# *The Phosphate Fields of Florida,*

A PAMPHLET

BY

C. C. HOYER MILLAR,

PUBLISHED JANUARY, 1891,

BY EDEN FISHER & CO., LOMBARD STREET, LONDON.

---

## OPINIONS OF THE PRESS.

*Financial Critic*.—"Under the above title Mr. C. C. HOYER MILLAR gives a well compiled account of his recent travels and explorations in Florida, which should be most interesting reading to those interested in phosphates."

*Agricultural Gazette*.—"The pamphlet gives an account of Mr. MILLAR's recent travels and explorations in Florida, and has all the merits of first-hand information on a topic of growing importance."

*Financial Times*.—"The author of this pamphlet describes the immense phosphate fields that were discovered in South Florida by Mr. LE BARON a few years back. Comparing these with the deposits of Northern France, Belgium and Germany, Mr. MILLAR arrives at the conclusion that the Florida fields are unrivalled both in extent and value, although they vary more than any others in thickness and quality."

*Capitalist*.—"Mr. C. C. HOYER MILLAR has visited the district of the Peace River in South Florida, and Marion County, and made explorations over Polk and De Soto Counties. . . . and proceeds to
