FIRE CHIEFS DISCUSS INTERESTING SUBJECTS

All arrangements made by the chief for yesterday afternoon were rudely upset by the downpour of rain. A num-ber of tests scheduled for the afterwere postponed till the weather

is finer. During the rain the chiefs held a round table discussion on pulmotors other revivers. Demonstrators and present to show the value of were these machines in case of emergency. Smoke helmets were also exhibited, but cording to government regulations, using only the purest materials that an actual fire demonstration will be can be obtained. eld today to show the helmets working under fire conditions.

Following the failure of the tests, the chiefs journeyed to the plant of the Gutta Percha Company, where they inspected the plant, particularly the hose department, to watch the manu-facture of hose.

After the trip of inspection the vis-itors went to the island, where they were the dinner guests of the Ameri-can La France Fire Engine Company.
