attended, and which was clearly violated by the act. Yet that an Ethiopian as well as a Canadian might be concealed under the same bill, was not a point of view which was taken by the committee. The bill was passed by a vote of 10 to 8, and the committee will now report to the house.

Mr. Doherty, who was the only member of the committee to vote against the bill, said that he was not in favor of it because it was a violation of the constitution.

ORIENTAL VOTERS ARE DISQUALIFIED

Continued from Page One.

peace treaty. Mr. Archambault asked if it was true that Canada was a party to the treaty with Bulgaria and if the treaty had yet been signed. The minister of justice replied that he was as yet unaware if the treaty had been signed. As to whether it would be submitted to the house for approval, that would be a question for consideration later. It would, however, not be dealt with until the same way as the Austrian treaty. W. F. Maclean asked whether Canada was a party to the treaty between Great Britain and France and whether the treaty would come before the house.

Mr. Doherty: "That treaty differs from the others in that it is a treaty between France and Great Britain. As to what may be the action of the dominions on the question, that is a separate and distinct matter."

Bar Oriental Voters
Second reading was given to a bill to amend the Dominion by-elections act. The bill had become necessary, said the solicitor-general, by reason of what appeared to be an oversight when the by-election act of 1913 was passed at the spring session. Under the act of last session provincial disqualification of Oriental voters in British Columbia would have no effect. Such voters would be entitled to vote at a Dominion by-election.

In committee on the bill, Ernest Lapointe asked if it was correct that under its provisions a Jap who had been naturalized and who was a British subject would be disqualified from voting in a Dominion by-election in British Columbia, although qualified to vote in the other provinces.

Mr. Guthrie: "That is the effect of the bill. In effect it recognizes the right of the province to make its own franchise."

"But why was there discrimination?" Mr. Lapointe proceeded. "Why should a British subject be prohibited from voting from one province and yet be entitled to vote in another?"

Admits an Anomaly.
Mr. Guthrie admitted that it was something of an anomaly that a British subject should not be entitled to vote. He observed, however, that the question of the oriental vote was a very live one in British Columbia. Mr. A. R. McMaster took the ground that people desiring such a law as this should be required to set forth their reasons in the clearest terms. He was not contending, said Mr. McMaster, that persons belonging to a race which would not coalesce with the Canadian people should be admitted, but once admitted they should be granted the franchise.

Mr. H. H. Stevens said that the bill should not necessarily precipitate the whole question of oriental immigration. It merely put British Columbia on the same basis as the other provinces. As far as the assimilation of the oriental was concerned, Mr. Stevens declared that in no occidental country did they assimilate.

Cause of India's Unrest.
Hon. Rodolphe Lemieux asserted that the oriental races were in the main honorable and well educated. A large part of the dissatisfaction now existing within India could be traced to the treatment of those people in Canada and other British dominions. India had been accepted as a member of the league of nations, and her people should be given fair treatment by the other dominions.

ITALY FACING GRAVE FIUME SITUATION

(Continued from Page 1.)

Minister Tittoni today, in alluding to the situation here.

As a matter of fact, alarmist reports of all sorts are in free circulation. One report has it that King Victor Emmanuel may abdicate, and another that civil war is imminent between the nationalist and militarist factions on the one side and the forces controlled by the official socialists on the other. In these reports the nationalist adherents are represented as having decided to push to the utmost limits the aspirations of Italy, while their opponents are declared to be determined to oppose by all means, even by revolution, another foreign war.

To Announce Policy

Foreign Minister Tittoni is expected to make a declaration before the chamber of deputies tomorrow of the government policy regarding the occupation of Fiume by D'Annunzio and his irregular troops. Two resolutions have been introduced in the chamber, one providing for the annexation of Fiume without awaiting the decision of the peace conference, and the other affirming the right of Italy to guarantee Italian nationality in Fiume.

The Messaggero says that if the chamber gives Premier Nitti a vote of confidence, the chamber of deputies will be dissolved and elections held in November.

A Rome despatch of September 3, quoting the Tribuna, said the Italian parliamentary elections would take place November 16.

Tomaso Tittoni, foreign minister, declared during the meeting of the crown council today that the peace conference would not permit Italy to annex Fiume, because such action would authorize the Czech-Slovaks to occupy Techen; the Jugo-Slavs to move forces into Klagenfurt; the Greeks to claim Thrace and the Rumanians to annex Bessarabia.

President Wilson's Reply

President Wilson's reply regarding the new proposals for the disposition of Fiume has been received, the newspapers announced today, and was found to insist upon his original view that the city should be internationalized and not annexed to Italy, becoming the centre of a small buffer state between Italy and Jugo-Slavia.

The president does not insist, according to the press, upon a plebiscite in the buffer state at the end of fifteen years, as at first proposed, and he consents to the rectification of the eastern frontier of Istria in favor of Italy, in the district of Albano.
