

WARM WELCOME FOR NOTED POET

C. G. D. Roberts Thrills Large Audience in Pythian Castle

Distinguished Son of Province Gives Recital Under H. S. Alumnae Auspices.

A warm welcome was extended to Charles G. D. Roberts, famous New Brunswick poet and author, by a large audience which filled Pythian Castle last evening. This distinguished son of the province appeared under the auspices of the High School Alumnae and his recital was greeted with hearty applause. Mrs. Margaret Lawrence, past president of the alumnae, presided at the chair, introduced Mr. Roberts and at the close presented a vote of thanks moved by Rev. H. A. Cody and seconded by Adrien Gillis. During the evening Mrs. H. H. MacMichael was heard in violin solos and Miss Louise Knight in vocal solos. Mrs. J. M. Barnes acted as accompanist.

HIS RECITAL.
Beginning his recital Dr. Roberts read first two stirring patriotic selections "Canadian Streams," which he said was a favorite of his own, and "Ode to Canadian Confederacy," which he read by request.

"SONGS OF THE COMMON DAY."
The next poem which he read were short lyrics from Songs of the Common Day, which he considered explained his philosophy of art or perhaps his philosophy of life. The first told of his aspiration "to see what beauty lies in common form and find the soul of unregarded things." The second of the group proclaimed his love of the mystery of memories.

He had been asked to read "Ballad of the Laughing Sally" but he would not comply as he considered he could not read dramatic verse.

AMUSING ANECDOTES.

Dr. Roberts interspersed his readings with amusing anecdotes of his career very cleverly related. He told how he had once sent back a poem a third time to the same editor and finally had it accepted as possibly because it was the easiest way of being rid of his persistence. Carman had tried that same trick and it had worked once in his case also but Dr. Roberts did not recommend it to budding writers. Lord Frederick Hamilton as editor of the Fall Mall had once sent Dr. Roberts an additional payment saying that the assistant editor had given too small an honorarium for so excellent a poem. Dr. Roberts regretted there were not more editors like Lord Frederick Hamilton and that the Fall Mall had failed. "Child of the Infinite" was the poem he referred to and describing it as a lyrical adoration of the Deity as manifested in nature he said it expressed the fundamental philosophy of most of his poetry. "Song of nature work" he called it. His reading of this gem of poetry called forth one of the heartiest outbursts of applause of the evening.

ATTITUDE TOWARDS LIFE.

A sincere expression of his attitude towards life he considered to be contained in "On the Road" which he read

ANÆMIA ROBS US VICTIMS OF SLEATH

Conditions of Thin Blood That Could be Corrected Easily by Dr. Williams' Pink Pills Are Stealing the Energy of Many Women and Girls.

Every mother should know how to recognize the symptoms of anæmia for this disease makes its approach so gradually and so stealthily that it is often far advanced before it is noticed. Anæmia literally means bloodlessness and it is the cause of much unhappiness and loss at this time.

Simple anæmia is thought to be due to lack of sunlight, to improper nourishment and insufficient out-of-door air. It is most common among people who are confined indoors by their occupations and among those who do not eat regularly or who do not select a proper diet.

Look Out for These Symptoms.

The one general symptom of anæmia is pallor. The cheeks gradually lose their color, the lips become white. With this loss of color there comes a tendency to fatigue, a palpitation of the heart and breathlessness after slight exertion, with occasional headaches.

Even in health the lips are not really as red as the rest of the skin but they are transparent and allow the red blood to show through. The part of the blood that gives it its color is the red corpuscles and these corpuscles are made red by the hemoglobin they contain. Therefore when the blood is deficient in hemoglobin the lips are pale. Thin blood is not to be confused with impure blood which causes the lips to become purple.

Any Girl Can Tell.

