

WESTERN ONTARIO.

BRANT.

Charles Herbert Collins has issued a writ against Bernard Travers, of Paris, claiming \$10,000 damages for assault, false imprisonment and malicious prosecution.

R. McKinnon, an employee of the Waterloo engine works in Brantford, was engaged in hauling up a casting when one of the chains broke and the whole mass, weighing about 900 pounds, fell on his leg. The member in question was very badly crushed and the unfortunate man was at once removed to the hospital. The patient is about 40 years of age and a married man.

ESSEX.

Inspector De Barry, of Buffalo, has sent back to Canada Charles Stanton, a sailor from Port Stanley, and Ellis Leander, a carpenter, who were going there under contract to work for a Forest Avenue contractor.

ESSEX.

The fine ferry boat built for the Detroit, Belle Isle and Windsor Ferry Company will be launched from the Springwells shipyard Saturday afternoon.

At Osprey Hall, in the case of Banfield vs. the county of Essex, judgment has been given on motion by the defendants to change the venue from Toronto to Sandwich. Action to recover the amount of a claim for shelving the registry office of the county of Essex. The referee finds that in view of all the facts of the case the proper place for the trial is Sandwich. Order accordingly. Costs in the cause.

ESSEX.

W. D. Eberts, one of Chatham's oldest citizens, is dead. He was born in Windsor in July, 1811, in the house still standing, and now known as "The Hall Estate."

His father, Joseph Eberts, and grandfather, Dr. Hermann von Eberts, both served in the war of 1812, the former as a captain and the latter as surgeon under his father. Captain William Baker, who was first in 1793, founded the post "to be called Chatham." Deceased has lived in Chatham since 1835, and in 1890 he celebrated his golden wedding. He had been a successful business man, and had been honored by being placed in many responsible positions during an active and useful life.

The black knot disease has become very prevalent in the township of Harwich, and must be promptly dealt with if we are to have our homes supplied with best of summer fruits. Black knot is a fungus growth, the germs being carried by the wind from trees affected. By this means it has spread from farm to farm, until there is scarcely a cherry or plum tree to be found that is free from it.

A worthy Scotch woman regularly attends Chatham market. The good lady, who is known as Mrs. James, has been in the market for many years, and is well known to all who frequent the market. She is a very good natured woman, and is always ready to help a stranger. She is also a very good cook, and her food is always of the best. She is also a very good housewife, and her home is always in order. She is a very good mother, and her children are all well. She is a very good friend, and her friends are all well.

LAMBTON.

A frame dwelling belonging to Wm. Wilson, of Waukena, was burned on Wednesday, together with part of the contents. Loss estimated at about \$15,000. A defective chimney was the cause.

At the Lambton Assizes, James McWhorter, who was indicted for manslaughter for having killed a young girl while firing at a target in a shooting gallery, was acquitted.

In the case of the Queen vs. Higgins, at the Lambton assizes, the defendant was charged with receiving stolen goods. He was acquitted. Frithman vs. Moore, Holmes and Courtwright, an action for slander, was settled, each to pay their own costs. Winger vs. Stubbs, an action for breach of covenant in a lease, stands for judgment.

MIDDLESEX.

The old folks' concert at Dorchester Station on Good Friday was a complete success. The programme was very good, indeed, first class, and with Dr. Flock, of London, in the chair, things went lively. The doctors' concert was a very appropriate and beautiful. The singing was excellent, and was appreciated by the audience. Proceeds about \$40.

The song service by Rev. A. Fowler, B.A., in the Methodist Church, Dorchester Station, last Sunday evening, drew a large crowd.

The anniversary of Hope Lodge, No. 69, I. O. O. F., Harriestville, will be held on Sunday afternoon, May 1, at 2 o'clock, in the Methodist Church, when Rev. Bro. J. E. Moore will preach the sermon. Glanworth, Dorchester, Aylmer and Thamesford lodges are invited to be present.

The marriage of George A. Arms to Miss Hester E. Hackett took place on Wednesday afternoon at the residence of the bride's father, Mr. George Hartle, Dorchester. The bride was supported by her sister, Miss Annie Hartle, and the groom by his brother, Fred Arms.

The Rev. J. E. Moore, of the Methodist Church, Dorchester Station, performed the ceremony in the presence of between 30 and 40 invited guests. After the marriage was solemnized the company sat down to a bountiful repast. The newly-wedded pair will reside at Dorchester Station.

OXFORD.

Arthur R. Latham, of Montreal, died last week. He was well known in Woodstock as Birchall's college chum and bosom friend.

Miss Selimovna, of Springfield, was committed as a dangerous lunatic on Wednesday by Judge Finkle, of Woodstock.

A social will be given at the First Baptist Church, Woodstock, on Friday night, which will be of more than ordinary interest to the members of the congregation.

