## DRIVEN BACK.

## General Willocks Routs the Afghans Who Invaded India.

Simla, British India, May 4.—The promptitude shown by Major Sir James Willocks, commander of the British forces, in rushing his troops to the scene of the disturbance, has deprived the Afghan raid of present danger. He attacked the raiders on the hills west of Landi-kotal, in Khyber Pass, and drove them back over the frontier, scattering them in various directions. Finding no support from the other tribes, the raiders are dwindling away. According to reports received here, the Mohmands and other border tribes are quiet and engaged in harvesting.

The Indian Government is still uncertain as to the attitude of the Amir of Afghanistan, who since the signing of the Anglo-Russian treaty has on more than one occasion ignored the representations of the Indian Government, informing him that his frontier was no longer peaceful.

## A GREAT DEMONSTRATION

## Of Value Giving at the Right House To-morrow and Thursday.

People of Hamilton and vicinity are awakening to great enthusiasm and appreciation of Right House sales. The big 50c sale event for Wednesday and Thursday is illustrative of the values possible through the power of big purchases and old connections with great manufacturing concerns.

Fifty-nine cents will seem like a magic price when you see the beautiful things and useful fabrics and articles that can be bought for that price at the Right House to-morrow and Thursday. Of course, all the goods on sale at 50c are special 75c to \$1.25 values.

It is well worth a visit to the Thomas C. Watkins store just as a revelation of the great value-giving powers of the Right House. It will be an object lesson in economy. Sale starts to-morrow and continues Thursday.

Read the details in the big Right House advertisement to-night.

## TRAINMEN DROWNED

## Thunder Storm and Tornado Cause Three Deaths.

St. Louis, Mo., May 5.—A thunderstorm of unusual severity, accompanied by wind of almost tornado velocity, swept over the city early to-day, doing much damage and indirectly causing loss of life. A heavy train from Louisville & Nashville Railroad, near Belleville, Ill., was washed out, and caused the wreck of a freight train. The engineer, conductor and a brakeman were caught under the engine and drowned. The train was piled up in a mass in Schoenlaub Creek, which was swollen into a torrent. Edgemont, Ill., was flooded, and many persons were forced to take refuge on improvised rafts. The whole area of lowlands east of East St. Louis, Ill., over 35 square miles, is under water.

The bill proposes Dominion revision of lists wherever they are not prepared in the regular way by the municipal authorities, but are arranged by the Provincial authorities in some other unusual way. The provision applies chiefly to Dominion registrars.

## TWO MORE HERE.

## De Rohn and McMillan, Bail Tossers, Arrived This Morning.

This morning Bert De Rohn, the catcher signed by Manager Paige, of the Tigers, arrived here from Pepperell, Maine, and will have a work out at Britannia Park this afternoon. He is a husky looking chap and on his last season's record should make good. His fielding percentage in the Maine State League was .978.

Wm. McMillan, of Bangor, an outfielder from the same State League, came in from the prohibition State, with De Rohn. McMillan is a hard hitter and a fast base runner. He has covered 100 yards in ten seconds.

These two ball tossers have put up at the Commercial Hotel, along with Finnmore.

All members of St. Patrick's Boys' Union baseball team are requested to attend a practice at Cotter's field this evening, at 6.30.

The prospects are bright for the forming of a big church basketball league here next season. Mr. Walter Howell, druggist, a well-known supporter of sports, has promised to put up a valuable silver cup for competition among the teams. There are some good teams in the churches, and with such a trophy as an incentive there should be considerable rivalry, and many interesting games played.

## MET HIS AFFINITY.

## Young Man Bound for Hamilton Winged by Cupid.

(Montreal Herald.)  
Her name isn't Smith, while Jones called in his direction would not evoke a reply; but for the purposes of the telling of this little romance, Smith and Jones will serve. She was bound for Montreal, intending to enter into a rather humble, but decidedly useful service. He was on the way to Hamilton, being a roller by trade and having a position in the mills there.

They met for the first time on board the Allan liner Corinthian, while on the way from Glasgow to this port. With a speed that would delight the cynical soul of Citizen George Bernard Shaw, Cupid fitted a dart to his little bow and pierced two hearts with one shot. It was all over after that. What he said to her and what she said to him does not enter into the province of this space, but at all events, they agreed to begin life together in the new world as one.

His father was on board and gladly consented to his son's record-breaking love making. The pair left the Corinthian when it arrived at Quebec, were married, and are now as happy as such persons should be.

The Corinthian will have a name as a matrimonial ship for the time being, for that half a dozen young folk had agreed to join their fortunes and start life together in Canada. There were three bridal couples on board, and when the boat arrived here yesterday morning the friends of the bride and groom were there to meet them.

The result was that the dull shed on Jacques Cartier pier was brightened by hearty laughter and warm greetings, while innocent bystanders had to duck hastily to avoid flying rice.

## FAILURES LAST WEEK.

May 2.—Commercial failures this week in the United States, as reported by R. G. Dun & Co., are 330, against 308 last week, 262 the preceding week and 170 the corresponding week last year. Failures in Canada number 16, against 22 last week, 26 the preceding week and 19 last year. Of failures this week in the United States, 126 were in the East, 91 South, 77 West and 36 in the Pacific States, and 111 report liabilities of \$5,000 or more, against 110 last week. Liabilities of commercial failures thus far reported for April are \$15,832,813, against \$11,082,096 for the same period the previous year.

Muster of the Animals.  
About 2,500 different kinds of animals are known on earth—that is, warm-blooded, milk-giving creatures, like our common domestic animals. To avoid confusion with other creatures, we ought to call them mammals, meaning milk-giving animals.

and planting. No damage has been reported from the late cool spell except to fruits.

In considering business prospects, one thing should be especially borne in mind. We have now had six months of very standard weather. Production cannot be infinitely curtailed at the rate of 20 per cent. to 50 per cent. Such contraction is out of all proportion to the actual decline in consumption. Before long supplies must become greatly reduced, if not exhausted, even if consumption were to continue on present reduced scale. Everything now points to at least a partial resumption of industrial activity ere long as a result of better conditions in the money market.—Henry Clews.
