WINNIPEG FOUR KEEP TROPHY TO EMPIRE

Otherwise German Crew Would Have Won Stewards' Cup— Leaves England for the First Time—High Praise for Can- adians.

(Canadian Associated Press Cable.)
LONDON, July 7.—In the Henley Regatta to-day, the crew of the Winnipeg Rowing Club defeated the Mayence, Germany, crew in the final for the Stewards' Plate by two lengths. The time was 7 minutes and 52 seconds.
Captain Riley of the champion crew, in an interview said he was hopeful of a victory all along, and after a rest in England they will go back to Winnipeg with the Stewards' Cup. The foremost English rowers have showered congratulations on the crew.
In the final heat of the Diamond Sculls, Kinneer, Kensington, beat Lucas easily in 8 minutes 51 seconds.
The Pegg won their heat from the Thames crew yesterday. It was windy and rough, but the westerners shot right to the front, and, taking no chances, won all the way.

The victory of the Canadians came as something of a surprise after the criticisms of the English crews, only on Wednesday Guy Nickalls, the famous oarsman, said in a signed article: "Our ideals of rowing are not at all the fault of the oarsmen to have. Their rhythm is reversed. They rush forward, go slowly back; they do not swing even in perpendicular. They are all able to slide 21 inches, but not more than 18 inches. They do not even get together, yet it is said they can go very fast. If they win, I suppose it can be argued that they should copy their style (heaven forbid), but this contingency I consider very remote."

Canadians Saved Day.
At Henley this morning there was much despondency in English rowing circles, arising from the fact that in all races wherein there were foreign entries the foreigners would contest the finals. In one, viz., the Stewards' Cup, there were no English crew at all, and the home-bred oarsmen were taken to task for not training until the very last moment before such an important event as Henley week. Altogether the critics, influenced perhaps by the depressing weather, prepared themselves for the worst did not happen, as Kinneer of Kensington easily beat Lucas of Germany in the Diamonds' final, and the Canadian couple of the Dutch regatta for the silver Randolph goblets. X for the Stewards' Cup the English crew had no show, yet easily the next best thing happened, and the Winnipeg four quite overcame their gigantic German rivals, and victory, at all events, rested within the empire.

The continental oarsmen took to the water across the English and English pride is saved a nasty shock. The Stewards' final produced a tremendous struggle at Pawley-court, whence the Canadians came in with a week for the last 20 in his present capacity. He had been instructed to repair the trestle, which he did to his entire satisfaction the day before the collapse, but this was at least 20 feet from the point where the break occurred. The accident was not necessarily due to a defect in the trestlework itself, as he had not noticed that the wood was dry-rotted. He knew nothing of the technical details of vibration and strains.
Coroner Young adjourned the inquest until Thursday, the 14th.

RAISE FLAGS ON 12TH

By Virtue of the Toleration of Trustee Dineen.

Matters were rushed thru in unusually quick style last evening, with a comparatively small attendance of the members of the board of education present. Trustee Dineen, representing the separate school board, remained till 10 and to complete the quorum, until a resolution was passed authorizing the raising of all flags on public schools on the 12th of July. The motion was made by Trustee Smith and accepted by Trustee Hodgson. Trustee Levee presided.

W. C. Michell, B.A., classical master at Jarvis-street Collegiate, becomes principal of Riverdale High School, and W. E. Murdoch, B.A., was transferred to Jarvis-street Collegiate. Other appointments were: E. A. Hardy, B.A., teacher in English and history to Jarvis; C. H. Barnes, mathematics and physical training to Harbour; Chas. G. Fraser, M.A., science to Harbour; A. H. Pearson, drill and physical training to Harbour. It was also decided to appoint a teacher in manual training and domestic science to Riverdale High School.

It was decided to open special classes at Grace and George-street schools, with Miss I. Carruthers and Miss F. Sims in charge.

HOT WEATHER CUTS.

