Palm xxxii was then read by Rev. J. E. Hunter, who took er ch line for a running text, and preached a very powerful sermon. I know what filling up a gravel pit is. Gravel is good on a road where there is not much traffic. I think rock is worth three times as much as the gravel, though it only costs twice as much. Rock will wear much longer. I think the sale was a very good one.

The City Assessor was named in the by-law as well as the salesman, but after that we thought that it would be better, seeing that a good suctioneer-would more than pay for himself, to employ one. I'm sure we had no need to regret the result. The City Assessor is as much an executive officer as the City Treasure.
