Melady & Co. had the following at the close of the market:

Wheat—Liverpool cables failed to reflect the strength in our market vesterday, and receipts in the northwest were very much over last year, causing weakness in the early trading. This was quickly followed by a show of strength, induced by the extreme hot weather in the southwest and reports of bugs in Kansas. There were various reports of winter killing from trustworthy people and buying of an extrustworthy people and buying of an excellent character during the early trading.
Late in the day the early advance was lost and a sharp break to the low point 8 o'clock. of yesterday was reached by a rumor that crop expert Snow would issue a very bearlsh crop report. Locals all sold out when they heard this and found no demand for further offerings. For the time eing we are likely to see a lower market

Corn—Cash and commission houses were closed the Santa Margarita tunnel, good buyers of the futures early, but the cated in the mountains north of San market weakened with the break in wheat, Luis Coisco. The line will be closed and scattered offerings became heavy with only a nominal demand. It is expected that Snow's report will also be bearlsh on corn reserves. It looks like the recent bulge had been made to sell on over Canadian Pacific's short line leave the recent bulge had been made to sell out and that corn will work lower.

Outs—The trading bulls bought July outs and a northern elevator concern took large amounts of May. It is too much a large amounts of May. It is too much a night train. Best of train equipment and outself to warrant an outself to warrant and one interest market to warrant an opin-on, but the price looks high.

Altho supplies of logs were much smaller the demand was not strong enough to absorb them and some holders had to have them slaughtered for their own account. There was an easier feeling and sales of selected lots were made at \$7.12 to \$7.25 per cwt., weighed off cars. There was no extra Easter beef offered and the butchers bought sparingly, preferring to wait until Monday's market, when liberal supplies are expected. Prime beeves sold at 5½c to 5½c per lb.; pretty good cattle, ½c to 55 and the common stock, 3c to 4c per lb. Milch cows, sold at \$25 to \$55 each. There were no really good calves on the market and prices ranged from \$2.50 to \$6 .ach.

In 1900, my wife was attacked with piles and suffered from them four years and was unable to attend to her domestic work. We tried many remedies, but all failed, and she gave up in despair. Mr. Edwin Shaver of Salisbury, N.C., who was cured with your Pyramid Pile Cure, recommended it as a sure cure to me. I have used five boxes of it, and part of a box of salve, on my wife, and she has been cured. May God bless you and your remedy. Yours very truly, M. G. virgin territory and is as promising as any in the district."

Cobalt, Feb. 23, 1907.

"The mine is looking far better than it did when we took it over, and little by little we are increasing the available reserve and obtaining valuable information. Daily I am more taken with the great value of the property, especially in what is the true value of all mining properties, the enormous quantity of ore of comparatively low grade. In fact the territory so far developed is one vast ore body, only the richest parts of which we are now availing ourselves of. The ore, which we are not receiving revenue from, which we call waste, and the enormous expenses for present marketing mean a revenue, if properly diverted, of about 15 per cent. per annum on the capitalization."

BEAVER REORGANIZATION.

Financial Arrangements for This Will Shortly Be Completed.

Progress is being made with the financial arrangements in connection with the company which has taken over the control of the Beaver claim. In the redistribution of stock, adequate measures are being taken to have a strong treasury. The work on the property is being steadily pushed and reports of the quality of ore now in sight are most encouraging. An active and energetic mining campaign is pro-mised from the personnel of the new organization, and it should not be long before the beaver is placed among the

I'wo Cars of High Grade Ore to Be Sent to Smelter.

Cobalt, March 20,-(Special.)-Superinendent Cohen of the Jacobs or Kerr Lake mine has received instructions to ship two additional carloads of the high grade ore which have made this mine famous.

The ore will be sent to the Ladu Sampling and Smelting Works, as that company has agreed to try another carload of the ore conditional that the metallics will be carefully removed before the ore goes into the Jaws of the crusher. It will be remembered that the last car load sent from this mine put the crusher out of business for a week, as the rich metallics choked the jaws of the crusher. The new 20-drill compressor will be installed at this mine by the middle of June and after this is done the output will probably net the company \$150,000 per month.

There is good authority for the statement that the present combination control-ling the Kerr Lake Company is the strong-est that could be formed in New York City, consisting as it does of men con-trolling large interests in such mines as the Homestake and Anaconda, These men sent the well-known mine expert, Benjamin B.
