By Telegraph SHOT FOR DESERTION.

Admiral Hotham Succeeds Beresford

FIRST MEASURE FOR PARLIAMENT.

Movements of Ocean Steamships.

THE NEW HEBRIDES COMMISSION.

War Between Russia and Austria Inevitable.

HALIFAX, N.S., Jan. 30.

Eighteen French soldiers were shot for desertion at the same time in Tonquin.

Admiral Hotham succeeds Beresford as Junior Lord of the Admiralty.

Rules of procedure will be the first measure before parliament after the address to the Queen.

A severe gale was experienced in Britain yesterday.

No mail was received from Montreal at Halifax since Thursday until this morning. The *Sarnatian* is still awaiting the Upper Province mails for England.

The *Polynesian*, with English Mails, arrived last night.

United States railways continue blocked.

England and France have signed rules of guidance for the Commission whose duty it will be to settle the New Hebrides question. The French troops will shortly be withdrawn.

The Hungarian Premier, in a speech on Saturday, said he regarded war as inevitable between Russia and Austria.

WHERE ARE THE CREW?

A Hastily-Abandoned Boat Drives into Long Harbor.

TERRIBLE EXPERIENCE OF SCHR. NIMBUS.

(Special to the Evening Telegram.)
PLACENTIA, This Afternoon.

A large boat called the *Rising Sun* drove into Long Harbor last Friday with bows stove in and full of water. It seemed to have been abandoned in a hurry, as clothes, herring nets, &c., were left on board. She belongs to the western side of Placentia Bay.

The schooner *Nimbus* arrived from St. John's to-day, after a hard passage of eleven days, during which she encountered all the recent heavy gales.

FROM CAPE RACE.

(Special to the Evening Telegram.)
CAPE RACE, This Evening.

Wind northwest, blowing a strong breeze, with snow-showers. No vessels have been sighted since last report.

NEW INVENTION IN CALICO PRINTING.—A correspondent writes to the *British Mercantile Gazette*: "The 'simultaneous' process of colour printing promises to entirely revolutionise some classes of calico, velvet, and velveteen printing, and also the printing of advertisements in colours. The novel character of the 'simultaneous' process will be at once understood when I mention that by it, if required, 1,000 shades could be printed off at one impression. Instead of using engraved rollers as in ordinary calico printing, or stones as in the case of coloured advertisements, the signs of pictures are 'built up' in a case of solid colours specially prepared, somewhat after the style of mosaic work. A portion is then cut or sliced off about an inch in thickness, and this wrapped round a cylinder, and the composition has only to be kept moist and any number of impressions can be printed off on calico, velvet or velveteen, the colours being thoroughly 'fast.'"

It is not necessary for a corpulent person to rigorously deny himself everything good to eat in order to be less bulky. It is said by a contemporary that a cup of hot water taken after each meal will rapidly reduce flesh. Eat what you like, but drink nothing at meals, and in a few minutes after rising from the table drink the cup of hot, not boiling, water, and enjoy the light relieved feeling you will experience.
