(Continued from first page.) each section fit for settlement, that a saw mill of 3 to 5 million capacity should be built and Indians employed therein, and that the patent should issue in three years when the conditions should be fulfilled. Also the Department kindly accepted Mr Wilson's valuator.

So the partners obtained 29,30 sores which McAulay valued at Government marked this down to \$9,017.50.

EVERYTHING CHANGED.

The partners made a small payment at the time and paid other sums within the next three years. They without restrictions.

900 PER CENT. PROFITS.

The ground was now clear for a partners asked for and obtained a a year. remission of the interest due on deferred payments. \$101,830.00 The partners got

The Indians who owned the lands got

Middlemen's profit A BAD BUSINESS

Had the land been put up to com petition without the restrictions the Indians should have received the larger sum. Even with the restrictions the valuation of 30 cents an acre was ridiculous. Protests against the price were made at the time by one Liberal Member of Parliament, and one officer of the Government. Various applications were made for the land while the partners were holding it for sale. These applicants are prevented from in exchange for gold and that this establishing an industry on the gold was immediately exported to ground. The Indians have lost over \$90,000.

NO DEFENCE.

transaction, professing that it was about the same amount. too late in the session to inquire into it and complaining that Mr Boyce had not brought it before the committee. He was reminded by Mr Borden that the Governmen had refused a reference of the whole land question to a committee and had withheld information and block ed inquiry into other transactions. In a session of many exposures there is nothing more shameful than Northern Navigation Company of

this breach of trust. AN APPALLING RECORD.

Friday evening Mr Foster moved a resolution presenting these signi-Expenditure, 1905.6 \$ 41,702,358 Port Arthur, Fort William and 111,906,330 Daluth. 1907-8

Expenditure per head, 1905-6 Expenditure per head, 1907-8 Increase per cent. Cash obligations for G. T. P. Cash obligations for Quebec Bridge

67 433,639 Contingent liability, G. T. P. 11,196,290 Total obligations 295,475,612 26 000,000 Paid on G. T. P. Amount to be borrowed 166,041,978

Loans falling due by 74,800.00 1911 (net) 240,841,973 Total to be borrowed To be raised within 192,216,797 three years Not vithetanding this the follow-

ing expenditure and obligations have

been authorised this session:

Get the Most

Out of Your Food You don't and can't if your stomach weak. A weak stomach does not digest all that is ordinarily taken into it. It gets tired easily, and what it fails to digest is wasted.

Among the signs of a weak stomach are uneasiness after eating, fits of neryous besiden, and disagreeable belching.

Estimates and bounties 140,053,331 Subsidies, placing cost of Railways at \$20,-000 per mile 22,566,300 11,067,000

Total 175,385,681 The resolution set forth that the House viewed with grave concern

these increased expenditures and obligations, and added : A TRUE STATEMENT. That these buge expenditures have in numberless instances been

characterized by utter lack of discrimination, absence of proper inquiry and investigation, disregard of 31 Fri 5 04 7 45 9 46 1 13 12 25 public as compared with private interests, want of common business prudence in oversight, costly pandering to partizan interests, lack of conscience in purchases from the patronage list, and the aggrandize ment of the middlemen, through all of which millions have been annually wasted.

That in the opinion of this House the mad and reckless financial course of the Government is seriously affecting the public credit, unduly burdening the resources of the country and \$9,980.75. For some reason the if longer persisted in will end in public disaster.

Needless to say, the motion was voted down by the party majority. A PRINTING RAKE-OFF.

A neat little rake off was revealed in the Public Accounts Committee brought no settlers, built no mill, this week. The Auditor-General's statement for 1907 shows \$6,960,92 sion. Finding the saw mill con- paid for Intercolonial printing to the dition an impediment they asked St John Sun Printing Company. and obtained the right to build a The proprietor of the Sun is B. F. portable mill instead. Then they Pearson, M P P, also proprietor of got the saw mill clause struck out the Halifax Chronicle, and particialtogether. Meanwhile it had been pator in the Halifax land deal. The made clear that hard wood might be Sun's bookkeeper and the managing shipped to the United States as logs, director testified that the company had no job office, but handed over the work to a local job printer, paying him 75 per cent of the price received, and retaining the other sale and the property was sold to quarter. This gave the company American lumbermen for \$101.830. \$1,740.23 rake-off in the nine Not satisfied with this profit the months, or at the rate of \$2,175.00

NOT MUCH FOR THE

Senator Ferguson on Tuesday absolutely established the fact that the western farmeas got no benefit from the extra issue of Dominion notes made last Movember and December ostensibly to assist in marketing their wheat. He showed that the banks did not ask for these notes, but without them were able to finance the crop, and in fact had not then issped their own notes to the full authority. The Government has preserved a mysterious secrecy about the transaction, but the bank and treasury returns, and the trade records show that the notes issued went back at once to the Treasury New York where it then commanded a premium. The extra issue of notes was a little over \$5,000,000, and the experts of gold in excess of the same Mr Oliver refused to defend the month in the previous year was

> Grand Trunk Lake and Rail Route.

