The Musical Opinion and Music Trade Review, published in London, Eng.

April I, 1837, under the heading CANADIAN MUSICAL EXHIBITS AT

THE COLINDIES EXHIBITION, has the following:

Referring to Piano Fortes of Messrs. Heintzman & Co., Dr. Stainer says
as follows: "I much regret that, owing to the late period at which I was called
upon to make a report, all the more important instruments exhibited by this firm

HAD BEEN SOLD AND REMOVED. But those remaining fully justified
their high reputation. An Upright Grand, which I examined was in every
respect a fine instrument; the touch was sympathetic and had a good repetition;
the tone was full and rich. I also tried a specimen style No. 9, which was
equally deserving of unqualified praise."

The RETURN PREMIUM POLICY is a clear and definite contract, guaranteeing a return of all premiums paid, in addition to the full face of the policy in the event of death during the Investment Period. Should the insured live till the termination of the period selected by himself, the return will undoubtedly be a very satisfactory investment on the premiums paid. This exceedingly liberal and attractive form of insurance gives in one policy more advantages than any other offered to the public.

any other offered to the public.

The COMMERCIAL PLAN affords protection at actual cost, being about one-half that of ordinary plans during the years that Life Insurance is specially needed. Men of considerable incomes who are paying large premiums on comparatively small invostment policies, and require the largest amount of additional insurance for the least possible premium; business partners, whose valuable interests in the life of the individual members of the firm are not protected by adequate insurance; men of moderate means, whose families are denied the protection of life insurance by the usual high premiums; all find the Commercial Plan exactly adapted to their needs.