Friday the seventeenth anniversary of the organization of what was then called the Oxford Communion Baptist Church, which was a Mr. Tallman from New York State, who combined farming with preaching. The membership was recorded as 21, made up principally of those who had seceded from close communion churches in West Oxford. R. W. Sawtell is preparing a history of this Baptist Church which will contain many interesting reminiscences.

PERTH.

The officers of the Conservative Association of Stratford are: Ald. J. O'Donoghue, president; Ald. B. F. Youngs, first vice-president; Dr. W. N. Robertson, second vice-president; and Mr. T. M. Harrison, secretary.

John Branch, of St. Marys, was charged with having assaulted Miss Annie Squires, while she was taking a walk through her grandfather's grove. He pleaded guilty to the charge and was sent to Stratford to stand his trial.

T. H. Race, of the Mitchell Recorder, proposes to leave Canada for the United States. His removal will be a loss to Canadian journalism. He is one of the ablest

writers on the country press; and it has been recognized in a practical way that he could ably fill a staff position in a metropolitan daily. He is a specialist in horticulture and has done good service to the Province as a lecturer along with the professors at the Provincial Agricultural College before the Farmers' Institutes.

YORK.

When Dr. James Langstaff, of Richmond Hill, died, a will was probated which was dated Feb. 12, 1885. By it Mrs. Langstaff was bequeathed two stores on Queen street and four houses on Goulding street. Afterwards a second will was discovered, dated Nov. 30, 1887, by which the widow was left a \$10,000 stock in the Toronto Industrial Investment Company in addition to the property she received by the first will. On Wednesday Chancellor Boyd affirmed the validity of the second will.

WENTWORTH.

George C. Holden has been appointed manager of the Hamilton and Dundas Street Railway, in the place of Mr. McIntosh, who returns to the Steamboat Company's service. Mr. Holden is a man of push and energy.

The examination of young ministers in connection with the Niagara Methodist Conference is being held at Dundas. The candidates are: Preliminary examination—Charles T. Baylis, Hamilton; D. M. Johnston, Smithville; Howard Kennedy, Hamilton; Albert Louie, Port Colborne; Monsinger, Smithville; Frank Morris, Hamilton; W. W. Prudham, Waterford; W. A. Sippell, Port Robinson; W. B. Smith, Trailburg; George F. Swinerton, St. Catharines; E. V. Smith, St. Catharines; George Reader, Port Colborne; Charles A. Cavers, Simcoe; J. R. Patterson, Port Dover; Edward Sheppard, Walsingham Court; Henry Brand, Springfield; A. B. Miller, Bedford; A. W. Crawford, Cayuga; Charles M. Marshall, Port Colborne; Second year—W. J. Sippell, Port Robinson; S. A. Laidman, Jarvis; Joseph Culp, Otterville. Third year—James M. Wright, Selkirk; S. W. Falls, Hagersville.

About \$350 has been collected in fines up to date in the Lynden cock-fighting case.

IS YOUR ICE IMPURE?

That Taken From the Cove is Pronounced Bad

By the Doctors Who Analyzed It—Deaths From Contagious Diseases—The House-to-House Inspection.

Dr. Hutchinson, medical health officer, reported to the Board of Health yesterday afternoon as follows: I beg to report that during the month of March there were 12 cases of scarlet fever and no deaths; 3 cases of diphtheria, of which I died, and 3 deaths from typhoid fever. I also beg to state that for some time I have been making a careful analysis of ice taken from different parts of the cove by myself and from the same place from which it is taken by the ice dealers of this city. In this work I have been assisted by the Government analyst, Dr. Harrison, with the result that the ice has been found unfit for domestic purposes. As there are thousands of dollars invested in buildings, land and equipments, I think it would be unfair for the board to take action until such time as a careful analysis can be made during low water, of samples from the north and south branches, where ice is also obtained for use in the city, and as the business employs men and considerable capital is invested therein, I would suggest that the Government analyst be requested to make careful analysis of river water taken from the different places where ice is cut for domestic use. In the meantime I would recommend that dealers selling ice obtained from the cove be directed to have notices painted on their wagons that it is "for cooling purposes only." This would protect the public to a certain extent from the danger of using impure ice until the analyst completes his examination of waters from where ice is cut. I also desire once more to call the attention of the board to the nuisance on Victoria Park. It is entirely useless, indecent and a great annoyance to people living on or going along Park avenue. Last year the city engineer was directed to prepare plans for one such as that one at the G. T. R. station, and to be connected with the city sewer, but as yet nothing has been done in the matter.

Dr. Hutchinson further stated to the board that there was a large quantity of surface water from South Loch, which is directed into the south branch. The ice he had analyzed, he said, was not very bad, but was below the standard required by law. He had spent nearly a month in making the analyses referred to in his report.

The board will employ Dr. Harrison to make thorough examination into the matter, and a special meeting will be called to consider his report.

The board decided to leave the Victoria Park matter over until its next meeting.

