THORN'S EXECUTION.

Preparations Under Way at Sing Sing to Execute the Celebrated Murderer Tomorrow.

Slag Slag, N. Y., July 30.—Martin Thorn, the Glenside murderer, has but a few hours more of life in Sing Sing Prison, as on Monday morning he will expire his crime in the electric chair.

Thorn is awaiting the hour of his execution with apparently little concern. He is exhibiting remarkable nerve and seems to go to the chair without flinching.

State Electrician Davis arrived at the prison today. He is making some alterations in the electric apparatus and testing the whole plant.

The invitations are in the hands of the select witnesses. Father Hanselmann, the spiritual adviser of Thorn, is expected at the prison Sunday to remain till after Thorn has been executed.

Thorn has suddenly become a vegetarian. What his opinion upon the subject is, he is not heard of. The fact remains that Thorn has been a vegetarian since he was merely a matter of to-day it might be set down as one of the idiosyncrasies of the unfortunate nature that dwells in the body of Thorn. But it is not the idiosyncrasy of a day.

There are four guards at Thorn's cell, constituting the death watch. Alexander Van Wart and Philip Morris are the day guards. George Fox and Keeper O'Keefe relieve them at 6 o'clock in the evening. When the meals are passed in through the narrow aperture provided for the purpose, Thorn looks at the guard with the strictest vigilance on the condemned prisoner to see that he makes no attempt to communicate with the outside world, to administer the food to himself in any unusual way, which might endanger life.

Thorn Must Die.
Albany, N. Y., July 30.—Governor Black has decided not to interfere in the case of Martin Thorn, condemned to death for the murder of Glenside.

Triplets—All Girls.
Trenton, July 30.—Mrs. Joseph Lavine of 824 South Warren street, yesterday gave the mother of triplets, all girls. One of the three is much smaller than her sisters, and weighs but three pounds. Mother and daughters all doing well. The latter are Russian Jews, the husband 34 and wife 32 years old.

Another Thief.
Camden, N. J., July 30.—The three little triplets, Mrs. Minto's, who came into the home of Pete Smith, 441 Meacham street, are attracting a deal of attention. Many persons from the neighborhood and from remote parts of the city have called at the house to see the children. The mother has had to keep a watchful eye on the triplets, for they are very inquisitive and will not be parted from their father for a moment.

Be'er Smitt on Minto.
Robertson Independent.
And so Earl Minto is to be our next Governor. Well, if he must have his sort of monkey-shining, Minto appears to be a fairly decent sort of fellow. He is a good fellow and a first class citizen, and showed good common sense when out in the North-west rum-puss by evidencing that he really couldn't take part in such a rotten silly business as the Minto election. But it is not that she does not care a you-know-what for the women's unions, the dear Countess would be hailed as a peach, and Smitt would "go to Halifax" for the pleasure of welcoming her to the shores of the finest country, bar none, that lays out of doors.

Windsor Engineer's House Robbed.
Windsor, Ont., July 30.—James McGarvey, locomotive engineer on the Grand Trunk, returned last evening to his home from which his family has been absent for some time, and found that the premises had been ransacked by burglars. A lady's good watch, a gentleman's silver watch and other jewelry, besides a quantity of his clothing, all aggregating \$75 in value, had been taken.

A Carefully Prepared Pill.
Much time and attention were expended in the experimenting with the ingredients that enter into the composition of Parnelle's Vegetable Pills before they were brought to the state in which they were first offered to the public. Whatever other pills may claim to be Parnelle's Vegetable Pills are the result of much expert study, and all persons suffering from dyspepsia or disordered liver and kidneys may confidently accept them as being what they are represented to be.

Essex Has Wheat and Tobacco.
Windsor, Ont., July 30.—Essex County's wheat crop is exceptionally heavy this year. Some of the farmers are reporting yields of 50 bushels to the acre.

The tobacco growers in this section are likely to receive good prices for their crops this year. As high as 17 cents per pound has already been offered.

One of Gilmore's Mills Burned.
Cambridge, Ont., July 30.—At 2 o'clock this morning fire destroyed the Gilmore Co.'s heavy mill, situated about two miles north of here. The cause of the fire is unknown, as the mill has not been working this season. The residence, stable, and other buildings were saved.

Thomas Johnson of Mt. St. Catharines, A. S. B., is in the city on Saturday reports having raised five crops of fall wheat of the Genesee Giant variety, which he expects to yield at least 40 bushels per acre.

