Any
Rooms
That Need
Re-papering?

SPECIAL JANUARY RATES offer themselves by way of New Year greeting to faded walls and shabby woodwork. The Decorating Department, in the desire to keep their staff of workmen busy during the slack season that invariably ensues after Christmas, are making exceptionally low prices during the present month on all forms of interior papering and painting. In addition to this, many attractive lines of wall paper have been greatly reduced in price—making possible the decorating of a room at a mere fraction of the usual cost. At 33 cents a roll is a group of papers, many of which were formerly double that amount—charming little hints effects for bedrooms, silk stripe effects for daintily furnished drawing-rooms, and grass-cloth and fibre papers in rich browns, greens and tans for halls, living-rooms, etc.

Upon request by telephone or mail, a man will be sent to your house to take measurements and submit estimates.

Readers have at their disposal the services of the "Shopper," one well versed in matters of dress and artistic house furnishings. Letters will personally make selections of any item of merchandise desired. Letters will be answered by mail, if the correspondent so prefers. Mark corner of envelope "The Shopper," or "The Scribe."

Qui.—The book you mean is "Getting into Parliam. After," by Sir George Ross, at one time Premier of Ontario. The price of it is \$2.00. The other work mentioned is not procurable.

"Bogona."—Certainly, Bogona. I shall be delighted to have a word with you on the subject of fur bonnets. Would you prefer seal, moleskin or Persian lamb? In the former—imitation seal, of course—the untrimmed toques at \$1.95 and \$3.00, and toques trimmed with rings, at \$2.25 and \$4.75, or with pheasants, at \$6.00, \$8.95 and \$7.50. A smart little model showing a moleskin trim and velvet crown, ornamented with a grey and cerise ostrich plume, is \$17.75, while a Persian lamb toque with a high white ostrich mount, is \$28.25. You give no hint respecting the amount you wish to spend—hence the wide diversity in quotation of prices.

Molly O.—That washable white kid glove was chosen of the Christmas-tide, where gloves were concerned. The soap and water process of cleaning appeals very strongly to those who roll gloves at the rate of four or five pairs a week. The 12-button length is the longest in which it can be got—price, \$3.00. A pair of beautifully fine French kid.

J. P. C.—The plebeian rascals has been called. It now rubs shoulders with the aristocracy of patry circles. For young girls it is one of the most fashionable items in the gaiter, being coming from the practical viewpoint, it is priced at \$12.50, \$14.25, \$17.25, \$18.50 and \$22.50, the amounts varying according to the size of the stole and the quality of the fur. An Empire must can be got for \$7.25, while the pillow design, featured at \$12.00, \$14.25, \$16.50, \$18.50 and \$22.50.

Mrs. Mac.—Another person exchanging a Christmas gold piece for a bit of artistic wood. You would be amazed at the number of others who have done likewise. Your telephone table is available in turned oak—designed to fit into the corner of a room, with a stool that slides underneath when not used. The price complete is \$6.50.

INTERVENTION BY U.S. IS DEMANDED

London Spectator Says Opinion of World Exerts Strong Pressure.

"DOG IN THE MANGER"

Will Neither Stop Bloodshed Nor Allow Others to Do So.

LONDON, Jan. 2.—(Can. Press).—The Spectator in an article today on the Mexican situation declares that the pressure of public opinion in all the rest of the world soon will force the United States to intervene in Mexico. The article declares that President Wilson made a mistake in not assuming that President Huerta would be the strongest force with which to bring about peace in Mexico, and in supporting him accordingly; but it adds that it understands perfectly the reasons why Mr. Wilson did not adopt such a cynical course.

"Instead," the article says, "he did what, with all respect, we must say was the worst thing he could have done. He intervened and pretended not to be intervening; he deprecated bloodshed and anarchy, and yet he would neither stop it himself nor let anyone else do so. The only way left for the United States is for themselves to restore order in Mexico."

Must Play Lone Hand.

