If you have already contracted any disease of the respiratory tract such as laryagitis, bronchitis, estarth, asthma, consumption or catarrhal deafness which is produced by catarrh, you should at once consult the surgeons of the International Throat and Lung Institute who make a speciality of these diseases and who use the spirometer invented by Dr. M. Souvielle of Paris, ex-aide surgeon of the French army, the only instrument by which andicated air can be conveyed to the lungs through the massi passages and without the aid of heat. Hundreds suffering from diseases of the lungs and throat are being cured monthly by these surgeons, who without the aid of this new and wonderful instrument the spirometer would certainly die.

a large number of institutes who desire to remain in
the institute while under treatment. During the
past eighteen years we have treated over 40,000 cases
of head, throat and chest troubles.

Persons from the country visiting us had better
secure a hack or 'bus on arriving in the city and
come directly to the institute where every possible
attention will be paid to their wants. CONSULTATION FREE. Those who desire treatment should
lose no time in waiting to write if they can come to
the institute. This week or this month may be of
the greatest possible value to you. It may be the
turning point either for fatality or recovery. Those
who cannot remain in the city for treatment may
after an examination return home and pursue the
the treatment with succuess, but if impossible to
visit the office personally may write for "List of Questions" and "Medical Treatise," both of which will be
