

8. I might here point to Mr. DAVID BELL, from near Lockerby, Dumfriesshire, (Scotland,) who emigrated in 1833, and was the first sower of fall wheat in his township, or indeed almost in this district, and to Mr. George Hyde from the same place, both farmers with large families, who, if I was noting particulars, will shew greater instances of success. The latter, in particular, who was a farm servant to the former, in Scotland, and who is the equal now of his old master. Mr. JAMES HASTINGS, from the parish of Glencairn, near Minnihive, from said shire, with a large family, is another emigrant I can refer to, to shew the advantage of emigrating.

9. I have not said much as to the early emigrants in North Easthope, who came in 1832, from Glenquaich, in the Highlands of Scotland. JOHN STEWART from Turrerich, is worth 4000 dollars, (£1000,) besides his large stock of cattle and crops. PETER CRERAR, who had hardly any money when he settled, may be worth 3000 dollars, (£750). John M'DAVISH and family, rather more, and ALEXANDER CRERAR, (who has a deed for one lot of 100 acres besides other land) about £750. JOHN CRERAR (who came in 1833,) with ROBERT FRASER, JOHN KIPPAN, and his family, (already well provided for,) and many others I might name, are all well off. The communications made by these settlers to the relations and friends they left behind, induced many to emigrate, and settle near them, and now the old associations of "kyth," and "kin," and "boyhood's years" exist here, and those who lived for many years as neighbours in Glenquaich, are likely now to spend in North Easthope as neighbours and as little landlords (some of them have 600 acres of land) the remainder of their days.

I had intended to have added here some remarks as to the current coin or "currency" of Canada, and also as to the markets. As regards the currency, the sovereign is a current legal coin (see 4 and 5 Vic. c. 93,) for £1. 4s. 4d. currency, the crown for 6s. 1d. and the other silver coins in proportion, but to avoid fractions, the English shilling passes for 1s. 3d. and the sixpence for 7½d. currency. The American (or States) silver half dollar passes for 2s. 6d. and the other States coins in proportion. The dollar is equal to 5s. currency, and in the States contains 100 cents, each