The Spectator declares that joint action by other powers with the United States in Mexico is impossible, and that the United States will have to act alone or sacrifice the Monroe doctrine, which it is not likely to do. The article says that it would prove rather an easy conquest for the United States, but that the United States would be followed by annexation to the United States or the northern states of Mexico, and the independence of the remainder of the country under a treaty by which the Washington government would control Mexico's foreign relations. The Spectator thinks even this condition would not last long, and predicts that within fifty years some nation of 200,000,000 English-speaking people will extend from the Canadian border to the Panama Canal, with the exception of British Honduras.

SPEND A MILLION AT BANFF PARK

Superintendent Clark Wants That Much Money From the Government.

ROADS AND BRIDGES

Hydro-Electric Plant Also is Proposed to Supply Power.

It is quite probable that the Dominion Government will this year spend a million dollars in improvements to Canada's national park at Banff, Alta. Supt. Clark, on his way to Ottawa to present the estimates for the coming year, was seen by The World at the Walker House last night. He thought the expenditure would just about reach the million dollar mark.

The chief item in this big appropriation will be for the construction of a number of bridges, and principal among these will be the construction in the Town of Banff of a large reinforced concrete bridge at a cost of about \$200,000. A good deal will also be spent in the paving of streets.

Federal Hydro-Plant.

Another big expenditure mounting over the \$100,000 mark will be the establishment of a government-owned hydro-electric plant the power for which will be obtained from a huge dam built across Minnewanka Lake. At the present time the town obtains its power from the C.P.R.'s plant at Banffhead, but with the establishment of the government-owned plant enough power will be generated for a population of 10,000.

Much work also is to be done during the year on the auto highway to the coast. This year should see that portion of the roadway which runs thru

Banff Park completed, and assurances have been given by the British Columbia Government that the connection thru British Columbia to the coast will be finished this year. From Banff to Calgary the auto road has already been finished and is now in use. Between that city and Winnipeg the autoist would find a good roadway.

A National Highway.

"All this is part of the national highway plan," stated Supt. Clark, "and it now remains for Ontario to build a highway to connect up with it. This

Banff Park completed, and assurances have been given by the British Columbia Government that the connection thru British Columbia to the coast will be finished this year. From Banff to Calgary the auto road has already been finished and is now in use. Between that city and Winnipeg the autoist would find a good roadway.

HOW TO PREVENT ACID STOMACHS AND FOOD FERMENTATION

By a Stomach Specialist.

As a specialist who has spent many years in the study and treatment of stomach troubles, I have been forced to the conclusion that most people who complain of stomach troubles possess stomachs that are absolutely healthy and normal. The real trouble that causes all the pain and difficulty is the acid in the stomach usually due to or aggravated by food fermentation, acid irritates the delicate lining of the stomach and food fermentation causes wind which distends the stomach abnormally, causing that full bloated feeling. Thus both acid and fermentation interfere with and retard the process of digestion. The stomach is usually healthy and normal, but irritated almost past endurance by these foreign elements—acid and wind. In all such cases—and they comprise over 90 per cent. of all stomach difficulties—the first and only step necessary is to neutralize the acid and stop the fermentation by taking in a little warm or cold water immediately after eating half a teaspoonful of bisulphate of magnesia, which is doubtless the best and only really effective antacid and food corrective known. The acid will be neutralized and the fermentation stopped almost instantly, and your stomach will at once proceed to digest the food in a healthy, normal manner. Be sure to ask your chemist for the bisulphate of magnesia, as I have found other forms utterly lacking in its peculiarity.

FOUGHT FILTH IN SEVEN COUNTIES

Dr. T. J. McNally, Ontario Government District Officer, Reports on Work.

The Ontario Board of Health is finding one of its most serious problems in the careless sanitation of slaughter-houses and abattoirs throughout the country. Every district officer has been

called upon by special instruction to regulate several of these.

The report of Dr. T. J. McNally of Guelp on the year's work in the Counties of Grey, Bruce, Huron, Perth, Waterloo, Wellington and Dufferin shows a complete sanitary survey of 31 towns, 15 townships and one city. In all 19 municipalities were visited, specially to forestall the spread of smallpox and five were advised on matters of sewage and water supply.

He states that 13 extra visits were

required to different sections to ensure the public securing a clean meat supply.
