GREATER CONFUSION RESULTS IN GERMANY'S EFFORT TO EXPLAIN

London, April 28.—Germany's attempt to clarify certain of her reparation pro-posals, in compliance with the request of the British foreign office yesterday, was said in official circles today to have resulted in even greater confusion. eat Britain has asked for further explanations, and the interchanges are continuing, although they are said to entirely informal.

The present position of Great Britain is understood to be that the proposals are still "sketchy" and very unsatisfactory. As the outgrowth of the British query of yesterday, Germany, it is said, now has suggested that the annuities extend over a period of from 50 to 75 years, or even longer, instead of the years originally mentioned. This is Reclared in official circles to be a sample of the "evasive methods" of Ger-many, which cannot be allowed to con-

WORLD'S TRADE EGGS NOW SELLING

Makes Mighty Effort To Regain All Her Old Commercial Supremacy.

LONDON, April 26.-I do not hear that the United States is making any very mighty efforts to get the world's after-the-war trade. Is Uncle Sam asleep at the switch? If he is, will omebody please wake him?

Britain's present efforts to regain her old commercial supremacy are the most energetic and magnificent the world ever has known. The "slow" Englishman is proving more alert than the 'wide-awake" American.

Starts Trade "Offensive."

The British Government has started

its biggest trade offensive in history for the recapture of lost commerce.

The most picturesque phase of it is the great industrial fair, which now is simultaneously under way in London, Birmingham and Giasgow. Claimed as the greatest trade fair ever organized, it has attracted buyers from all over the world, and has been visited by special commercial missions from seventeen countries and no less than eight ministers of commerce. Americans over here are wondering why the United States does nothing of the sort.

Never in the history of Great Britain has trade received so much favor as now tat the hands of the throne and the government. It used to be a tradition that trade was plebeian, and the court held coldly aloof, while the foreign office would not deign to deal with any afairs less than la haute politique. Now all that is changed. From King to cabinet, from ambassador to the junior messenger of the foreign office, trade today is all-important. The war has taught Britain this—and perhaps the pre-war lesson of Germany's example added point to the awakening.

So the British industries fair is symptomatic of a new and awakened determination on the nort of the same deferment. It used to be a tradition that trade received so much favor as now Unchanged.

AIDED KAISER KEEP

Allies Have No Hope of Removing Wilhelm While Organization Exists.

RELIC OF OLD ORDER

Ex-Ruler Formed New Section of Body, Composed of European Aristocrats.

PARIS, April 27 .- The Entente Allies ave no hope of getting the ex-kaiser out of Holland until the order of Johannsters disbands, for it is through the efforts of members of this order that Wilhelm obtained asylum on the estate of Count von Bentinck, according to discoveries by a French correspondent at Doorn during the exkaiserin's funeral. The Johannsters Holland branch is said to be a sort of combination civil and military freemasonry, to which belong the mos aristocratic families of Germany, Hol land Relgium England, and even some French. It is the modern outgrowth of the Order of St. John, the military of power in the twelfth century.

Thirty-five years ago Wilhelm reorganized the German section of the order under the name of the Value

order under the name of the Knights of St. John, adopting the costume and the emblems of the Dutch order, and seeking out the descendants of the first Johannsters. He heaped German honors upon them, with the result that when the war broke out he had gathered thousands of the scions of the leading Dutch families to the heart of the German court. Meanwhile he had made himself grand master of the German knights, with a voice of authority in the Dutch councils of the Johannsters.
The Johannsters are scattered throughout Europe, but they all have sworn by their ancient traditions to lend sympathy and material aid to needy members of their order, and the especially to those who are named in the Johannster annals. This explains the ease with which the ex-kaiser rossed the Dutch frontier and imme diately sought Count von Bentinck' refuge, it being common talk in Doorn that Count von Bentinck is descended from a Johannster chief, who in the sixteenth century helped deliver the Dutch from the Spanish mercenaries. "Being a Johannster," says the Liberte, "he could not refuse aid and hospitality to a German Johannster without calling down upon himself the hatred of all members of his order."