But this condition is corrected with so much ease that no one should remain anæmic longer than a few days. Dr. Williams' Pink Pills supply the elements necessary to enrich the blood with such certainty that a microscopic examination after short treatment shows the actual percentage of increase in the corpuscular count. But, so marked is the improvement that a microscope is unnecessary. Any girl can tell by the growing redness of her lips, that Dr. Williams' Pink Pills are making her blood rich and red.

able to feed themselves. They cannot attend to their duties satisfactorily and are unable to get any pleasure out of life. People who suffer in this way soon lose their energy of mind and body. They lack vitality because their blood is poor and ill-nourished, and their nerves are starved in consequence. The only way to obtain new health is by building up the blood with Dr. Williams' Pink Pills. The new rich blood made by these pills will carry renewed health and energy to every part of the body. Your appetite will improve, your spirits brighten and you will be endowed with fresh energy and find a new joy in living. Mrs. G. Reid, Napanea, Ont., tells of the benefit she found in the use of Dr. Williams' Pink Pills. She says: "I have used Dr. Williams' Pink Pills on different occasions and cannot emphasize too strongly the benefit derived from them. I was growing nervous, my complexion was becoming sallow and my eyes dull and listless. My vitality was poor and I did not sleep well. I became despondent, losing interest in my work, which seemed to tire me so easily. I began using Dr. Williams' Pink Pills and after taking six boxes I began to enjoy life again and looked much brighter and felt happier. My appetite improved. I gained in weight and could sleep without any nervous wakefulness during the night. I also used these pills while nursing my baby and found them a wonderful help both for myself and for making my baby better natured. For these reasons I gladly recommend them to anyone who needs a tonic for the rebuilding of strength and energy."

Too Weak to Walk.

"I owe my present good health to Dr. Williams' Pink Pills," says Mrs. Anne Treherne, Brandon, Man., who tells of her new-found health as follows: "Some years ago I had an attack of pneumonia and it left me in a terribly weakened and run-down state. I was unable to walk for a long time as I had practically lost the use of my legs, and had to be carried upstairs, for I had not the strength to go myself. I became despondent over my condition for I had tried many remedies, which failed to help me. While in this wretched condition a lady friend urged me to give Dr. Williams' Pink Pills a trial and I procured a supply. After taking the pills for a while I could see that I was growing stronger, and

I gladly continued their use until I fully regained my old-time health and strength. Now if I feel at all run down at any time I at once take Dr. Williams' Pink Pills, and they never fail me. I can therefore warmly recommend them to others who may be run down."

Nature Gives Warning.

Pain is one of Nature's warnings that something is wrong with the body. Indigestion, for instance, is characterized by pains in the stomach, and often about the heart; rheumatism by sharp pains in the limbs and joints, headaches are a sign that the nerves or stomach are out of order. In some ailments, such as anæmia, pain is not so prominent. In this case Nature's warning takes the form of pallor, breathlessness after slight exertion, palpitation of the heart, and loss of appetite. Whatever form these warnings take, wise people will not ignore the fact that many diseases have their origin in poor blood, and that when the blood is enriched the trouble disappears. Dr. Williams' Pink Pills are most helpful in such cases because they purify and build up the blood to its normal strength. In this way it tones up the nerves, restores the appetite and gives perfect health. Miss Hazel Bernat, of Annapolis, Ont., has proved the great value of this medicine and says: "I am a young girl and have been working in a factory for the past four years. For two years I have been in such poor health that at times I could not work. I was thin and pale, and troubled with headaches and fainting spells. I doctored nearly all this time, but it did not help me. My mother advised me to take Dr. Williams' Pink Pills, and after using them for a while I could notice an improvement in my condition. I used nine boxes and can truthfully say that my health is restored. When I began taking the pills I weighed 97 pounds and now I weigh 114. I feel that I owe my good health to Dr. Williams' Pink Pills and hope other ailing people will give them a fair trial."

A very useful book "Building Up the Blood" will be sent free on request by the Dr. Williams' Medicine Co., Brockville, Ont.

Dr. Williams' Pink Pills are sold by all druggists or will be sent by mail, post paid, on receipt of price, 50 cents a box. Try them today.