A communication from Gibbons, McNab & Mulken threatened the city with a suit for damage done to P. Mulken's lot on the west side of the city street, near Central avenue. Mr. Mulken offered to sell the lot to the city for \$250, as it has been practically rendered almost worthless by the action of an individual member of the board. Dr. Gardiner, in ordering the course of Carling's Creek to be changed.

A memorandum from the Council regarding cleaning Carling's Creek was laid over.

Dr. Wonnacott complained to the board that James Courney, contractor for the removal of night soil, left his wagons exposed, thus causing an offensive odor throughout the neighborhood. Dr. Hutchinson considered the complaint an unwarranted one, and the inspector was asked to report on the matter.

The inspector and his assistants will begin a thorough inspection of the city from house to house. Mayor Spencer suggested that a policeman aid in the inspection, and his suggestion will be acted upon.

Ald. John Heaman (chairman), Ald. Hannah and Parnell, Mayor Spencer, Ex-Ald. Skinner, Dr. Hutchinson, medical health officer, Inspector Bell and Secretary Bell were present.

Unpromising Futures.

First Tramp—There ain't goin' to be good livin' for our profession in the future, I'm afraid.

Second Tramp—Blow me! 'ow's that?

First Tramp—It's this 'ere civilization. These cookin' schools is teachin' the gals 'ow to use the cold wittles.

It is one thing to give good advice and another thing to take it; when taken, it is beneficial morally and physically.

John Branch, of St. Marys, was charged with having assaulted Miss Annie Squires, while she was taking a walk through her grandfather's grove. He pleaded guilty to the charge and was sent to Stratford to stand his trial.

T. H. Race, of the Mitchell Recorder, proposes to leave Canada for the United States. His removal will be a loss to Canadian journalism. He is one of the ablest

SHE PLAYS BILLIARDS.

And Explains Why So Few Women Become Expert at the Game.

Lew Shaw and Mrs. Nellie Shaw are giving exhibitions at the Grand Hotel, Indianapolis, of the skill that can be obtained at billiards. Mrs. Shaw is the best exhibition player of her sex in this country, and holds the world's championship. She talked of her accomplishments to a reporter yesterday, but was not inclined to give herself too much credit for the position she has attained in the billiard world. She first commenced upon the great amount of work required before proficiency can be obtained.

"Some young women," she said, "practice for hours at a piano, but two hours' practice at a billiard table would wear them out. This is why there are so few lady experts; it is the lack of energy to practice. The number of women billiardists, however, would surprise you, and there are more experts than the public are aware of. In some sections of the country billiard playing is a very popular drawing-room entertainment, and many of the women are fairly become quite expert with the cue. To become expert in knocking the ivory about it is necessary to practice at least five hours a day. One must not forego practice, either, after he has become skillful. It requires strength to play billiards, and the majority of ladies whom I have seen play fail because they do not exert their strength and use their wrists properly. If I were teaching a young society lady billiards I would first grasp her arm at the elbow and shake her hand and wrist for half an hour each day for a week. This would take the stiffness out of these parts, and increase the strength of the muscles. These are the most important points in playing billiards. The greatest thing with which a woman has to contend, even when she has mastered the game, is playing in public. The moment she plays before anybody she gives way to a form of stage fright. This can be overcome, however, but it requires a long time. The first time I performed in a public hall I felt as though the roof was falling on my head. It is the same thing with all women. The exhibitions given by Mr. and Mrs. Shaw are most interesting, and have been witnessed by thousands throughout the country.

LIFE POWDER.

The Great German Remedy for the Cure of Liver, Stomach and Bowel Diseases, such as Biliousness, Jaundice, Fever and Ague, Chills, Dropsy, and Malaria in the Suffering from Chronic Constipation and Headache, and all forms of Nervous Prostration and Weakness, and is a

Grocer and Tea Merchant, 704 DUNDAS ST. TELEPHONE 666

MEDICAL. A CARD.

To all who are suffering from the errors and indications of youth, nervous weakness, early decay, loss of manhood, etc., I will send a recipe that will cure you, FREE OF CHARGE. This great remedy was discovered by a missionary in South America, and is a self-addressed envelope to the Rev. JOSEPH T. ISMAN, Station 1, New York City.

A THIEF.

The most insidious of all is the one who robs us of health and vitality. If one's blood does not circulate properly it ferments, becomes sour, in fact becomes like so much foreign matter in our systems, producing inflammation, the cause of rheumatism, eczema, blood poisoning, ulcers, sores, erysipelas, tuberculosis, and all kindred diseases. Call them what you may, they are all produced from the same cause.

Brunton's Curative Fluid internally, and Curative Absorbent externally, neutralizes the acid produced by the fermentation, purifies the blood, and nature performs a cure. Try it. For sale at druggists.

Prepared only by W. Y. BRUNTON, London, Ont., and Chicago, Ill.