Saving money is just the same as making money, and the man who buys his purchases during July and August, when reductions and discounts are the order of the day. At Oak Hall's big new store, at the corner of Yonge and Adelaide-streets, special inducements are being offered to customers to purchase their clothing during this and the next month. Substantial savings can be made on almost any article of clothing you may require. Even if you do not require something for immediate wear, it will pay you to make your prospective purchases now.

Heavy Earthquake Shock.

WASHINGTON, July 7.—A severe earthquake shock, continuing from 12.01 to 12.03 this morning, was recorded by the Georgetown University Observatory. The chief motion was east and west and was the heaviest recorded since Jan. 1.

Accident at Barn Raising.

LINDSAY, July 7.—At a barn raising on his brother's farm William Haselton, aged about 40, fell from a 30-foot scaffold. He now lies in a critical condition.

Ontario Shuts Out The Fight Pictures

Order-in-Council Passed Yesterday
by the Government That Prohibits
Production in Ontario.

The Jeffries-Johnson fight pictures and all others of a pugilistic nature are banned from the province. An order in council was passed by the Ontario Cabinet yesterday afternoon, amending the police regulations to prohibit the showing of pictures of prize fights.

Copies of the new regulation will be sent out to the heads of the various police forces in the province, as well as to the owners of moving picture shows. The penalty for breach of the regulations in this respect is a fine of \$50, and an additional fine of \$25 for each subsequent day the pictures are shown, and a detainer of payment of \$50, and offender goes to jail for three months. There is further penalty for violation of the regulations that the owner of the show will lose his license.

Sir James Whitney said: "The matter was taken up by the cabinet this afternoon, and considered, along with certain other questions for the first time, and the regulations with relation to moving pictures have been amended so as to prohibit pictures of prize fights."

CANADIAN TEAM TRIUMPHANT AT BISLEY

Walk Off Again With the Mc-
Kinnon Cup—Sergt. Morris
of Bowmanville Scored Ten
Bullseyes at 800 Yards
Range.

(Canadian Associated Press Cable.)
BISLEY, July 7.—The Canadian team this afternoon won the McKinnon Cup by 41 points, with the Scotland team second.

During the competition Sergeant F. H. Morris, 4th Regiment, Bowmanville, was the only one to make a possible, scoring 10 bulls eyes at 800 yards, and Sergeant James Freeborn, 13th Regiment, Hamilton, was high man with 146 out of a possible 150.

The competition for the cup was open to teams of twelve from the various parts of the empire. The cup is a challenge one, given by the late Col. McKinnon. The distances were at 800, 900 and 1000 yards each, competitor to have ten shots.

A special commemorative silver bowl will be given by the National Rifle Association to the captain and adjutant to each member of the Canadian team.

The standing of the teams at the finish was as follows:

Country	Yds.	Points	TTL.
Canada	800	900	1000
Scotland	557	511	458
England	536	496	448
Ireland	524	520	448
Australia	530	521	432
Germany	510	493	449
Malay States	523	491	435
India	522	519	393

The individual scores made by the Canadians are as follows:

Name	Yds.	Points	TTL.
Crowe	49	46	44
Clifford	42	45	32
Forrest	43	48	36
Freeborn	46	42	36
McInnes	46	42	36
McHarg	49	45	39
McKie	46	46	41
Forrester	46	46	41
Mitchell	43	48	45
Mitchell	43	44	44
Steele	43	40	36
Steele	43	40	36

Major Vearley of the English team and Private Gray were the only competitors except the Canadians who used the Ross rifle.

Last year Canada won with 1699, the team including Forrest, Freeborn, Morris, Mitchell, McInnes and Russell, who shot to-day.

A SIGHT THAT WILL THRILL THE CROWDS AT WESTON TO-DAY—AN AEROPLANE IN FULL FLIGHT HUGGING THE EARTH RATHER CLOSELY

QUIET LEAVE-TAKING WHEN PREMIER DEPARTS

Lady Laurier Will Go to Banff Later
and Return With Sir
Wilfrid.

