

The World's telegraphic columns contain the cream of the latest special and press dispatches, so edited and arranged as to give at a glance a complete summary of what is going on in the world at large.

The World's local columns contain the news of all the news and nothing but the news. The editor and complete reporter of daily happenings in this marvellously growing city has made it the Toronto people's paper.

The World's sporting columns contain all that is latest and best in the news of chess and track, croquet and canoe, field and foot. The World is the sportsman's favorite paper.

**ALL THE NEWS FOR ONE CENT**

**Reclamation of Abolition's Bay.**  
On Monday the electors will decide by their ballot whether Abolition's Bay is to be reclaimed by a syndicate or by the city—whether Toronto is to enter upon another epoch of property surpassing her already phenomenal growth and progress or whether she is going to subside into a sleepy provincial town, allowing Hamilton or Kingston to seize the opportunity that she neglects. With earnest words we would urge each elector who honestly desires the prosperity of this city to vote for this work being done by private syndicate. Give the work to a syndicate and it will make Toronto the meanest and ugliest of cities in the world. Give the work to a syndicate and it will make Toronto the meanest and ugliest of cities in the world. Give the work to a syndicate and it will make Toronto the meanest and ugliest of cities in the world.

**Count Tolstoi is said to wear coarse clothes.**  
—Intended, no doubt, to match his style of thought.

The United States will probably have a lively time with the soft-eyed Celestial hereafter. Certain judges, learned in the law, hold that the American authorities have no power to return to China those Chinamen who may enter the United States from Canada or Mexico. They may be returned to the point whence they entered, and will renew the attempt as occasion offers.

**Announcements in the Ontario Gazette.**  
Still commence with, "Victoria, by the grace of God, of the United Kingdom of Great Britain and Ireland, Queen, Defender of the Faith, etc., etc." and still they conclude with "in the fifty-fourth year of Our Reign." By command, J. M. Gibson, secretary.

**Bank clerks travel the railways in New Zealand.**  
Doing a regular bank business and carrying large sums of money. That scheme would not work in Illinois. The bank would be robbed every morning and the paying teller immediately before the train could get off in motion.

**Imperial indifference.**  
The moment the Mother Country fails to uphold the rights of a colony, that moment colonial confidence will be shattered and the people will be loosed from the world over.—The Week, Jan. 2.

**Already colonial confidence has begun to falter and colonial bonds to loosen.**  
Colonies have seen that and again they have seen that the British Empire is not a commercial empire, but a political one. It is a mere thing of commerce, left both parties to the contract so seldom it. Let the results, reduced to pounds, shillings and pence, determine the value of the contract, and each have an equal privilege of canceling an arrangement that may at any time prove financially bad.

**Too long have the Imperial authorities**  
thoroughly dilly-dallied with American aggressiveness in the Behring Sea, and the Dominion may well show concern in the Imperial attitude towards Newfoundland. Calais and indifferent it has been. The treaty giving France certain privileges on the Newfoundland coast—in itself a weak and unnecessary surrender—has been violated with impunity. The French have established a fishing station on the Newfoundland coast, and have built a fort on the shore. Appeal as they may for the protection of Imperial power nothing is achieved, and the colonies are left to make their own way.

**The British Government has clearly**  
intimated that there is no immediate prospect of an adjustment, and that neither denies to Newfoundland the right of a voice in any negotiations that may occur in the future. The English and French governments have agreed to let the present order of things continue. That the French fishermen triumph and the British colonies must submit—unless

**THE FIGHT FOR \$25,000.**  
The Coming Battle Between Jack Dempsey and Bob Fitzsimmons.

The approaching fight between Jack Dempsey and Bob Fitzsimmons, which takes place Wednesday, Jan. 14, between Jack Dempsey, champion middle-weight pugilist of America, and Bob Fitzsimmons, the New Zealand wonder, is the most exciting event among the sporting fraternity all over the world. Not since the great Sullivan-Kilrain battle has the subject of pugilism received the amount of attention which is now being brought to bear upon it.

A remarkable feature about the battle is the large amount of money that is at stake for the winter—a purse of \$12,000 and an outside stake of \$10,000, of which the winner will receive \$11,000 out of the purse and all of the stake money, which will make his winnings \$12,000, after deducting his \$5000 from the stake money.

**A FALSE ARGUMENT.**  
Street Cars on Sunday Do Not Mean 7 Days' Work for 6 Days' Pay.

Editor World: When the new council meets for business the settlement of the proprietors and government of the street cars will be among the foremost questions of the day. It is therefore most important that the voters shall send representatives to the City Council who will be faithful to the interests of the people.

**THE LYNCH WILL BE TRIED.**  
An Experiment to be Made at the General Hospital on Monday.

The standing of the Queen City as an educational centre has just been vividly brought to mind by the case of Dr. Bingham, Trinity Medical School faculty, in securing in competition with numerous American physicians a sample of Dr. Koch's lymph from New York.

**SEVEN CHILDREN PERISH.**  
Burned to Death in Their Beds While Parents Were at Church.

RALEIGH, N. C., Jan. 2.—News has just reached here that seven colored children were burned to death near Bayboro, Pamlico County, on Sunday night. Scott Thompson, colored, in company with his wife and eldest child, had gone to church, leaving the seven children, five of his own and two grand-children, at home. Their ages ranged from infancy to about fifteen years.
