KENNEL FIELD TRIALS.

The North American feld Trials Club will hold their first annual meet at Ruscomb on Nov. 2. Ten entries have been received for the Derby. ATHLETICS Dutton, Oct. 24. - The high school games on Friday last were a success, although the weather was disagreealole. Only a small crowd was present. All the events were keenly con-

tested. It is estimated that there are 240,000 women domestic servants in London, and that 10,000 of these are always out of situations or changing their places.

Larger Area Than Heretofore.

London, Oct. 24.—The farmers have made good headway in field work. The sowing season for wheat is now at its height, the land after the recent rains

being fairly workable.

Not much change in the area sown Not much change in the area sown to wheat is anticipated, for, while the unusually low average of 20 shillings per quarter in the country and 28s 7d in London will discourage the farmers, the general political uneasiness and the feeling that the demand for wheat is slowly but surely overtaking the supply, will operate as a counterbalancing reason. Indeed, if November adds four serviceable weeks to the regular October sowing season, the total area may show rather an increase than the The attendance of buyers at the

market has been confined to moderate iss, and the demand in some dias has exhibited a marked pause. English wheat has received quiet support, and prices ruled decidedly in the buyers' favor where sales passed. Foreign sorts opened the week with tone of firmness. Subsequently buyers became very reticent, with rather large supplies in view, and

rates depreciated from 3 pence in some

cases to 6 pence per quarter, business being carried on slowly thereat. The Mark Lane express, in its foreign reports, says: wheat market has shown no great activity. French farmers have been profiting from the recent fine weather, and have proceeded vigorously with the autumn sowing. The threshing has been somewhat interrupted in consequence. The country markets have not been very largely attended. Field work will probably be continued for another month at least, but the farmers at the same time are not anticipating any improvement in prices, as the supplies appear to be assured for some time to come. Wheat has shown rather a firmer tone at Odessa. A French authority estimates the world's wheat crop this year at 304,885,000 quarters, as compared with 340,100,000 quarters in 1898, showing a falling off of 35.215.000 quarters. Australasia is the only part of the world in which more wheat has been grown this year, the production of Australian wheat having been 6,533,000 quarters, as compared with 4,200,000 quarters in 1898. The production of Europe this year is set down at 173,-000,000 quarters, as compared with 196,-500,000 quarters in 1898."

had been sold by the youth to a man named E. Swazie, for \$13. A large deputation from Knox Church, congregation. Mitchell, recently waited upon Rev. Mr. Bradley to consult with him concerning his call to Berlin. In the course of the interview

Mr. Bradley told his people that he felt it his duty to accept the call. Friday evening a laborer named Rommel was fatally injured at Berlin. He was driving home in a junk wagon, and while crossing the Galt branch of the G. T. R. he was struck by the Galt train. The horse was killed outright, the wagon was badly damaged, and the man was thrown about 20 feet beside the road. He was picked up and brought to the station, where he died about 11:30 p.m. He leaves a wife and family in very poor circumstances. An inquest will be held.

Sarnia Observer: While Rev. F. O. Nichol was riding his bicycle out the Plank road Saturday morning en route to Burns Church, he ran into a water rut on the road, and was thrown oft the wheel sustaining a bad fracture of the right shoulder blade and seriously bruising the shoulder and elbow. The accident occurred a short distance past the toll-gate, and the unfortunate man lay on the roadside some time before being discovered by a passer-by. A coupe was procured from town and the sufferer was removed to the residence of J. E. Busn.

A happy event took place at the Church of the Holy Angels, St. Thomas, on the 18th inst. when Mary, eldest daughter of James Brady. of Glanworth, was united in marriage to Mr. Joseph Brady. of Metcalfe. The bride fooked handsome in a suit of navy blue cloth, with cream guipure yoke and black hat and plumes. The bridesmaid. her sister, Miss Aggie, wore fawn, with silk cord trimmings, and hat to match. Mr. Bernard Brady supported the groom. After the ceremony a large number of guests assembled at the residence of the bride's parents, where breakfast was served by a London caterer. The happy couple left on the 3 o'clock train for eastern points. Among the guests were many friends from around her home, also from Alvinston, Forest and Lon-

St. Thomas Journal: The negotiation with Messrs. Irwin & Calcott. of London, for the removal of their brass foundry to the city have reached another stage, if it has not really reached the end. Mr. Calcott represented the firm, but apparently had not power to act for it at the meeting of No. 1 committee last night. The committee agreed to fix the old building and give it rent free, as well as to give free water and exemption from taxes to the firm. They, however. wanted a reduction in the price of electric power. This the committee agreed to try and get them, but even if they succeeded, Mr. Calcott would not promise that the firm would remove here. He is to give a final answer on Tuesday. It looks as if they were simply working St. Thomas to get better terms elsewhere

Dear Mr. Welch:—
Referring to yours of the 4th inst., regarding your proporties, Rob Roy and Highland Chief, my candid opinion is that these claims are ALL RIGHT, and, on development, will fully meet your most sanguine expectations. Being located on the main ledge with good surface indications and out-croppings throughout the entire length of properties, there is every reason to believe that under proper development they will eventually become good paying properties, The Center Star (about 300 yards S. of Highland Chief), has lately been bought up by some Wieconsin lawyers who intend doing a lot of work on it at once.