OTTAWA, July 7.—(Special.)—The departure of Sir Wilfrid Laurier on his two months' political trip to western Canada, this afternoon was a quiet affair, no attempt being made at a demonstration, that is reserved for the return to the capital early in September.

The party at the station was not a large one. It included Lady Laurier, who accompanied Sir Wilfrid to the station in their auto, the ministers of the crown still in the city, a number of close personal friends of the premier, and a group of press correspondents. Lady Laurier will go to Banff and return with Sir Wilfrid in September.

Sir Wilfrid's habit of remembering everybody was quite in evidence. As he shook hands with the newspaper men present, he expressed to each a word of regard that they were unable to accompany him, and, just before boarding the car, he remembered that he had said good-bye to everybody but his chauffeur, so back he came off the steps of the car, and going up to the lad with the peaked cap he said: "Good-bye, Charlie, be a good boy until I come back."

Members of the technical education commission spent the day working out the details of their Canadian itinerary. It was decided to make a start at Halifax on July 15. About 25 industrial centres in the Maritime Provinces will be covered, and the commission will jump to Ottawa in order to be there during exhibition week.

AVIATION MEET TO-DAY BIG CROWDS ASSURED

Transportation Facilities Will Be
of the Best—Lieut.-Gov. Opens
Performances at 7 o'Clock.

To-day, July 8, 1910, will be a date that will go down to history so far as Toronto is concerned as being the opening day of the first aviation meet. Public interest has been aroused by the meets in Europe, the United States and in Montreal, and almost everybody wants to go and watch heavier-than-air machines fly. At 4 p.m. Lieut. Gov. Gibson will formally declare the exhibition open. Then Count de Lesseps will start the performance by making a flight in one of his planes.

The transportation facilities are going to be of the best. In Montreal the meet was nearly 14 miles from the city and the only way to get there was by train. Here there will be a special service of electric cars, as well as the train service. The Toronto Railway Company will loan a number of city cars to the company running to Weston. The cars will be run in trains of four, leaving every 12 minutes. A large gang of men were at work at the aviation grounds yesterday putting in loops and switches.

TOO WEAK TO COPE WITH NEEDS OF BIG COUNTRY

Surveys Branch of Department of
Mines Has Had To Hire
Outside Help.

OTTAWA, July 7.—(Special.)—In the annual report of the directors of surveys of the geological branch of the department of mines, just issued, the statement is made that the staff of the survey branch is too weak to cope with the pressing work of such an extensive country as Canada. In order to overcome the difficulty it has been necessary to engage outside experts.

During the past season D. D. Cairnes discovered a new occurrence of coal in the Whitehorse district of British Columbia. D. B. Dowling found a new and apparently important coal basin in Alberta.

W. H. Collins has reported on Montreal River district, which includes Gowganda and Maple Mountain districts. He states that the outlook appears to be satisfactory, the coal is of the sanguine expectations. The widespread distribution of ore offers serious disadvantages to economical mining. In regard to the Larder Lake district, the 100 female glove workers are confined almost entirely to stringers of quartz, which in many instances contain no gold, or too little for profitable mining.

WHAT CAUSED COLLAPSE? NOBODY SEEMS TO KNOW

Trestle at East Toronto Had Been
Inspected Way Before Fatal
Accident and Reported Safe.

The inquest into the death of Samuel Wheram, killed by the breaking down of a trestle over a coal chute in the area known as G.R.E. yard a week ago, was continued last night. Counsel present were T. L. Monahan, assistant crown attorney; W. E. Foster, for the G. T. R.; and T. P. Phelan for relatives of the deceased.

George Waugh, the Grand Trunk agent at York Station, said he had himself walked half way out on the trestle the day before, but had not noticed any defect in the business of James Campbell, the section foreman, whom he took up with him and left there. Campbell had inspected the rails and ties and reported them all right. At about 4 o'clock cars had been run out and dumped in the past, even when there was no coal below to strengthen the structure.

