MORE WASTE OF TIME.

The attempt of the Hon, Mr. Beaven procure in the Bill to establish a Bureau of Labor and Statistics and of Boards of Con ciliation and Arbitration, the insertion of a provision limiting the hours of labor, was really an insult to the intelligence of the members of the Legislative Assembly. Such a clause would be as foreign to the nature of the bill as a beef steak would be in a plum

It may be said in extenuation of the absurdity of the course taken by the leader of the Opposition that he was not in earnest; that he made his motion merely as a party manœuvre and in order to catch the votes of workingmen. But even from that very low point of view, Mr. Beaven's motion was a blunder. There are very few workingmen so blind or so stupid as not to perceive the object of such a move. The great majority of them would see at a glance that the Conciliation bill is no place for an eighthour clause, and they would at once con-

It is a pit than the rules of the Honse permit such abourd motions to be made, and it is a still greater pity that members can be induced by party spirit and a weak and dill-directed good nature to give their support to men who, for factions or vote-catching purposes, make motions which are papears to make in the good sense of the members composing the Legislative Assembly to be lieve that there was a single man in the House who regarded Mr. Beaven's motion as either timely or sensible, and who considered that it ought to pass.

THE TARIFF CHANGES.

There are a good many surmises as to what changes the Government litted to the tariff, how many and whis a way the passes of the member composing the Legislative Assembly to be districted to the tariff, how many and whis and the public. But a combine has been formed if the town who for the good sense of the member composing the Legislative Assembly to be districted by the composing the Legislative Assembly to be districted by the composing the Legislative Assembly to be districted by the composing the Legislative Assembly to be districted by the composing the Legislative Assembly to be districted by the composing the Legislative Assembly to be districted by the composing the Legislative Assembly to be live that there are a good many surmises as to what changes the composing the Legislative Assembly for wasting the time of the House. The public will not be kept in suspens long, as the budget speech is to be made next week, when all tariff secrets will be revealed.

THE GERMAN ARMY BILL.

The opposition to the German Govern nent's Army Bill has greatly moderated both in and out of parliament. The closing debates, it is said, showed an increasing dis position to accept the Government's proposals, the only material opposition being offered by a faction of the Centre Party, led by Dr. Leiber. It is evident that the Emperor's influence is very great in Germany. The fact that he has set his heart on the passage of the Army Bill has great weight ith many of the people's representatives, and with a very considerable proportion of he people themselves. Besides, the more the Government's scheme is examined the more reasonable it appears. It is admitted on all hands that, in order to meet continclude that the "hon gentleman" was trying to draw the wool over their eyes.

It is no wonder that Mr. Beaven had
only five members to suppost him. The
wonder is that even one of the members
was good-natured enough to keep him in
countenance. It must be remembered that gencies that are by no means improbable,

numerous and so great as to effect a very numerous, that they were of a considerable modification in the trade policy of the Dominion. This opinion will, no doubt, be strengthened when a passage in the speech of the Finance Minister on Mr. Mulock's resolution asking for the abolition of the duty on binding twine is more widely circulated. The speech was made on the lat inst, and we take the following passage from the report of it that appears in the vormes of the debate Mr. Foster said:

He was not going to enter upon a discussion of the question on its merits at this time. Within a few weeks the Government will then thouse their teriff and commercial policy which they were now considering. They would not lose sight of this or any other interests. Whatever is done should be done on the broadest information and after most careful consideration, and when the Government brings its policy down.

WOMAN'S WORLD IN PARAGRAPHS.

Twenty-one Years of Woman Suffrage in Wyoming.
An important and interesting contribution to the literature of the question is contained in a letter to the New York Sun from Wyoming. It is a clear and comprehensive summing up of the results of twenty-one years of woman suffrage in that state. We learn from it that nearly every woman in the state votes. The ladies have their partisan clubs-Republican, Democratic and terest in politics as the men do. They formerly voted the Republican ticket mostly, but last year their sympathies were aroused on the side the "rustlers" as against the cattle barons in the cow war, and they voted almost to a woman with the Democrats, because the Democratic platform leaned toward the rustlers. I am glad to perceive they have learned already that you cannot law virtue and morality into the human race. In this they are in advance of some of their sisters in the east. The women of Wyoming concern all we get. We don't propose to use our themselves particularly with the character of the candidate who is to enforce the passing of new laws. WE APOLOGIZE.—Last week we had a

ber, who keeps the You Bet saloon on Prescott avenue, killed a woman in Montana three years ago and was no ornament to the town. We further remarked that if our local vigilance committee didn't choke him off pretty soon it had better go out of business. Mr. Bushaber has called at this office and convinced us that we were entirely mistaken. (See his ad. on second page.) Instead of kill-ing a woman in Montana three years ago he killed a man in Colorado less than two years since. Even that wasn't a murder as he proved by several witnesses that the man had threatened his life. In the hurry and rush of getting out a great you know. As a nation we spend \$800, family paper like THE KICKER, and being 000,000 a year buyin' vice and misery and editor, mayor, state senator, postmaster (in prospect) and so forth, it has often occurred that we have branded individuals as horse thieves, liars, robbers and gurgled at again.
