GERMAN LABOR IS REPENTANT

International Trades Union Congress Accepts Attitude Without Debate.

Amsterdam, July 30.—The work of the International Trades Union Congress yesterday was hindered by a protracted discussion in committee of the old international organization over the German declaration of the stand of the German trades unionists during the war. The Germans maintained an unrepentant attitude until Samuel Gompers, president of the American Federation of Labor, told them plainly that if it were continued it would be impossible for workers of other countries to retain relations with them in the future. The Germans thereupon somewhat relaxed.

The position of the various nations in the voting places the British and Americans in an unfair situation. They represent together more than 8,000,000 workers among the 17,000,000 represented at the congress, but have only nine votes of the total 27, which may be cast on motions.

The committee, on its return, reported as follows: That the statement of Herr Sassenbach, (German Socialist) be incorporated in full; that the regrets expressed therein be registered; that the German delegation be frankly and openly the spirit of Sassenbach's declaration; that if the avowal be frank, open and satisfactory, the conference will proceed in the order of the day; and that if unsatisfactory, freedom of action be reserved.

Against all expectations, the conference adopted the report without debate after Sassenbach in a few words confirmed the German declaration. Sassenbach, who was a member of the committee, refrained from voting. The other members included W. A. Appleton of England; Samuel Gompers of America and Leon Jouhaux of France.

The congress then proceeded with the business of forming a new international. After the appointment of commit-

BERGS AND FIELD ICE IN BELLE ISLE STRAITS

St. John's, Nfld., July 30.—The continued presence of icebergs and field ice in the Strait of Belle Isle, and along the southern Labrador and northeastern Newfoundland coast, has hampered fishing operations seriously. Fishing in the strait has been prevented as far west as Blanc Sablon. The steamer Diana arriving here after her first trip of the season to Labrador, reported she had penetrated the ice as far north as Turnavik. Large fields of ice were encountered, but the steamer was undamaged. Only a few fishing vessels at that time had been able to run the ice blockade, but the Diana passed more than 500 craft off Belle Isle trying to work their way north.

BOLSHEVISM SPREADING THROUGHOUT BULGARIA

London, July 30.—Reports from Bulgaria by way of Berlin declare that Bolshevism is spreading in that country, says an Exchange Telegraph despatch from Copenhagen today. Several demonstrations have occurred in the larger towns, accompanied by disorders and considerable bloodshed, the message declares.

Germany Must Not Sell Properties in Schleswig

Paris, July 30.—Premier Clemenceau, as president of the peace conference, sent a letter today to the German peace delegation, protesting against the action of Germany in selling national properties in Schleswig, in which plebiscites are to be taken for decision by the population as to union with Denmark.

The note gave warning to the Germans that all the properties in question were considered as possible security for the payment of Germany's indemnity and that the peace conference would hold Germany responsible for the proceeds of such sales.

LABOR CHALLENGED STATE AS WHOLE

Reason for Using Troops in Yorkshire, States Winston Churchill.

London, July 30.—Replying in the commons to a Labor speech in which reference was made to the use of troops for strike-breaking, Rt. Hon. Winston Churchill, after pointing out that there was no strike-breaking anywhere, said that he would think it odd that the forces of the state should be used to interfere in a dispute between capital and labor in order to advance the interests of the employers or any particular group of workmen. The whole idea of a free country was that they should have the right to fight it out within reasonable limits.

Never must force be employed in questions where private interest was the motive power; but the position which the government was taking up had been accepted, viz. that where the state as a whole is challenged, and where the life and welfare of the community as a whole were endangered, then obviously, the state must use all the resources at its disposal to fight without flinching to the bitter end.

BRITISH VICTORY LOAN OVER QUARTER OF BILLION

London, July 30.—The recent British Victory Loan subscriptions amounted to 787,800,000 pounds, it was announced today in the house of commons by J. Austen Chamberlain, chancellor of the exchequer. This exceeds the amount previously announced by 59,800,000 pounds.

FATALITY AT KINGSTON.

Kingston, Ont., July 30.—As the result of a runaway in which his skull was fractured, Emma Lakins of Port Hope, aged 86, died this morning in the General Hospital. Deceased was thrown heavily, his head striking a stone. From time of the accident on Monday afternoon he never regained consciousness.

USE GERMAN TROOPS AGAINST BOLSHEVIKI

London, July 30.—The government of Lithuania has taken measures for the evacuation of that country by German troops, it was stated in a Bolshevik wireless message received today from Moscow.

Information was given by the Bolshevik message on the movements of hostile forces. Russian troops commanded by General Livin, the wireless despatch said, would be taken by British ships to the Russian northwestern front and German troops under the control of the British General Alexander, at Tukums, thirty-eight miles west of Riga, will be sent to the front against the Bolsheviks soon.