Foreman Campbell was next called. The trestle itself was, he said, under the bridge and building department.

Frederick William Bailey, foreman of the bridge-building crew, said he had been with the company a week for the last 20 in his present capacity. He had been instructed to repair the trestle, which he did to his entire satisfaction the day before the collapse, but this was at least 20 feet from the point where the break occurred. The accident was not necessarily due to a defect in the trestlework itself, as he had not noticed that the wood was dry-rotted. He knew nothing of the technical details of vibration and strains.

Coroner Young adjourned the inquest until Thursday, the 14th.

SMALL BOY DROWNS

Louis Howard, Aged 11, Perishes
While Bathing in Pond.

Eleven-year-old Louis Howard, 278 Jones-avenue, was drowned in a large pond in the Russell brick yards on Blake-street, last night. Corner Pickering may hold an inquest. The lad, with others, was bathing in the pond, which is caused by a spring in a disused clay diggings. When some distance from the end he cried out and sank. The other youngsters shouted for help. J. Lebar, 438 Jones-avenue, drew the body from the water, and with Mrs. Chapman, who lives nearby, worked on the lad, but could not revive him.

ROBLIN GOVERNMENT INSINCERE

Independent Candidate Says They
Will Abandon Public Ownership.

WINNIPEG, July 7.—The features of the past couple of days' campaign in Manitoba is the stumping tour of R. A. Bonnar, solicitor of the Grain Growers' Association and independent candidate in Assinibois, in the interests of the Liberals.

Bonnar claims that the government is insincere in its policy of government ownership of elevators, and at the close of the elections will abandon the scheme. Bonnar has always been a Conservative and was spoken of as a Conservative candidate for Winnipeg at the last Dominion elections. Bonnar says that he was offered a Conservative nomination, but refused.

To-night Hon. Robt. Rogers vigorously denied this and said that Bonnar had come to him and offered himself, "body, soul and breeches," provided they would see that he was not defeated in Assinibois.

LABOR COUNCIL ELECTION

James Watt and Joseph McCarthy
Nominated for Presidency.

Miss Agnes Nestor of Chicago, secretary-treasurer of the International Glove Workers' Union, and representative of the 100 female glove workers in this city. She also intends to do some general work for the benefit of the working women here.

Mr. Butterworth of Chicago, president of the Brick, Tile and Terra Cotta Workers' Alliance, also spoke. Mr. Butterworth is here to reorganize the Women's Trades Union League, which disbanded about three years ago.

Nominations were received for the different offices in the organization. The nominees are: President, James Watt and Joseph McCarthy; vice-president, N. Williams, W. Ayres, George Shipman and Frank Barron; corresponding secretary, H. R. Barton (accepter); financial secretary, James Ralph (accepter); treasurer, Isaac Sanderson and W. J. Storey; librarian, W. Hall (accepter); sergeant-at-arms, J. T. Richardson (accepter); trustees, H. F. Woodrow (accepter); J. F. Fitz and J. D. Corcoran; auditors, A. McBain, W. Brown and Angus Sinclair (accepter).

Three of the following will be chosen to represent the local unions at the convention of the Dominion Trades and Labor Congress, to be held at Fort Will, Labor Congress, in September: Frank Barron, H. Kennedy, J. Richardson and M. Sinclair. The election of officers will be held July 21.

70,000 QUIT WORK

Big Strike of New York Garment
Workers is On.

NEW YORK, July 7.—Obeying the strike order issued by their leaders, thousands of women cloak and garment makers in this city struck the afternoon for higher wages and improved working conditions. The strike order went into effect at 3 o'clock, and an hour later it was said at the union headquarters that the call to walk out was being generally obeyed. The prediction was made that 70,000 operators would have quit work.

TRIED TO KILL FOREMAN

Discharged Mine Workmen Returned
and Made Murderous Attack.

