WHITTLING PARTIES.

How Ruralists in Northeastern Pennsyl-vania Amuse Themselves in Winter.

Whittling parties are all the rage this low the waist, and is trimmed horizontally winter in the rural districts of northeastern Pennsylvania. They have taken the place of apple bees and other amusements, We are going to wear velvet bodices of and they are the most popular evening distinct colors with light skirts - Emindiversions the young men and maidens now have. The desire to become skillful with the jacknife got to be a craze in some neighborhoods. Nearly all of the whittlers are descendants of Yankee farmers, and therefore, says the New York Sun, handle ling contests take place in the farmhouse the favorite colors remains - beige. A ax helve, hammer handle, potatoe masher, trimming, a full frill going all around. to decide on the merits of the work turned This frill can hardly be too full about the out. Their decision is final, and the things shoulders and is employed on all kinds of shaped out of wood become the property dresses. Feather stitching is to be seen of the giver of the prizes. The only implements allowed in the contests are a jacknife and a file, and the work must be finished within two hours.

worn as the season advances, especially Rosy-cheeked girls compete with the trimmed with black velvet. Some tailors young men for the prizes. Some of them are making most of the dresses with the are expert with the jacknife and can belt on the top of the skirt, to be worn whittle faster and to a better purpose than outside the bodices. This saves a great their competitors of the other sex. In deal of trouble to the wearer, and prevents Palmyra township one night last week a fear of this separating. Skirts are cut in bright-eyed girl of nineteen whittled, filed, various ways; some of the styles are only and sandpapered, out of a piece of ash as suited to wide materials, the front being shapely a rolling pin as the most particular housewife could wish for. She did the the skirt stands out full at the back work in an hour and twenty minutes, and Others, again, are a succession of gores. she won the first prize in a company of Skirt making is becoming more of a study seven competitors. If the prize giver even than the bodices.-The Queen. decides to get his guests to work on hickory ax helves, they have to submit to it; if PREPARE FOR THE WORST.

there are more women than men competitors, the giver of the party almost invariably favors the former by selecting something that will be easier to whittle than In speaking of the likelihood of cholera an ax helve. While the whittlers are gaining a foothold in America this year, busy the non-whittlers have a jolly time

the admiral's bridge as it fell down and obstructed a view of the toppling smokestacks of the other steamers. In five minutes the ships had been destroyed, and the signals were given to the men on board of them to cease throwing red and blue powder into the fires. Then the ships rode majestically at anchor just as they had before they caught fire. This little bit of spectacular pleased the crowd immensely. So many people were and died after blossoming and possibly there in Riverside Park watching it and so heartily did they express their approbation that the storm of hand clapping
