American Hunters Are Up To Average

Fredrickton, Oct. 6.—The number of American sportsmen hunting big game in New Brunswick is steadily increasing. It is believed to be about the average although the moose hunting season has not been open long. A change in the distribution of the parties is noticeable however. Fredrickton which used to be the main point of entrance for all sections had very few so far. Newcastle and Plaster Rock have had many, however.
The reason for this is assigned to the system followed by the Canadian National Railways in routing American sportsmen from points on lines in the United States operated by the C. N. R. so as to keep them on C. N. R. lines all the way.

CURZON'S STATEMENT CRITICIZED

London Press Impatient that Definite Policy is Not Declared.

ACTION ASKED FOR

Increased Need for British Intervention Urged by The Times.

(Canadian Press Cable.)

London, Oct. 6.—It cannot be said that Lord Curzon's statement before the Imperial Conference received a warm reception from the press. While there are indulgent comments on some parts of the official summary of the news, the newspapers, a majority of the editorial display impatience that no definite British policy is revealed and that this country apparently is to wait to see what France does.
That section of the Liberal press represented by the Westminster Gazette and the Daily News is gratified at being able to deduce from the statement that the Government's attitude towards the rights and wrongs in the Balkans is unchanged and that Premier Baldwin has apparently considered nothing in the event of a change in the British policy. These newspapers, however, express urgent anxiety that something be done, believing that a revival of British trade and a reduction of unemployment are impossible until something is achieved to relieve the economic situation.
Chronicle Indignant.
The Daily Chronicle, representing the views of David Lloyd George, writes indignantly:
"Rarely were expectations raised so high. Never were they bumped so heavily on to emptiness."
The Daily Mail calls for a definite statement of what the Government proposes to do, and asks whether the Foreign Secretary is trying to lead the Estates.
The governmental Morning Post thinks the statement will satisfy all reasonable Englishmen.
Need For Intervention.
The Times fears that part of Lord Curzon's remarks are likely to provoke resentment in France, and believes the Government should take steps to meet the situation.

EX-PREMIER RECEIVES OVATION

Welshman and Party Cheered as They Leave for Canada.

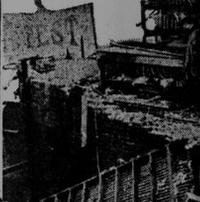

GUESTS OF C. N. R.

Strong Police Guard Will Meet Train on Arrival at Montreal.

(Canadian Press.)

New York, Oct. 6.—The five car special train bearing the party of David Lloyd George, former Premier of Great Britain, to Montreal, on the first lap of his tour of Canada and the U. S., pulled out of Grand Central Station at 8.44 a. m. today.
Guests of C. N. R.
After being guided by police and detectives through a cheering throng of admirers in the star-domed concourse of the big station, the dapper little Welshman and party were escorted in the private car "Ottawa," in which, as guests of Sir Henry Thornton, president of the C. N. R., they will live throughout their travels on tour.
Was First Up.
Although he had been first up, after one of the most strenuous days of a long and arduous tour, Lloyd George was bright eyed and smiling and the most cheerful of his party. He talked little but smiled a lot, waving his black waist stick and doffing his square crowned derby in acknowledgment of the shouts which accompanied his entrance of limousines from the Waldorf Astoria to the station.
The diminutive statesman was up at 6:30 this morning, long before other members of his party were abroad, and hurried to the train, where he was already having filled with guests eager for a sight of the famous islander.
Much in Demand.
The flood of invitations from western cities which Lloyd George received yesterday and last night induced him to take under advisement this morning a proposal that he extend his Canadian tour westward from Winnipeg to Vancouver and Pacific coast states, it was announced by Peter B. Krus, U. S. author who is managing the visitor's programme.
Mr. Krus said, however, he "doubted very much whether the present itinerary could be altered." Lloyd George was to have gone from Winnipeg down into Minnesota, to circle south and eastward back to New York.

All Montreal will be in ete for the 48-hour visit of the former Premier, the streets will be bedecked, while the meeting at which he is scheduled to meet before leaving to face his trial.

9-Year-Old Wanders 17 Days In Woods and Comes Out Unharmed

Saskatoon, Sask., Oct. 6.—After 17 days of wandering alone in the wilderness around The Pas, Man., George MacLeod, a 9-year-old Indian boy, was found yesterday unharmed. Except for a quantity of matches, he had no supplies with him in the 100 or more miles of his travels, but according to his story, which cross-examination failed to shake, he made himself a bow and arrows and lived off the country.
Seventeen days previous the child ran away from McKay Boarding School at the Big Eddy, six miles from The Pas. He was found at Sturgeon Landing. To reach there he would have to make his way through bush and around deep bays, and cover a distance of at least 100 miles.
He said that he had made himself a bow and arrows with which he had killed rabbits, chickens and other small game. He had found no difficulty in catching all the fish he wanted, and once got away unscathed with two large banners from a trapper's cabin.
Old timers at The Pas experienced in hiking put the boy through a grueling cross-examination and had to admit the youngster possessed a natural sense of direction and resourcefulness without equal so far as their memory goes.