CORALT, July 7.—(Special.)—Fire completely gutted the cookhouse of the Nipissing mine early this morning. It is reported that seven Finlanders, who were discharged from the Quinlan property in South Lorrain, returned to-day and attacked the foreman with intent to kill. Constable Chapman, and explanations proved satisfactory. He thought the liveryman knew him.

BURIAL IN OAK TREE

Farmer's Coffin Will Be Fashioned in
Rough Wood.

MUNCIE, Ind., July 7.—A giant oak tree that has been withered from a sapling 75 years ago to its present size, will encase the body of Cary Fenwick, aged 77. His sons to-day cut down the great tree that grew in the dooryard of the family homestead and they are fashioning it into a coffin. Upholsterers will smooth off the roughness of the interior, but the outside and the lid will be of the unfinished wood.

Fenwick, who was a prosperous farmer, had always loved the giant oak, and his will made the request that he be buried in a coffin made from the tree.

FIRE IN CARRIAGE WORKS

Three Thousand Dollars' Damage to
Elder Factory in Midnight Blaze.

Three thousand dollars damage was done by fire of unknown origin, discovered at 12.15 this morning in the first floor of Robert Elder's carriage works at Phoenix and Soho-streets. When first seen, the blaze was shooting out of the front and side windows of the first floor and rapidly spread to the top of the three-story brick building. Deputy Chief Noble directed the work of the fire fighters and rapidly had the blaze under control, confining it to the front section of the building. The damage to the building is about \$1200 and to the contents about \$1000. The loss is fully insured. This is the second fire in this building, which is only three years old. The last blaze was in the basement about a year ago.

GOVERNMENT BUYS ELEVATOR

Winnipeg, July 7.—The Manitoba Elevator Company has completed its first purchase of an elevator, which is to be taken over and operated by and for the people. The elevator is located at Gretna.

DEBTEDNESS \$2,200,000

Receivers Appointed for The Boston
Herald Company.

BOSTON, July 7.—On petition of the International Paper Co., Judge Cull, in the United States circuit court today appointed John M. Morris of New York, receiver of the American News-paper Publishers' Association, and Charles F. Weed, an attorney of this city, receivers of The Boston Herald Co. Including a bond issue of \$1,700,000, the indebtedness is about \$2,200,000.

The court authorized the receivers to issue \$500,000 in certificates, to enable the business to be continued.

For many years The Boston Herald was one of the best known newspapers in the country. It was established in 1846.

NEW ENDURANCE RECORD.

BETHANY PLAINS, Reims, July 7.—M. Ollagiers to-day broke the record for duration and distance at the aviation meeting in progress here. He remained in the air two hours 23 minutes and 23 seconds and covered a distance of 133 35-100 miles. During the speed contest Leon Morane, the French aviator, covered 20 kilometres (12.42 miles) in 15 minutes and 42 seconds.

TRAVELER'S PREDICAMENT.

AYLMER, July 7.—(Special.)—Geo. McKay, a Toronto traveler, yesterday hired a horse and rig from Pierce's livery to visit nearby towns. At night, he thought he could cover his route better by starting out in the country. His absence resulted in the liveryman notifying the police to look for the outfit. McKay was found in Richmond, and explanations proved satisfactory. He thought the liveryman knew him.

MUST STICK ON THE JOB.

OTTAWA, July 7.—Employees of the printing bureau are not to have any holidays while the enquiry is in progress. An order to this effect has been issued by the secretary of state.

OPPEN NAVAL ACADEMY OCT. 1.

OTTAWA, July 7.—Arrangements are being made to open the Naval Academy at Halifax about October 1.

WILL ENFORCE ACT.

VICTORIA, July 7.—Hon. R. McBride to-day transmitted the reply of the government to the Vancouver and Victoria delegations seeking the non-enforcement of the companies' act. The government declines to interfere with the enforcement of the act.

\$30 PER FOOT
Choice ravine lots, 550 ft. frontage, will divide into 10 lots near St. Clair Ave. just west of Yonge Street. The locality is suitably restricted. A snap for quick sale.
H. H. WILLIAMS & CO.,
26 Victoria Street - Toronto.

