DANDLION SALAD.—One pint of the plants carefully washed and placed in a bowl with an equal quantity of water creases, three green onions or leeks, sliced, a teaspoonful of salt and plenty of oil or cream dressing.

STEWED liver is appetizing when one is tired of fried meat and roast. Stew it in a saucepan with a little water, in which you have put a lump of butter, an onion cut in slices, and a liberal allowance of pepper and salt.

A FANCY for children's party cake is to make plain or sponge cake, and bake in shallow tins; cut in small oblong pieces a little larger than dominoes, and then, with a brush dipped in melted chocolate, make the marks and dots.

A PRETTY way to brighten a willow chair is to tie two bows to the back of the chair, a blue one at the top and a pink or cream-colored one below it, at about the centre of the back, or have both of them of scarlet ribbon; tie them so that loops and ends are about the same length.

BEST SALAD.—A delicious salad is made by boiling new beets without scraping them. When they are tender, drop them in cold water, remove the skin, slice them, and put in a salad dish in layers, with slices of hard-boiled egg; season with pepper and salt, a little butter, and vinegar.

PEANUT candy is made of two cups of molasses, one cup of brown sugar, one tablespoonful of butter, one of vinegar, while it is boiling remove the shells and the brown skins from the peanuts, lay them in buttered pans and when the candy is done pour it over them. While it is still warm cut it in blocks.

STRAWBERRY CRUSTS.—A box of strawberries and a dozen buns. Split and butter some small round buns; let them get hot in the oven. Bruise the strawberries slightly, so that the juice will run; strew powdered sugar on them, pour over the buns while hot and let them stand in a glass or china dish until cold, before serving.

STRAWBERRY SPONGE CAKE.—Make a custard of one quart of milk, a cup of sugar and the yolks of four eggs. Flavour when cold. Slice one stale sponge cake and cover the bottom of a glass dish with it, moisten the cake with the custard, over this spread a layer of ripe strawberries, then another layer of sponge cake, and again a layer of strawberries; sprinkle the fruit with powdered sugar, beat the whites of the eggs stiff, whip into the eggs some strawberry juice well sweetened, spread the meringue smoothly on top and ornament with bright scarlet berries.

TOMATO SOUP.—A delicious tomato soup is made by frying some bits of beef and ham in a saucepan with a lump of butter and a small onion sliced. Take a quartian of tomatoes, or a dozen fresh ones (medium or small sized), add a coffee cup of stock and then put the meat in with it and boil; season with pepper and salt. This may be strained or not; of course it is in better taste to strain it; if the soup seems too thin after it is strained, put it back on the stove, add a tablespoonful of flour rubbed smooth in cold water, and let the soup simmer gently for half an hour.

She tried many remedies, but without any permanent effect, until she was induced to try Northrop's & Lyman's Emulsion of Cod Liver Oil and Hypophosphates of Lime and Soda, and I am happy to say it has exceeded our expectations. I have no hesitation in recommending it as a powerful remedy for all affections of the Lungs and Throat, and for all classes of Wasting Diseases, and building up of weak constitutions."

ADVICE TO CONSUMPTIVES. On the appearance of the first symptoms—as general debility, loss of appetite, pallor, chilliness, followed by night-sweats and cough—these measures for relief should be taken.
