WOLFVILLE, N. S., SEPT. 7, 1904.

## Our Next Governor General.

From day to day the papers announce the name of our next Governor General. One day it is the Duke of Marlborough, the next it is Earl Grey. One objection urged against the appointment of the Duke of Marlborough is the fact that his wife is a New York lady, and it is held, would turn Rhode Island into a second American White House. Some Canadians feel that they would be crowded out of their own vice-regal home and their places taken by the aggressive swells of American cities. Moreover if once a woman from the great Republic were installed at Ottawa a precedent would be established and the assertive Yankees would insist that the place belonged forever to them. It is at once conceded by some that if the dispute involved arbitration, the great American jurists, impartial beyond all doubt, would have Lord Alverstone on their side, and Canada would be under the social rule of the wealthy women of the States. But we think our fellow citizens unduly alarmed. No doubt the Duchess of Marlborough has forgotten her father's house and the things of New York, that are but as yesterday to the splendor and age of Hohenheim and London. It is more likely she would out do the native English in her admiration of what belongs to the autocratic life into one of whose families she has cast her life and fortune. Any way there are matters of more consequence to the nation than the complexion of social life at Ottawa.

## Our Water Supply.

Since the summer drought has been again safely tide over we hear very little about our water supply. Would it not be well for our town rulers to take time by the forelock and devise some method of preventing a recurrence of the experience of the past two or three summers? This is the time for formulating plans which when put into operation will ensure that next season, even at the driest time, there will be no shortage in water and no limit to the use of street and lawn sprinklers. Well kept streets add very much to the appearance of any town, and Wolfville people are yearly taking more interest in providing these beauty spots, and adding to their care. The town should do all that is possible to encourage this work. The value of the street sprinkler is year by year becoming better recognized by our people, and its failure to appear for even a short period during the heated term of summer evokes much certifying in the heads of the officials having it in charge. There seems to be little doubt but that the source of our present water supply is adequate to the requirements of the town for many years to come. What is wanted is provision for the storage of a larger quantity of water and this can easily be had by the addition of another reservoir. Those who have looked into the matter carefully, including experienced engineers, agree that this reservoir can be provided with very little trouble and at a reasonable expense. With double our present supply in store, the safety of the town from fire would be greatly enhanced, and users of lawn and garden hose, who pay a yearly fee for the use of the same, would not be prohibited from using them at any time in the summer. Surely the man who pays for this privilege should not be deprived of it at the very time when his need is most apparent. Having had experience of dried up lawns and gardens and dusty streets for the past two summers, our people will willingly undertake the expense of adding to the water supply when such addition can be so easily made. Our water system is already the most valuable asset of the town, and is increasing in value each year. Its efficiency must be maintained and made adequate for the growing requirements of its constituency.

## William Hall, V. C.

William Hall, of Horton Bluff, the colored man who won the Victoria Cross during the Indian Rebellion, died on Thursday last week, aged 78 years. Mr Hall entered the British navy at an early age, and served his country faithfully for many years. At the relief of Lucknow he was one of a squad of mariners who volunteered for a very difficult service, and he received the 'cross' for standing by his gun while the company were engaged in blowing open a gate to make an entrance into the city. He and another man were left alone to work the gun, their comrades having been killed, and by their pluck and perseverance succeeded in effecting an entrance for the British troops. Twenty years ago Mr Hall left the navy and settled at Horton Bluff, where he has well known and highly respected by all. At the time of the visit of the Duke of York to Halifax he visited the city and was kindly received by His Royal Highness. He is said to have been the colored man who ever held the coveted Victoria Cross. He was unmarried and lived with two sisters, Mrs Robinson and Miss Rachel Hall. The funeral took place on Saturday, burial being made at the Brooklyn cemetery, near Lockhartville.

The pleasant purgative effect expected by all who use Chamberlain's Colic, Cholera and Diarrhoea Remedy, is the healthy condition of the body and mind which they create makes one feel joyful. For sale by G. Y. Rand.

## What the Doctor Does.

The first thing the doctors do when he is called to see a fretting, worrying baby is to give it a medicine to move the bowels and sweeten the stomach. The doctor knows that nine-tenths of the troubles affecting babies and young children are due to irritation of the stomach and bowels, and that when the cause is removed, the child is well and happy. Baby's Own Tablets are an always-on-hand doctor, and promptly cure all the minor ills of little ones. They contain no poisonous 'soothing' stuff, and may be given with safety to the tenderest infant, or the well-grown child. Mrs. J. Overand, Hephworth Station, Ont., says—'My little one was much troubled with indigestion, and Baby's Own Tablets gave immediate relief. I have found the Tablets the most satisfactory medicine I have ever used for children.' Sold by all medicine dealers or sent by mail at 25 cents a box, by writing The Dr. Williams' Medicine Co., Brockville, Ont.

## No Reprieve.

W. S. Robinson, the convicted wife murderer, will have to suffer the death penalty. Word came to him from Ottawa on Monday that there would be no reprieve. Robinson, when he received the news, said he was ready to die, and expressed the desire that the execution should take place without any unnecessary delay.

Recently the authorities received a communication from the police authorities at Boston disclosing the fact that Robinson was a confidence man, and had succeeded in gaining the confidence of church people and in this way obtained considerable money for certain religious and charitable objects, with which Robinson said he was connected. Robinson, when he was informed of the communication, denied that he practiced any confidence game. He admitted having been connected with several churches in Boston and other places, and expressed a desire to write a letter to the pastor of Berkeley street church, Boston, with which he had been connected.

Robinson still protests his innocence and says he will go to the gallows an innocent man.

The sheriff of Kings county has received a letter from Radcliffe, the man, stating that he would arrive in Kentville September 8th, and requesting the sheriff to do nothing toward preparing for the hanging until he should arrive.

## Fruit Division Report for August.

APPLIES.—Prospects have not changed materially since the last report. In southern Ontario the fruit will be late and equal the crop of last year in quantity and surpass it in quality. In the Georgian Bay and Lake Ontario district everything points to a medium crop, cleaner than usual. Nova Scotia is developing considerable fungus. Prince Edward Island reports no appreciable change.

OTHER FRUIT.—Pears of all sort are a light crop. Plums are a total failure in more than half the orchards and only a light crop anywhere. The prospects for peaches have not improved. Fifty percent of the correspondence report a total failure. Black rot has injured the grape crop materially, in the larger vineyards, but the crop will still be fair.

FOREIGN MARKETS AND CROPS.—The first American apple sold in Glasgow at 12 to 14 shillings. The British and continental crop fill the market at present but the fruit crop is lighter than was anticipated, though still a good crop. American apples are 75 per cent, peaches 60 per cent and grapes 90 per cent of a full crop.
