The latest innovation of the New York Central to serve its patrons is the new method of cooking by gas, the Pintsch gas being used; there is no odor or obnoxious taste to the edibles, but a delicious and palatable flayor; the "Empire State Express" was the first train to adopt the gas broller, but its popularity has become so extended as to prompt the company to place them in all buffet cars on its through passenger trains; the service is a quick and satisfactory one. "The Preaching of To-Day" was the title

of a sermon preached last evening by Rev. S. S. Craig in the Guild Hall, McGill-street. In the course of his remarks the speaker said he had a serious charge to make against a particular phase of the orthodox true, is of the profoundest significance, as interpretative of the unrest and confusion everywhere so painfully apparent; a charge sion on the part of most of those who pro fess to have a divine call to the sacred office of interpreting Christianity to their Sentenced to Dismissal From the fellow-men. Washington, D. C., Jam. 28.—General
Eagan, Commissary-General of Subsistence, has been found gullty of the charges of conduct unbecoming an officer and a gentleman and of conduct to the prejudice of good order and discipline, and of the specifications thereto, and has been sentenced to dismissal from the United States army, but with a recommendation from the court for the exercise of executive elemency. Under the regulations the court, having reached the conclusion that the accused was guilty, had no choice in selecting a penalty, the regulations prescribing absolutely the one punishment—dismissal—for the offence. "The administrative morality of the Americans." says thecorrespondent, "is below par. The gamoling hells of 'Manila' are taxed \$1200 each, and the police are highwaymen who make arbitrary arrests and then demand from \$10 to \$20 for the release of their prisopers."

The correspondent further declares that the Americans have monopolized all the trade and swamped the markets with their products, rendering European competition. They act as though they had some impossible. As an instance of this, he alleges that California wines are sold in Manila as genuine Bordeaux.

The report of the directors at the annual meeting 550 to the Hammond Reef is most encouraging, and although the ore only runs about \$5.75 to the ton, it leaves a good margin for profit, and it is likely to be a dividend payer within 12 months.