WHEAT MARKETS OF A WEEK.

Movements on Both Sides of the Atlantic.

Effect of Incoming Crops on the Situation — Marked Decline in Prices at Chicago and Liverpool — Loss of Premium of War by Futures Over Remote Options.

Saturday Evening, July 30.
The week ending to-day has been marked by a decided depreciation in wheat values. On the Chicago market the July article has slumped about 30c a bushel, while the more remote options for September and December delivery have lost about 40c to 50c. The latter part of the week the chief cause of the loss has been the prospect of big crops on the other side of the Atlantic, resulting in a bounding harvest in the European market, and another source of the heavy feeling is, of course, to be found in the prospect of a bumper crop in Canada and the United States. Farmers' supply of wheat has been better than usual, and with some previous years, but immense reserves are looked for in the immediate future.

On the Liverpool No. 1 Cal. spot has declined 4d per cwt. in a Cal. spot red winter 3d, the September delivery 4d and the December option 3d per cent. The American market has advanced 1d, away below the American parity, owing to the predicted big French crop, reports of small deliveries in all districts since last Saturday.

Feature of the past seven days, it will be noticed, has been the lessening of the premium which nearby deliveries have for a long time maintained over the more remote options. This is due to the partial removal of the fear that the stock of old wheat would not hold out until the fall grain was ready for milling.

Corn was a high start in the week on reports of damage by drought in the growing States, but the advent of much drier weather has caused a decline in the price of that cereal to decline the past day or two below the quotations ruling in Liverpool in Chicago. At the same time, maize in at Liverpool quoted at a premium of 1d per cwt. over the price of last Saturday.

September wheat puts at Chicago 95c per bushel, with a bid for 95c, good all next week, 6 1/4c, call. 6c.
September corn puts at Chicago, 53c per bushel, with a bid for 53c, good all next week, 3 1/4c, call. 3c.

The weather forecast for Sunday is good all next week, 3 1/4c, call. 3c.
Western Iowa, South Dakota, Southern Illinois and Iowa.
The weather forecast for Sunday is good all next week, 3 1/4c, call. 3c.

Primary corn receipts to-day, 431,000 bushels, against 732,000, shipments, 427,000 bushels, against 732,000 bushels this week.
A Chicago despatch says: Corn has a good deal of rain today, and the prediction is for more. Western Kansas, however, reports no rain, and the Government report on Aug. 10 will show a drop.

Louis wheat receipts to-day, 42,000 bushels, against 58,000 the same day last year.
Chicago reports the week's shipments of total 20,000,000 lbs.; yard, 4,841,000 lbs. Total clearances to-day: Wheat, 1,041,000 bushels, against 1,022,000 bushels, and flour, 27,000 barrels, against 28,000 barrels to-day.

Chicago receipts at principal Western ports to-day, 28,850, against 35,500 the same day last year.
The receipts of wheat at Minneapolis and Duluth, buyers, 10 cars, against 42 cars the corresponding day of last year.
Exports at New York to-day: Flour, 490 barrels, against 800, and 10,000 bush, and 10,000 bush, and 10,000 bush.

Exporting in Chicago from opening of season to date, 2,992,000, as against 2,610,000 the corresponding period of last year.

The Week's Exports.
Bradstreet's estimates this week's exports of wheat to all States at 2,271,372 bushels, against 2,348,480 bushels last week, and 2,348,421 bushels the week ending July 23, 1898, the same date last year.
Corn exports for the week, 2,601,000 bushels, against 2,522,128 bushels last week, and 1,452,715 bushels same week last year.
Total receipts of wheat, 2,300 cars to-day, against 2,386,560, against 33,500 the same day last year.

Evaporated Fruits Scarce.
From New York Commercial.
Some interesting possibilities are suggested by the present situation in evaporated fruit. The Michigan market is showing signs of a promising future, while others are said to give promise of an average yield. If this proves true, and a moderate supply of complications may result.

There is a bare holding in evaporated apples at a distance of 80c per pound than there is in barrel apples, and some jobbers will not have had years of experience in the business expect to see large quantities of good barrel stocks worked up in evaporated goods.
Some years ago substantially the same condition existed in Michigan, but the price was at its height. Bigger the market with the Michigan market, but the price was at its height. Bigger the market with the Michigan market, but the price was at its height.