At the Grand Trunk general offices his morning, confirmation was made of the report that a long term agreement had been made with the Ontario, Limited, for the formation of a Grand Trunk Railway System line of steamers on the Georgian Bay and Great Lakes in connection with their Ontario and Quebec Lines from and to the East and Sault Ste Marie,

The Navigation Company has been running lines of passenger and freight steamers in connection with 18.00 the Grand Trunk for a number of 165 years out of Collingwood and Owen Sound on the Georgian Bay and 166,423,445 from Sarnis to Lake Superior ports. While the eteamers will continue to be operated under a separate organizetion, the new arrangement creates a very close affiliation and practically nakes them a Grand Trunk line.

The fleet at present consists of eight passenger and freight, and two purely freight steamers. Five boats are operated on the Georgian Bay

from Penetang, Collingwood and Owen Sound to Sault Ste Marie, and during July and August to Mackinac Island, thus giving the railway the only complete means of reaching all the 30,000 Islands, the North Channel and other portions of this wonderful region.

The two larger vessels, together with the freighters comprise the Lake Superior Division running from Sarnia and delivering passen gers and freight at Port Arthur to the Canadian North and Canadian Pacific Railways and at Duluth to the Great Northern and Northern Pacific Railways for Winnipeg, the Northwest and Pacific Coast points, and, of course, later on, connection will be made with the Grand Trunk Pacific. Through fares are quoted and tickets sold at all the railway offices to all points in this vast terri-

Of the fleet the " Huronio" is the flag ship, being a new vessel and one of the largest and finest on the upper lakes. In addition, the Company has at present under construction to be put into service next year, another vessel which is intended to be not only the largest but finest vessel in the Lake Superior trade. She will be of 5,000 tons, with cargo capacity for 3,500 tons of package freight, will have five decks, with accommodation for 425 first cabin passengers, and a large number of second class. There will be eight parlor rooms with private baths, drawing room, ladies' lounge, smokeroom and an immense sun-parlor capable of being converted into a ball-room 38 x 80 feet in size. The interior decorations and ornamentation are designed by the most celebrated marine interior expert in America, and she will be a very complete and handsome ship. She will be fitted with engines capable of developing 6,500 horse-power and lighting and refrigerating systems of the most modern and approved designs. A second similar ship is under consideration for construction as soon as the traffic warrants, the intention being that by the time the Grand Trunk Pacific is in operation complete and up to-date line will be ready to furnish a rapid and enjoy-

An Unprecedented Harvest

class in every particular.

All reports from Manitoba and the that this year's grain crop will surpass that of any previous year. The increased average under cultivation and the ideal climatic conditions which have this season prevailed have brought about this result. All eyes are upon Western Canada, the "Breadbasket of the World." The benefits of this bountiful harvest are numerous and far-reaching, and in a great measure will serve to offset the financial stringency which has been felt throughout the country for some months past, and with two or three weeks more of continued good weather the "Granary of the Empire" will be the great factor in bringing Canada's affairs back to their normal

The work of cutting, threshing and gathering this immense crop will give be rid of these parasites. Price 50c. months of employment to a vast army of laborers, and it is estimated that between twenty-five and thirty thousand helpers will be required for this year's harvesting. The farmers of the east are as much interested in this matter as are their western bretbren, in fact, it is a work of national importance, and the call from the west for belp must be heard and heeded in these Eastern Proviscas, for upon the west depends largely the growth and development of the country. The Canadian Pacific Railway, realizing the demand for labor in the West, will, as in previous years, run farm laborers' excursions and it is expected the laborers from the Maritime Provinces will be required to leave here about the first week in August. The exact date will be announced later. The general arrangements for the excursion will be along the lines of ex cursions run in previous years, the rates for which were \$12.00 going from C. P. R. stations in New Bruns wick; \$13.00 from I. C. R. stations in New Brunswick and Nova Scotia and D. A. R. stations, and \$13.50 from P. E. Island points. When i is considered that the distance from say St. John to Winnipeg is nineteen hundred miles, it will be readily seen that the railway is offering the next thing to a free pass. Intending settlers are given a splendid oppor tunity to look the country over, and the money earned in the West wil

cover all the expenses of the trip and

leave them something to the good.