LOOKING FOR REAL LIBERAL PROGRAM

Forward Men for Convention From East to West, Says Hon. A. B. Hudson.

Winnipeg, July 30.—Stating that he would be unable to attend the Liberal convention owing to pressure of private business, Hon. A. B. Hudson said this forenoon: "There are quite a number of forward looking men going from both the east and west, and if their views prevail a real Liberal program will be adopted. They will also see that the men put in control are men who believe in the policy adopted and can be trusted to carry it out."

In regard to the tariff, Mr. Hudson said: "Our western men are bound to stick out for something very like the former's platform. Legislatures of the three prairie provinces have passed resolutions very similar to it. For that matter, resolutions proposed by the opposition in parliament did not fall very far short of it, and one can hardly expect the convention to do less."

Mr. Hudson concluded by stating that Canada cannot afford to lag behind other countries in meeting legitimate demands of labor.

PLAN TO WELCOME GENERAL CURRIE

Canadian Commander is Expected to Sail Soon, With Dock Strike Over.

Ottawa, July 30.—With the settlement of the dock laborers' strike at Liverpool, the probability of a serious delay in the departure for Canada of Sir Arthur Currie, commander of the Canadian forces, has passed away. The Metagama, which will bring Gen. Currie to Canada, is expected to sail from Liverpool, but if there is a delay in the departure of the boat, it will not be for more than a day or two.

Major-General Mewburn, minister of militia, who returned to the capital today, will keep in touch with all arrangements for the reception of Gen. Currie in Canada. At Montreal plans are already being made for a joint military and civil reception. It is not known what Sir Arthur's immediate movements will be, but if he comes directly to the capital it is expected that there will be a similar reception here, in which the government will join.

GERMANY TO RELEASE POLITICAL PRISONERS

Berlin, July 30.—The greater part of the political prisoners who have been on a hunger strike for several days probably will be released, Gustav Noske, minister of defence, told the German national assembly.

His announcement was made in response to a motion by the independent in the assembly, calling for the release of political prisoners. Minister Noske said an investigation had been ordered and that it probably would result in the release of a large number.

INTERNAL SITUATION IN BULGARIA SERIOUS

London, July 30.—It is reliably stated from Sofia that the internal situation in Bulgaria is most serious. There is a widespread movement to establish a Soviet Republic, and many strikes have begun. The French military mission at Ukrainian headquarters will acquire into the situation and ascertain the wishes of the people. Petura's troops have captured the rail junction at Varniarka, thus making contact with the irregulars under Ataman Volynia, whom the Bolsheviks had cut off. Petura occupied Daraschina, pursuing the enemy in the direction of Varna. Only isolated Bolshevik bands remain on the right bank of the Dniester.

Soldiers on Guard at Quebec Shipyard Strike

Quebec, July 30.—A detachment of soldiers with rifles and a machine gun was mounting guard this morning at the Davis shipyards at Levis, where yesterday some nine hundred international union men struck for shorter hours, more wages and better conditions.

This bringing into play of the militia, according to officials of the international union, is not justified, the strikers, according to officials of the international union, having in no way threatened either life or property.

Escaped Canadian Prisoner Is Captured in Michigan

St. Catharines, Ont., July 30.—William May, who escaped from Lincoln county jail here three months ago, on the same day upon which he was sentenced to five years in Kingston penitentiary, has been caught in Flint, Mich. The local authorities have been notified and the attorney-general's department has been requested to open extradition proceedings.

REFUSE TO CHANGE HISTORIC MONUMENT

France Will Retain Belgian Lion Erected on Waterloo Battlefield.

Brussels, July 30.—A proposal made in the chamber of deputies by a Socialist deputy, that the huge Belgian lion on the battlefield of Waterloo, marking the victory of the British and Prussians under the Duke of Wellington and Blucher, over the French, commanded by Napoleon, in 1815, be turned about so that the head of the lion would face the north and away from France, had met with opposition by the finance minister. The proposal was that the lion's position be changed after the ratification of peace with Germany.

The minister of finance said this monument recalled one of the greatest events in history, and that it held no hostile significance towards France, whose army, in which there were many Belgians, covered itself with glory in the fight in which Waterloo was the centre of the battle. He added that it formed as much a part of British history as of France, and that other monuments in Belgium would be raised to commemorate the great war in which France, Great Britain and Belgium as allies fought the common enemy.

LINE OF SEAPLANES FOR CONGO COLONY

Brussels, July 30.—The Belgium committee on aeronautics has decided on the creation of a line of hydro-airplanes for the Congo Colony. Besides mail and passenger transports, hydroairplanes are to undertake an important cartographic mission covering thousands of miles with a view to establishing the cartography of the Congo River. King Albert has contributed to the special fund of the mission, and also for the necessary flying machines.
