When you think of it—it's all rather wonderful—the ability to take two pieces of glass—string them together with a piece of gold wire and bring perfect sight to some unfortunate who has weak, twitching eyes.

Study—years of practice—conscientious examination—together with a touch of the grinders to the glass in one place and a higher polish to the lens in another, make for youthful eyes for you.

If you have any trouble with your eyes, come to see me at once and get them examined—Free of Charge.

ARE NOW WEARING

BENGALINE TIES.

And why not? When men first heard we were selling Ties for 50c. they doubted. Thought they were old stock—shoddy material—a catch some where. They didn't expect to get a Tie for 50c. that would outlast a \$1 Tie. They got a surprise—so did we; we sold them by the dozen on Saturday. There are still some choice Japanese patterns left—a windowfull.
