If you are among the many people in this town who SPEND THE GREATEST AMOUNT OF TIME IN READING AND ANSWERING WANT ADS., you are among the many people who have the BEST PROSPECTS OF "getting rich."

HANDSOME DINING CARS.

The Grand Trunk Railway System have added to their equipment two new dining cars for service on their lines in Ontario, to be operated on their fast trains between Chicago and Niagara Falls. These cars were built at the Grand Trunk shops in Montreal, and have been greatly admired.

All modern improvements and appointments known to the designers' art are embodied in these new creations. The exterior of the cars are in the standard Grand Trunk color (bottle green), while the interiors are finished in polished mahogany. The cars are mounted on six-wheel trucks with vestibules with tandem spring couplers. They are also equipped with high speed slack adjuster, quick action air brakes. The cars are equipped with both Planch gas and electric light. The windows of the cars are large, giving the passengers splendid opportunity of viewing the scenery.

The worth of a thing is best known by the want of it; and thus many a want ad. owes its origin to some "hard knock" we may have received in daily life.

He was filling his first prescription and when he handed it to the lady he told her it was a dollar and ten cents.

She paid the dollar and ten, and after she had gone he informed the proprietor that the dollar was counterfeit. The proprietor looked over his glasses at the young man and said:

"Well, how about the ten cents—is that good money?"

The young man answered in the affirmative.

"Oh, well," the proprietor replied, "that's not so bad—we still make a nickel."—Success Magazine.

LIVED LIKE CRUSOES.

Bird Brings Message to British Boat and Saves Castaways.

Victoria, B.C., July 2.—While sending a farewell message fastened in a quill to an albatross's neck, one of a series of daily messages recording briefly the story of the wreck on Antipodes Island of the French bark President Felix Faure, twenty-two starving French sailors were rescued by the British warship Pegasus and brought to Sydney shortly before the sailing of the Marama, which arrived yesterday.

The castaways, who lived a Crusoe life, fashioning their utensils in the same resourceful way as the maroon of Juan Fernandez, scrambled ashore on Antipodes Island, south of New Zealand, and near where the survivors of the British bark Dundolar were rescued before, after their vessel was wrecked during March last, and at last had given up the hope of rescue when the British warship was sighted.

The men were ravenous when rescued, having been on short rations for some time. They had needles made of blades of pocket knives, dinner knives made from an iron hoop torn from a cask which had been washed from the wreck, fish-hooks from bent nails, spoons from shells, hair combs from bush thorns, etc.

YANKEE TUG SKIPS.

Canadian Officials Let Alleged Poaching Craft Slip Through Fingers. Alpena, Mich., July 2.—The fishing tug R. T. Roy of this city, which was seized last Thursday by Canadian Fisheries Officer E. S. Duncan of Filton, Ont., while alleged to be fishing in Canadian waters, arrived here yesterday after a thrilling escape from the Canadian officials.

The tug, after the seizure, was first taken to South Bay, Manitoulin Island, and the crew there placed under arrest. Monday, Officer Duncan started for Sault Ste. Marie, Ont., with the tug, and the Roy went aground on Fox Island reef. The Canadians could not release her with the tug, and left for Filton to secure a larger tug.

Capt. George Whitten and the American crew of the Roy immediately went to work shifting the ballast, succeeded in working the tug off the reef and started for American waters, arriving here yesterday, after a stop at Detour for coal and supplies.

Capt. Whitten denies that he was fishing in Canadian waters. Officer Duncan left all of his papers and effects on the Roy and they are now in charge of the customs officers here.