30TH YEAR

PUBLICITY WILL SHOW THERE'S NO GRAFT

That's the Attitude of Ontario
Medical Council in Voting to
Publish Statements After
Vigorously Hammering Crit-
icising Editor.

The Ontario Medical Council yesterday voted that details of per diem allowance, mileage, etc., to members and examiners should be published in the annual statement, but not until several members had referred to the criticisms in The Canadian Journal of Medicine, which had helped to bring about the action. Dr. Merritt of St. Catharines said the criticisms were "with malice and contempt"; Dr. Starr thought it was time to remove the stigma. "We are clean, we show it, we make it to the medical profession; if we are not, we should make a trip to the laundry," he said. Dr. Henry thought the use of the word "graft," "unjust, unclean, unbecomingly malicious," while Dr. Temple resented "Dr. Young's standing up as a sort of monitor to teach us morals. I hold the man in absolute contempt. It is the first time that I have ever been accused of graft. Our expenses are undoubtedly too heavy, and we are starting in the right way to reduce them. But for the medical profession to be the first to turn out and charge the medical council with dishonesty is a disgrace."

Dr. Hart secured the formation of a committee to consist of Drs. Havel and Merritt and himself, to investigate courses and curricula of the colleges teaching medicine in Ontario, with a view to discovering if they fulfil the regulations of the council.

Adopted Amended Act.
Dr. Spankie moved, seconded by Dr. Robertson, that the council approve the proposed amended Medical Act of 1910, with reference to Dominion registration. Dr. King stated that it costs at present about \$15,000 a year to conduct the examinations, while under the terms of this act it would cost the government at least three times that amount.

Dr. Gibson considered that the weakness of the act lay in the fact that the practice of medicine was not defined.

Dr. Spankie said that the workability of the details was a matter for the Dominion Council to worry out. Had the practice of medicine ever been defined? He hoped the details of the council might become a consulting body—not merely a registering body, as the motion carried unanimously.

Barred Out.
A long discussion ensued on the subject of hydro and electro-therapeutics, resulting in Dr. Hart's motion to the effect that these subjects should be included in the curriculum, being lost.

On motion of Dr. Cormack, seconded by Dr. Hoor, a bylaw was passed to appoint a discipline committee, consisting of Drs. Robertson of Stratford, Spankie of Wolfe Island, Lutton of St. Thomas and Kitch of Ottawa.

Dr. J. H. Cormack then read the report of the complaints committee. The appeals granted are: William Mosher, Gillespie, George Bailey, J. G. Galle, M. E. Hobb, Dennis Jordan, Ernest Brunet, M. V. Leslie, C. F. Atkinson, J. E. Kidd, A. Collins, D. A. Dingwall, Harry Pirie, G. C. Macdougall. The request of W. Anderson, who had referred to the registration committee, was refused.

Dr. Temple then read the report of the special financial committee, recommending that each member should be paid at the rate of \$10 per half day, both while in attendance on council and committee meetings, and while coming and going by the most direct route; also, that each member should be paid

A RETROSPECT.
July 8, 1783—Montcalm's grave Abercrombie, by from Moncton.
July 8, 1792—Lieut.-Col. John Graves Simcoe sworn as lieutenant-governor of Upper Canada.
July 8, 1828—A large part of Montreal destroyed by fire.
July 8, 1836—Sir Charles Tupper, premier of Canada, resigned, the government having been defeated in the general election.

The Glorious Twelfth.
The procession on the Twelfth wouldn't be up to the mark if most of the men didn't wear silk hats. If every man taking part would wear a new silk, we think that the display would be better. Any way, a man should buy a new silk each year, for the style changes from season to season. The Dineen Company have imported a splendid line of silks at all prices, with a special at five dollars. The company have them cheaper and more expensive, but five dollars is a popular price, and in this case it is very good-bait. The Dineen Company's store, at Yonge and Temperance-streets remains open every evening.
