OUR NEW GOVERNOR-GENERAL

The Manchester Guardian commenting on the coming of Lord Byng to Canada as Governor-General says: "Quality is needed nowadays in a Dominion Governor-General. For they are becoming properly particular overseas. Canada was content with the Duke of Connaught, for so excellent a member of the Royal House is a gift that even an upstart dominion can hardly cavil at. But purely social and noble appointments to this post are at a discount. Canada in particular talks with growing eagerness about appointing her own Governor-General. It is well, therefore, that in this case a man who has done something and earned something, rather than a man who has just inherited something, should get the post. The solution of the Governor-Generalship to which the dominions are tending will no doubt come, and before long; but in the meantime it raises awkward constitutional issues that have not yet been solved. General Lord Byng is a good choice to tide over the period of change."

DESERVES CONSIDERATION

We need not apologize for referring again to the exchange question. We do so because it over-shadows all other questions and problems affecting us. If the people could only be made to realize the extent to which we are being bled through the operations of exchange between this country and the United States, the heather would be on fire, and every red blooded man and woman would be willing to work tooth and nail with all their might and main to find the solution. Think of it for a moment! The discount of our dollar in the United States, now something like fourteen or fifteen cents, means that we have to pay more to that extent for the goods we buy from the United States and for many of the goods produced in Canada, to the tune, in the aggregate, of at least two hundred million dollars a year. To get down to a concrete case which almost everybody can understand—every householder in Canada who burns hard coal has to pay between \$1.50 and \$2.00 more per ton by reason of this exchange. Just as you have to pay that much more for your coal, so you are paying, for the same reason, correspondingly more on nearly every commodity you purchase. It is an appalling condition of affairs. What this country needs is a tremendous trumpet call to arouse the people to a realization of what this awful exchange handicap means. The message should be sent forth in thunderous tones from every editor's chair, from every pulpit, platform, university, collegiate, school, club, from every assembly of men and women to produce more and more at home and thereby render it unnecessary to buy so much from the United States. That is the only solution permitted us in view of the United States prohibitive legislation affecting our food products and in arriving at it, we will not only solve the unemployment question, because increased production at home will mean increased employment to Canadian workmen.

TOBACCO INJURIOUS ONLY WHEN ABUSED

It may interest those now engaged in the anti-tobacco crusade to read the report made by Drs. W. J. Gies, M. Cahn and O. V. Limerick to the New York Medical Journal on their exhaustive study of the effects of tobacco on man. They assert that its habitual use is not harmful to adults but that, on the contrary, it is distinctly beneficial to certain types. As for the habitually excessive use of tobacco, they say it may prove harmful to certain types of individuals, but that is true of many things, including all foods, when habitually taken to excess.

In certain diseases of the nerves and blood vessels tobacco may do harm, and its habitual use by juveniles is always harmful. But they assert that tobacco is not a cause of disease of either mind or body.

THE FARMER HAS NOT STRUCK

(Burlington Hawkeye)
Do you remember the talk of a "farmers strike" last fall? The farmers were going to stop producing food because they were not paid enough for it to cover the cost and give them a decent profit. They said so themselves and the public feared a serious shortage this year.

Well, consider the latest reports of the wheat crop. Wheat is the country's biggest and most important food crop. The agricultural department forecasts a combined spring and winter production of 830,000,000 bushels, which is almost exactly the last five years output. Nature has not been unusually liberal, either. The farmers have done it themselves, planting over 3,000,000 acres more than they did a year ago. There may be industrial strikes and consumers' strikes, but there are no farmers' strikes. The farmers may grumble, but he stays on the job making full use of his capital and labor.

HICKS—KERR

One of the prettiest of the July weddings was solemnized at the home of Mr. and Mrs. Wm. Kerr, London, on Monday, July 18, when their eldest daughter, Beatrice Irene became the bride of Ray C. Hicks of Sarnia. The ceremony was performed by Rev. W. R. McIntosh.

The bride was given in marriage by her father, and looked charming in a dress of white georgette, with bridal veil, embroidered in pearls, and carrying a shower bouquet of Ophelia roses.

Miss Lena Kerr, sister of the bride acted as bridesmaid, and the groom was attended by Mr. Orville Post. The bridesmaid looked winsome in a pink organdie frock, and carried a bouquet of Sweetheart roses. Miss Helen Humeston played the wedding march.

The bride and groom were the recipients of many handsome gifts. The groom's gift to the bride was a beautiful wrist watch; to the bridesmaid and pianist gold brooches set with pearls, and to the groomsmen a gold tiepin.

Guests numbering over 50 were present at the wedding breakfast, after which Mr. and Mrs. Hicks left by motor for Hamilton and Toronto, the bride travelling in a tailored suit of navy tricot and becoming French hat.

On their return Mr. and Mrs. Hicks will reside in Sarnia.

A great many guests were present from out of town.

Calvin F. Craig, son of the late S. J. Craig, pioneer manufacturer and town clerk of Strathroy for many years, died at Battle Creek a few days ago.

CLEARING SALE

FARM STOCK

DAVID & CAMERON CORISTINE
East half Lot 11, Con. 11, Brooke
FRIDAY, JULY 29, 1921
