EXAMINED AT SCHOOL FAIR CLINIC

Child Welfare Exhibit Aroused Keen Interest At Malden.

[Special to The Advertiser.] AMHERSTBURG, Sept. 28.—Although handicapped with threatening weather the school fair held at S. S. 2, Malden, about three miles from Amherstburg, drew an attendance of three hundred accords. Sixteen across a ware entered as people. Sixteen ponies were entered as saddle ponies, and were the admiration

of everyone.

The child welfare exhibit and clinic conducted under the auspices of the provincial board of health, in charge provincial board of health, in charge of Dr. W. J. Bell and Nurses (Misses) Burns and Osborne, was very popular, and a large number of children were examined and advice regarding their care offered.

The matter came to a head when the council asked authorization for the issuance of \$100,000 in debenture to allow some further loans to be made. Toronto immediately took objection and held these up, claiming that the prior loans had not been secured. The issuance of \$300,000 of debentures will put the city in the good graces of the provincia again.

Will Take Year or Two to Reach Pre-War Attendance

An increase of two or three students in Huron College over last year's attendance, is reported by Rev. Dr. C. C. Wallers principal of the Anglican theological school, affiliated with the Western University. In view of the present cramped quarters of the college, as a result of it relinquishing much of between the local housing commission its available classroom space to the arts

Dr. Waller states.

The Modern Genie

Aladdin summoned an all-powerful genie by simply rubbing his wonderful lamp. Similarly, the modern housewife, by

touching an electric button, commands a

magic force that makes life fuller, easier and happier. What an immense total of energy and time is saved to-day by the vacuum cleaner, the electric ironer, fan, heater or washing machine, And the future will see the home still

more fully electrified. There are over 1,400,000 occupied dwellings in Canada. Of these 680,000 possess electric service.

Each home is a potential market for the sale of at least \$200 worth of electrical appliancesa total of over \$136,000,000. Consider the task for the manufacturer of

all these appliances—filling established needs

and designing inventions to supply new wants. The English Electric Company of Canada, Limited, with the decade of manufacturing experience of the Canadian Crocker-Wheeler Company, Limited, at its disposal, and an association with the English Electric Company,

Limited, of Great Britain, will render important services in the electrification of the home. An opportunity to profit by sharing in the development of this industry is now being offered to investors.
