wished to help him out of it. At any rate, the giving of her hand led him to offer his heart."

A great man is only a little boy grown up.

I think everybody else is wrong.

Gray's Syrup of Red Spruce Gum For Coughs and Colds.

SAYS IT WILL BE DROPPED.

Cockburn Transfer Made On the Advice of Mortimer Clark.

Toronto, Nov. 15.—Discussion of the suit of the Ontario Bank against G. E. R. Cockburn, to set aside the transfer of the Bay street property, Frank Arnold, K. C., solicitor for Mr. Cockburn, expressed the opinion yesterday that it would not go on.

"The writ was issued on a mistake," he said. "The transfer was made under the advice of Mr. Mortimer Clark, without reference to the Ontario Bank proceedings. It was merely a matter of convenience in management."

Cephas Goode, treasurer of the share holders' committee, has received about 200 proxies so far from shareholders for use at the official meeting in December. There are 665 shareholders.

TO PREVENT BRONCHITIS or CONSUMPTION

Do not neglect a cold or cough no matter how slight as the irritation spreading throughout the delicate lining of the sensitive air passages sooner or later will lead to fatal results.

If on the first appearance of a cough or cold you would take a few doses of Dr. Wood's Norway Pine Syrup

you would save yourself a great deal of unnecessary suffering.

Dr. Wood's Norway Pine Syrup contains all the lung healing virtues of the pine tree combined with Wild Cherry Bark and other pectoral remedies.

It stimulates the weakened bronchial organs, allays irritation and subdues inflammation, soothes and heals the irritated parts, loosens the phlegm and mucous, and aids nature to easily dislodge the morbid accumulations.

Miss Belle Campbell, Long River, P. E. I., writes: "For some time I was troubled with bronchitis. A friend advised me to try Dr. Wood's Norway Pine Syrup. So I procured three bottles but it only took two to cure me."

Be careful when purchasing to see that you get the genuine Dr. Wood's Norway Pine Syrup.

It is put up in a yellow wrapper, three pine trees the trade mark and the price 25 cents at all dealers.

READY TO BURY VICTIM.

Three Men Believed to Have Murdered a Homesteader.

Regin, Sask., Nov. 15.—Passengers arriving by Tuesday night's train from the north give an account of what is believed to be a terrible murder near Davidson.

The alleged victim is a homesteader named McGregor. A neighbor who, on calling at his shack Tuesday, found three men preparing to bury him. A look at the dead body satisfied him that it had been subjected to great violence. He at once alarmed his neighbors and the three men were captured and are in custody.

It is said that they were all interested with McGregor in a threshing outfit and quarrelled when the time of settlement came.

Piles quickly and positively cured with Dr. Shoop's Magic Ointment. It's made for Piles alone—and it does the work surely and with satisfaction. Itching, painful, protruding or blind piles disappear like magic by its use. Large, Nickel Capped glass jars, 50 cents. Sold and recommended by

C. H. Gunn & Co., Chatham.

Glass Candlesticks.

Glass candlesticks are much in demand. The pressed glass can be had at remarkably low prices, while the cut glass is not prohibitive in price. Many persons object to touching any brass object and also dislike the labor of cleaning brass. Glass is more desirable on this account and looks very pretty upon the dining table, either with or without shades. It is growing to be more and more a glass age. Glass shelves are used in cabinets and china closets, and in up to date bathrooms even the tub is of heavy glass.
